GENERAL NOTES

1. Parking area and drive lanes to be a hard and durable surface
2. No portion of the site is within the 100 year flood plain per FIRM Map No. 21111 C 0115 D date February 2, 1994.
3. Drainage pattern depicted by arrows (——>) is for conceptual purposes. Final configuration and size of drainage pipes and channels shall be determined during the construction plan design process. Drainage facilities shall conform to MSD for approval.
4. Erosion and Silt Control: Prior to any construction activities on the site a Erosion and Silt Control Plan shall be provided to MSD for approval.
5. All lighting on the site shall be directed down and away from adjacent residential uses and the State right-of-way.
6. Sanitary sewer service will be provided by lateral extension and existing sanitary. A letter stating that sanitary sewer capacity is available will be required from Middletown Waste Disposal, Inc. prior to preliminary plan approval.
7. Any change in runoff to the State right-of-way will be subject to encroachment permit review. Calculations will be required for any change in runoff to the state right-of-way. There should be no increase in drainage runoff to the right-of-way.
8. There should be no commercial signs located in the state righe-of-way and there shall be no landscaping or work done in the state right-of-way without an encroachment permit.
9. A "Reciprocal Parking and Cross-over Access Agreement" has been recorded in DB 5892 Pg. 404.
10. The Bearings and Distances shown hereon do not constitute a surveyed boundary.
11. An encroachment permit and bond will be required for work in the R/W.
12. Building Setbacks along English Station Road are 60' from centerline.
13. Building Setbacks along Aiken Road are 40' from centerline.
14. Existing detention basin to be enlarged if necessary to accommodate increased runoff.
15. All existing drainage structures to be checked for capacity due to increase in runoff.
16. Any further development of the site shall be required to provide an updated traffic and air quality analysis as required by KYTC, APCD and Planning & Design Services to determine transportation improvement needs included but not limited to: Signal timing changes, signal modifications, left and right turn adjustments, and road improvements.
17. Sidewalks shall be constructed along Frontage road at the time of construction of each future phase. Construction of sidewalks along North English Station Road and Aiken Road shall coincide with the construction of the adjacent parcels respectively.
18. All roadway and entrance intersections shall meet the requirements for landing areas as set by Metro Public Works.
19. Verge areas within public right-of-way to be provided per Metro Public Works.
20. Cross over and parking agreements shall be provided where applicable.
21. The address range for this site is 12937 thru 12981.

✱ TARC Stop ~ Shelter
