Public Works will accept funds for this street light project but actual cost will be based on the streetlight selected for each location.

Mr. Sparks and Brown,

Attached is a list of 121 locations Councilman Peden would like to see street lights added. We did our best to provide addresses and provide numbers but understand not every location may meet the guidelines once evaluated by Public Works and LG&E. At a cost of \$681 dollars for a 5 year contract, the total for this is \$82,401. He'd like to use NDF funds to pay for it.

Will Public Works accept this funding? Please let me know if you have any questions.

Thank you,
John Torsky

Jennifer,

I believe you may be the point of contact for street light pricing but wasn't sure so I included a couple others we have worked with in the past. We are requesting an updated pricing list for street lights. If you need anything else from me please let me know.

Kindly,

Stuart

Mr. Sparks,

Can you let me know what the current rate for 5 years of street lights are. The last time we did this in March of 2021 adding a light to a standard pole was \$681. Attached is the sheet from those.

Thank you,
John Torsky
