Cynthia - another example of neglect. I have wondered for years that whoever invested in this property didn't take the next step. With the hundreds of units being built across Lexington Road and the huge development at Lexington Rd and I-64, I don't understand why such a desirable location requires scaping rather than adaptive reuse. This is exactly the sort of property that the Commission needs to take a stand on so the pattern doesn't continue to perpetuate.

Thanks and Happy Holidays and stay safe.
