

Unedited Captioning Transcript of Budget and Appropriations Committee Meeting - March 23, 2023

Good afternoon. My name is Kevin Kramer. This is the budget committee meeting. This is March. 23rd.

It is for 34, we're going to go out and get going.

Councilman BLACKWELL has unexcused absence. Councilman Parker has an excuse absence as I said, I'm counseling Kevin Kramer.

I'm joined in chambers by councilman Arthur councilman.

Councilman Ben Reno Webber accounts.

Kevin Mulvihill is joining us online counseling founders in the room council in the room. Councilman Hudson is in the room. We are joined also by councilman Baker and councilman Shanklin and councilman chapel.

Colleagues did I miss anyone? I did I said we are joined by councilman Arthur who's on the committee?

Okay, so we have several items before us today so we're going to go out and get started Madam clerk. If you would.

Reading the disclaimer this meeting is being conducted pursuant to as 61.806 and.

Council wonderful. Thank you. The 1st item is an ordinance. It's ordinance. 44,923.

it is an ordinance appropriating 50,000 dollars from district to neighbor development funds through the office of management budget to elder serve Inc for home, repairs, meals and social and recreational activities for senior citizens in district 2.

can I get a motion motion? two can i get a motion motion

Properly before us, is there someone here from district to speak to this? Please introduce yourself for the record.

Yes, thank you. I'm Kayla powered a legislative assistant from district 2.

This money Dr Shankman wanted to put into, which has recently started their activities again.

To benefit our seniors in district 2 for.

Meals any kind of like home repairs of emergency home repairs they might need. We get a lot of calls.

From seniors who can't necessarily do that kind of work.

And this money is to go to that and I also have Reverend Tim family here from elder, serve the director and he'd like to give a few comments as well.

Unfortunately, again, if you'll just introduce yourself, I'm friendly CEO of, um.

This this money is very, very crucial vital to what we're doing. It's not.

With elders, we all know that they shut down last April and it shutting down. It created a really a tsunami of issues now that we're back open the senior center. All the activities have started back up.

We're now seeing outpouring need from seniors who are calling us not just from district to but I would say.

What we're fielding every day is probably senior from all of your districts. We've got people from Jay town to Greek to Russel to.

Wherever else, and we want to make sure that we're positioned to help our seniors because up to this point, there hasn't really been.

A lot of help so, as you heard.

Born and raised in New York, so I'm going to always.

Sort of gravitate to the new district council Shanklin, but it's not just district too. We want to be positioned to help everybody. So I hope in considering.

To fund, and to put into this, that you realize that the vision here, whether it is clean up after storms, whether it is minor repairs, whether it is activities.

Whatever we can do we want to position the difference now?

With the versus when we shut down.

We focused our our vision, we focused our reach.

so instead of doing ten different things we're focusing on the senior center we're focusing in on what's coming the adult day which we just had the press conference with the governor and the mayor and all that good stuff but we want to make sure that we're positioned to be

responsible

With the monies that we have coming in and so that's that's the long and short of it. So.

I know that whatever we requested, I'm sure that's just a drop in the bucket for.

You know, really what needs to happen. So I'm supposed to play a good. You don't mind stay closer questions. The council Arthur.

Thank you so much, and I'm excited to give to other serve, but could we just have clarification because it says district to.

And we just talked about potentially having a different ordinance sponsored by Western council members to support auto serve. Could you just clarify that for us? No, that is true.

The ask on this was 150,000 when we 1st started, we thought that maybe other council people would add on to this and it would be multiple council districts. be multiple council districts

however right now the language in this particular india is for only district two so if you'd like to give us money that's awesome

But otherwise it will be your own.

Uh, and you pretty much copy what I have just tailored towards your own.

District and put in another India might I ask a councilman.

Counseling would you object to change the language so that it doesn't exclusively go to district too? So we can tag on to this particular appropriation.

I, I don't really object, but I just want to make sure my district gets to 50,000 dollars. They're 50,000.

I know somebody's putting in a 1000 dollars, and I are going for that and there was some back and forth. I'm not sure definitely county's attorney officer or Mr. with Tanya might have some commentary on that.

Hello, my name's what time you'll be on the council financial analyst, the way that actually ndf application is written up and there's a current 1 that needs to be uploaded. And so I'm just going to take care of that shortly.

But the way the application itself is written, any other district can give, but you're going to give for multiple things.

Side of the India application, but the Pacific portion.

Of the 50,000 is only to be used for district 20. excuse me for district too they spelled out specifically out of the multiple things that the funds would be used for only the Pacific pieces.

That they won't district of 2 funds to be used for. So, other people can add to it. Just realized. Let me see if I can pull that up.

There's other things included that your funds can be will be used for, like, activity, services, workshops, programs, salaries for 2 part time employees.

In a vehicle maintenance and also property made, uh, maintenance.

So, there's several things that the funds are needed for the 150,000, the district to like, to tell them.

Specific items funding with their phones.

So, you can't give to this particular India request if you want to.

Take that off for clarification.

so i can give some money and it'll come to a different district it will go to van maintenance or it will go to the part time salaries employee part time employee salaries or it will go to other operations that they have listed here that may not be in district

Yeah, so the van maintenance salaries, we have 3 vehicles in order for us to get into your districts, pick up those seniors and get them to the senior center.

That's why that's in there. So, that is why that language is there to offer transportation to our beautiful senior center.

And the senior center program and supplies again, that wouldn't be limited to district too either.

Yeah, the thing you said for those who don't know it's the 2018 magazine we are in the process of renovating 1 side of the property.

To prepare for the adult day health center the senior center is up and running now and we're seeing on average.

Any given day, somewhere between 60 and 70 seniors already we expected on the 1st day 15, and we had 60 the 1st day 10 before we actually opened the doors. So, and they came from everywhere.

In your okay, Acorn property maintenance. Can you speak to that? Just a little bit.

Yeah, well, I mean, the, the property is.

Good condition, but it's an older building so we've had to replace everything from HVAC to plumbing, all those good things.

So, in an effort to keep that building up to date, we will need to have ongoing maintenance of the building with that many people coming in. So, in my district just does open acorn. What district is that? Intersection?

I apologize. I should know. But.

Yeah, that's district 5.

Okay, so was it for.

Well, we've been saying, Western fairness to the revenue, in fairness to the Reverend, we redistricted. So that's a very good point.

My point didn't say that I guess the reason for pointing that out is the ordinance says maintenance of property at open acorn. And that clearly is not in district too. I just wanted to verify. It's not in district. California. Donna purpose is our council person.

So so again, just know the way this is written that money would be used for any 1.

These different things councilman Shankland money would only be used specifically for district 2 residents.

So, yes, anyone else who wants to join in is certainly free to do. So.

Council amendment.

Yes, in the spirit of cooperation.

For the community district, 7 would like to put 2000 dollars for the property maintenance.

Mulvihill district Tim would add 100,000 dollars.

Tells me they're crazy. I mean, I'm sorry, Calvin Arthur.

District for 2000, we might do more after we talk with our other Western colleagues, thank you.

Anyone else downstream Baker.

District 6 way I'd like to add 2000 dollars and then I'll be getting with your customer as well.

When district 19,000 dollars place.

The others would someone do me the favor of putting that in the form of emotion.

Motion 2nd. Okay. We have the amendment before us. I'm sure someone quickly did the math.

Oh.

Okay, so we just added an additional 8,000, which is still well well, below the original ask any others.

Communication with us, we don't have a sense yet of exactly how much money that is they are very,

it seems to me in our conversations that they understand we have some ideas about where that money would go should that money come available and so we're going to hold this here and make sure that those conversations continue. So unless there are questions, we will be adjourned.

council member cranium before we adjourn okay we're adjourned
