---

Hello, my name is Alex, I am writing With regard to matter concerning a violation of encroachment, I would like to say I love my city, I own my home and have lived on Highland Avenue for 20 years, I would like to see this matter resolved fairly and efficiently. The local Louisville Metro codes and regulations should be involved in keeping these matters simple! any ***violations*****(not a subjective word)** should be regulated and dictated efficiently based on law and code. Anything less is a failure from the local governing body. Local citizens should be able to depend on the local governing body to regulate and dictate local law by **enforcing it**… if not local officials then who?
The party who has built a structure beyond the bounds of a code should be made to resolve the situation immediately!!! It seems ridiculous there would be any question or any need for the party subjected to the violation to have to go to this exhaustive means to resolve it.
Any local dispute like these be it; right away, private alley, encroachment, building violations, regardless of when they took place, all were done Knowingly… *Let's be honest*, the perpetrators are attempting to steal, cheat, manipulate and bully a neighbor; it's sneaky, offensive and unlawful. (Sorry in no other crime can you plead ignorance of law, and be dismissed or grandfathered in)
It just requires a simple action based on laws that have been established to protect and prevent these issues.
Just enforce the law, please!

Thank You
Alexander King II
