Heather,

This is Margie McClellan, my mother Peggy Beale (84 years old) lives at 310 Penruth Ave..... directly behind the home at 311 Winton seeking the variance.

She objects to the building due to how the size and HEIGHT of the garage will alter the character of her property and the vicinity.

Can you notify my mother when the hearing is scheduled and we will attend to voice our concerns?

Also, would it be helpful at this time to send you photos of why she feels this way?

Andrea was very helpful! I look forward to speaking with you.

Most sincerely,

Margie McClellan

I am sending these photos to illustrate and support our concern and objection.

Picture 1... length of 6 ft Winton fence on left running parallel to Beale fence

Picture2&3...Height of retaining wall behind Beale property that 6ft Winton fence rests

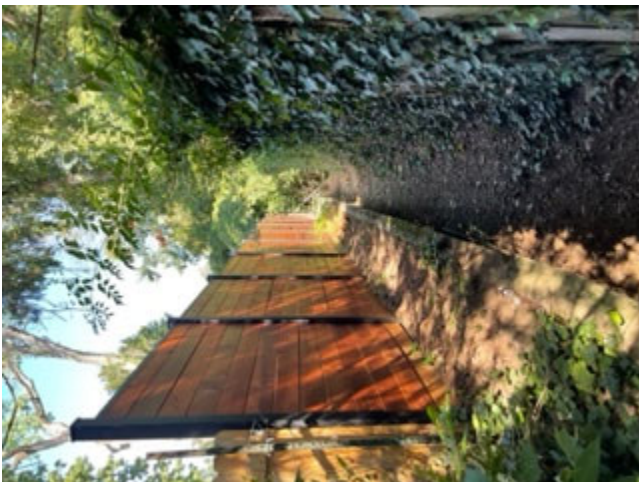

Picture4... View of incline up
side path of Beale property to further show Beale property sits lower than Winton property

Picture 5... View from Beale back.. Winton fence visible

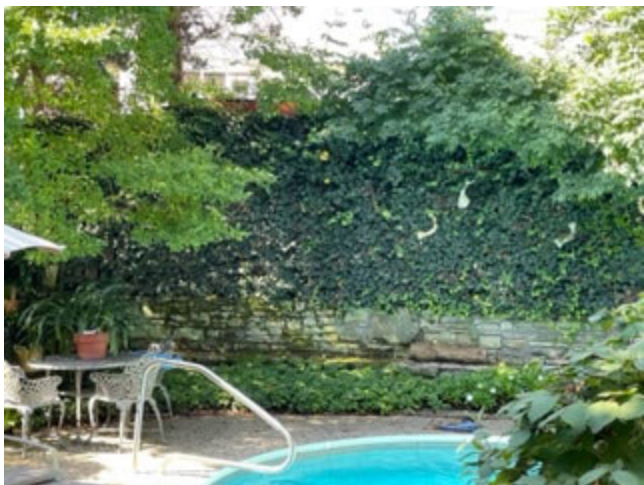

These photos illustrate how a 22ft tall building running the length of the Beale property will dramatically alter the character and light of Beale property.

Respectfully,

Margie McClellan

Good morning! Mother received her notification and plans on attending. I took one more picture of the Winton property... you can see how low my mother mother's property since in comparison thus the concern over the building/building height.

Thank you for your help.

Margie
