Dear Dante,

I have spoken with John Talbott concerning my comments and he has assured the developer will put a privacy fence (he mentioned 8 feet) along our property line along with aesthetically pleasing buffer landscaping. With this assurance and give my support to the project and if it is not too late, request that this email become part of the record

Thank you,

Steve Noland

Subject: Property at 805 South English Station Rd.

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

It has been brought to my attention that the proposed apartment buildings at 805 South English Station Rd. will be positioned to that the rear of the buildings closest to South English Station Rd. show to be positioned that the rear of the buildings will be facing the road. However, ALL OTHER developments along South English Station Road have their buildings positioned so that the FRONT of the buildings faces the road. I want to request that the buildings at 805 be repositioned to face South English Station. Does that sound reasonable and workable?

Best regards -

David Logsdon

July 14, 2022

Dear Council Members,

My wife and I live at 803 South English Station Road. Our property is 1 & ½ acres along the northwest boundary of the apartment development. We are both retired and have resided here for 12 years.

We are not represented by the attorney that is representing many neighbors further down the fenceline eastward and on the east end of the project. However, we had made comments at the neighborhood meetings and submitted formal comments to Planning and Design Services on April 26, 2022 regarding a few of our concerns. Adjustments to the original design were made to provide additional buffer for the properties further eastward down the north fence line and on the east end of the development. As a result, the green area along our driveway was reduced and the buffer for our property was not increased. Thus, primarily, our original comments were asking the developer to (1) re-establish the green area in the northwest corner adjacent to our driveway and front yard by moving the apartment building that runs parallel to our property 30 feet to the east as it was originally proposed, and (2) to provide additional buffer between our property and the that apartment building.

The present design of the development shows the apartment building's footprint was increased with the leading west side edge shifted about 15 feet to the east and no adjustment to the buffer distance. As a result, the buffer for our property remains the only one not increased from the original design as can be seen when viewing 22-ZONE-0049_Plan_062722. Additionally, the green area in facing S. English Station Road bordering our property remains greatly reduced from the original design. For convenience and comparison purposes, please find attached the original design 02 14 22 DDDP-Filed Pre-app (8) and also the latest design mentioned above.

The south side of our house is contains bedrooms and is 30 feet from the property line. If the apartment building parallel to our property could be shifted another 15 feet eastward from the latest design, it would begin perpendicular to the back corner of our house instead of the middle as originally proposed and requested in my original comments. With these comments we are requesting the design of the development to include this shift eastward and a shift to the south to allow for more buffer similar to other properties bordering the development.

We have also heard the developer mention that he is planning to include a 6 foot privacy fence bordering the development. Currently our property has a black 3-plank wood (horse farm type fence) along that border. As the privacy fence would be preferable, we request the developer to

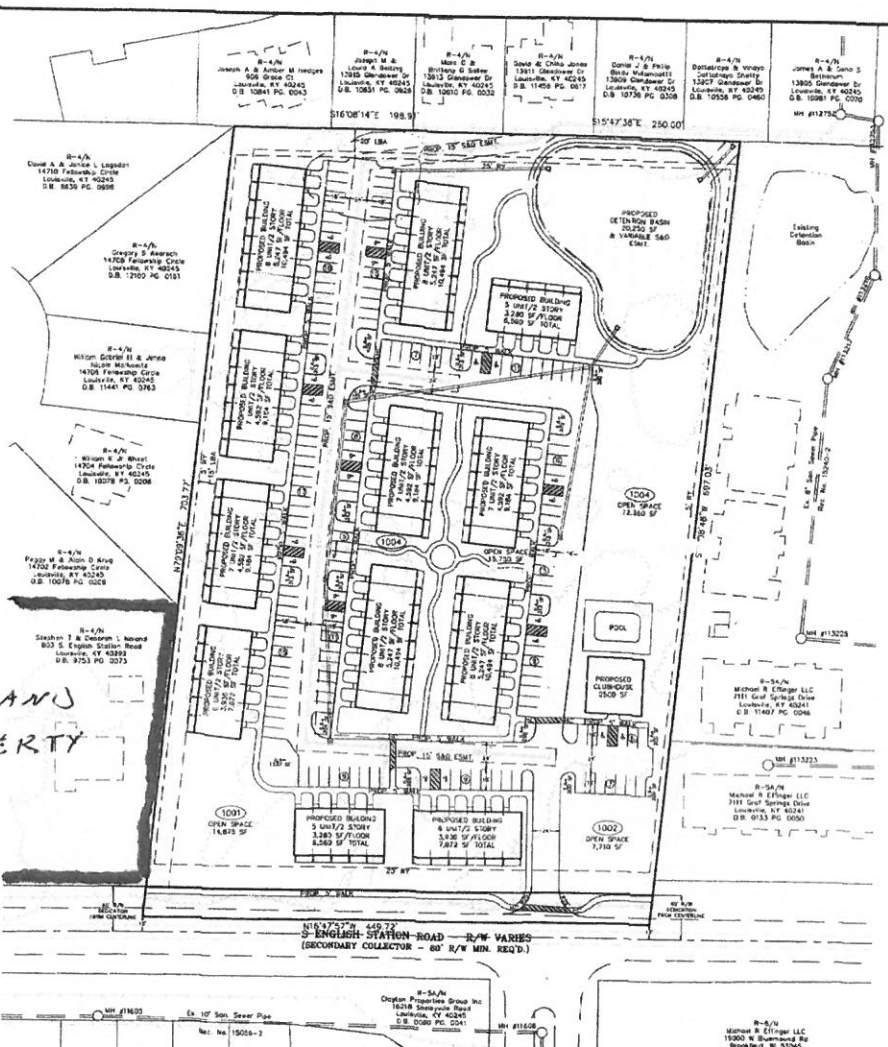

remove the existing plank fence and replace it with the privacy fence.

Thank you for your consideration,
Sincerely,

Steve Noland

- GENERAL NOTES:**
- Parking areas and drive lanes to be a hard and durable surface.
 - An architectural permit and bond will be required for all work done in the right-of-way.
 - There shall be no commercial work in the right-of-way.
 - Site lighting shall not shine in the eyes of drivers. If it does it shall be re-oriented, shielded, or turned off.
 - Construction fencing shall be erected prior to any construction or grading activities preventing excavation of soil systems of trees to be preserved. The fencing shall enclose the area beneath the drip line of the tree canopy and shall remain in place. No parking, material storage, or construction activities shall be permitted within the fenced area.
 - Mitigation measures for dust control shall be in place during construction to prevent fugitive particulate emissions from reaching existing roads and neighboring properties.
 - Consistent utilities shall be placed in a common trench unless otherwise required by appropriate agencies.
 - Wheel stops or curbing, at least six inches high and wide, shall be provided to prevent vehicles from encroaching existing sidewalks, properties or public right-of-ways, to protect landscaped areas and adjacent properties. Wheel stops shall be located at least 15 feet from any adjacent wall, fence, property line, woody vegetation, walkway or structure.
 - Boundary information was taken from deeds.

- MSD NOTES:**
- All retail shops must have individual connections per MSD's Iga, sig and grease policy.
 - Construction plans and documents shall comply with Louisville and Jefferson County Metropolitan Sewer District Design Manual and Standard Specifications and other local, state and federal ordinances.
 - Sanitary sewer service will be provided by lateral extension and subject to applicable fees. A Downstream Facilities Capacity request will be submitted to MSD.
 - No portion of the site is within the 100 year flood plain per FEMA Map No. 21111 C 0003 E dated January 28, 2021.
 - Drainage patterns depicted by arrows (imp) is for conceptual purposes.
 - If the site has lateral drainage an easement plot will be required prior to MSD granting construction plan approval.
 - On-site detention will be provided. Post-developed peak flows will be limited to pre-developed peak flows for 2, 10, 25, and 100 year storms or to the capacity of the down-stream system, whichever is more restrictive.
 - All drainage, EPCO and Water Quality practices shown on this plan are for conceptual purposes only. Final design of these elements will be determined prior to construction plan approval and will comply with all USA and MSD Design Manual requirements.
 - The final design of this project must meet all MSD water quality regulations established by the MSD. Site layout may change at the design phase due to proper siting of Green Best Mgmt. Practices.

- GENERAL NOTES:**
- Parking areas and drive lanes to be a hard and durable surface.
 - An encirclement permit and bond will be required for all work done in the right-of-way.
 - No increase in drainage run-off to state roadways.
 - There shall be no commercial signs in the right-of-way.
 - Site lighting shall not shine in the eyes of drivers. If it does it shall be re-aimed, shielded, or turned off.
 - Construction fencing shall be erected prior to any construction or grading activities preventing compaction of root systems of trees to be preserved. The fencing shall enclose the area beneath the drip line of the tree canopy and shall remain in place. No parking, material storage, or construction activities shall be permitted within the fenced area.
 - Particulate matter for dust control shall be in place during construction to prevent fugitive particulate emissions from existing nearby roads and neighboring properties.
 - Compatible utilities shall be placed in a common trench unless otherwise required by applicable agencies.
 - Wheel stops or curbing, at least six inches high and wide, shall be provided to prevent vehicles from overhanging abutting sidewalks, properties or public right-of-ways. To protect landscaped areas and adjacent properties, wheel stops shall be located at least (3) feet from any adjacent wall, fence, property line, nearby vegetation, walkway or structure.
 - Boundary and topographical information shown herein were derived from LIDAR data. Boundary information was taken from deeds.
 - Street lines shall be planted in a manner that does not affect public safety or hinder sight distance. Final location will be determined during construction approval process.
 - No signs or features were observed on site during a site visit on April 29, 2022, by Derek Triplett, RLA.
 - Construction plans, bond, and permit are required by Metro Public Works prior to construction approval.

- MSD NOTES:**
- All retail shops must have individual connections per MD's rules, use and grease policy.
 - Construction plans and documents shall comply with Louisville and Jefferson County Metropolitan Sewer District Design Manual and Standard Specifications and other local, state and federal ordinances.
 - Sanitary sewer service will be provided by lateral extension and subject to applicable fees. A Downstream Facilities Capacity request will be submitted to MSD.
 - No portion of the site is within the 100 year flood plain per FIRM Map No. 21111 C 0050 C dated January 26, 2021.
 - Drainage pattern depicted by areas (shaded) is for conceptual purposes.
 - If the site has thru drainage an easement plat will be required prior to MSD granting construction plan approval.
 - On-site detention will be provided. First-catchment peak flows will be limited to pre-developed peak flows for 2, 10, 25, and 100 year storms and the capacity of the down-stream system, whichever is more restrictive.
 - All drainage, EPCO and Water Quality practices shown on this plan are for construction purposes. Final design of these elements will be determined prior to construction plan approval and shall comply with all MSD and MSD design Manual requirements.
 - The final design of this project must meet all MS4 water quality regulations established by MSD. Site layout may change at the design phase due to proper sizing of Green Best Mgmt Practices.
 - MSD drainage bond required prior to construction plan approval.

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

Dear Ms. Germain:

I was online with the Land Development & Transportation Committee today and listened intently to the discussion on this case. 805 S English Station Road

The issue of connectivity was long discussed. One of the most important reasons we, as owners/residents of Lake Village Patio Homes, do NOT want a connecting road from the apartment complex to RIDGE POINT DRIVE is quite obvious because we pay HOA fees monthly (not cheap). These HOA fees are to maintain the outside property which includes road maintenance among others. We **PAY** for this to be completed and any connecting road from the apartments would **not** pay for any damage or long term road problems that may be experienced in our Village of owners/residents. We would not give our approval to allow apartment dwellers to use RIDGE POINT DRIVE as a cut through.....just too much traffic and wear & tear on our roads within Lake Village.

Please see that the Committee understands our objection.

Thank you
Marti Foster

I live at S. English Station rd and Wibble Hill.

Since you people have never met a development you havent liked I wish to let you know how it has affected me and my wife.

Traffic on South Pope Lick, Poplar, S. English Station rd has gotten out of hand. These roads were not built to accommodate the extreme volume already there which will only get worse because of all the developments going up out here. Do you have any idea of the amount of traffic on them? To my knowledge I've yet to see any mechanisms to count the amount of traffic on any of the aforementioned roads.

The development at 1200 S. English has impacted our property because now I've had an infestation of moles, 6 taken in the last several months at a cost of 4-5 hundred dollars. I now have either a gopher or a groundhog living under my shed.

At what cost will there be to existing homeowners who have live out here, we have been here since 1999?

Do any of you who work in Metro Government actually care?

Dont bother to respond because actions speak louder than words.

On Thu, Mar 10, 2022 at 3:57 PM, Dennis NEWTON <dnewto15@bellsouth.net> wrote:

Ms. Newton,

The proposed development at 805 S. English Station Road is a re-zoning case that will go before Metro Council for final action. Since councilmembers vote on zoning changes, they can't participate in off record conversations. They can only base their decisions on testimony entered into the public record. To do so otherwise, may face a court challenge.

Your comments can be part of the official record that Councilman Kramer will be reviewing by participating in the public hearings or sending your comments to the case manager, Dante St. Germain, who I've included on this email. Her email address is dante.st.germain@louisvilleky.gov and her phone number is 574-4388.

Public Hearings haven't been scheduled yet because the applicant is required to host a neighborhood meeting to share plans with area residents. After the neighborhood meeting, the applicant my submit plans to Metro's Planning & Design. The plans will be reviewed by agencies such as Public Works, KYTC, MSD,..etc. The applicant will address comments by those agencies and then the case will go before a public hearing. I will announce hearing dates in Councilman Kramer's eNewsletters.

Zoning decisions are based on testimony provided and what is allowed under the [Land Development Code](#). The Planning Commissioners will hear from the applicant and residents and send their recommendation to the Metro Council. Once it comes before the Council, members review the case to ensure the process was followed, not rather a member likes a development or not. Commissioners and the Council must use the code to justify their vote on facts or evidence presented in the hearings. For instance, you can request the applicant conduct a traffic study to see what impact the development will have on streets... and based on that suggest infrastructure improvements.

Residents and HOAs can organize and even hire a legal representative to participate in the zoning process on their behalf.

I do encourage you to participate in the zoning process to share your concerns.

Please let me know if you have any questions regarding the zoning process. If you have questions about the proposed development, it's best to ask the case manager because she would know more than me since she will be working with the applicant.

Thank you!

Subject: Latest project to destroy our property values

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

805 S. English Station rd is another example of no regard for the homeowners in the are I live in.

Garden homes, patio homes were obtrusive enough. The density out here has grown since we moved here in 1999. With that comes unbelievable traffic. Developers could give a rats arse because they chase the almighty dollar and probably dont live in the affected areas. Politicians just see the developments as more voters. I have no data but my opinion is apartment dwellers aren't likely to vote and homeowners like myself and my neighbors will vote to oust those who allow our community to be degraded in this way. When was the last time you or your boss have traveled the roads out here? S. English, South Pope Lick, Poplar, S. Beckley all have roads which were never designed for the traffic already here. The roads are already breaking down because of the volume. I invite you to travel them during "rush hour" for an eye opening experience. By the way, that starts around 4.

Subject: S. Noland comments on 2nd concept version of apartments at 805 S. English Station Rd
Attachments: S Noland Comments 4-26-22.docx

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

April 26, 2022

Dear Mr. Talbott

As I am sure adjustments are being made to the apartment development at 803 S. English Station Road, I am submitting these comments to your consideration and with request that they be forwarded to Mr. Damon Garret and Mr. Derek Triplett for consideration by all that are making the decisions on how the apartment development will be implemented.

These comments are based on the concepts presented in the first two neighborhood meetings you conducted.

Our address is 803 S. English Station Road right next door on the north side of the development. We have lived at our property almost 12 years. It is 1.5 acres with a country-like setting including a ranch bedford stone house, a 1/3 acre pond with fountain and lots of nice trees and yard. We have always enjoyed all areas of our property that has always come with much labor to keep it looking nice and make improvements along the way.

My wife and I are both retired. We had always planned to live at this residence as long as we could physically keep up with it and then, with the equity that we build over the years, move to a patio home similar to much of the retired population on fixed incomes.

Over the years we have received many compliments from people walking on the sidewalk on how nice it looks. I only say all this because the view from the street of our property will be negatively affected by the adjustments made in the 2nd version of conceptual drawings resulting in a negative effect to our property value and buyer's interest when at some time in the future we decide to sell and move on to the next phase of our life.

The first version drawings included a green area in the northwest corner adjacent to our driveway entrance. My wife and I saw that area as at least some help to the view of our house from the street and any friends and relatives entering our driveway. The first version also showed the full length of an apartment building bordering our property beginning perpendicular to the back corner of our house and running to the east totally on our property line with only a 15 foot buffer.

In the first meeting, there were several comments made by property owners on the east end of the development and the north fence line behind our house regarding the lack of buffer between their house and the proposed location of apartments. In the days following the meeting, we learned some of the folks primarily making the comments regarding the lack of buffer were being represented by attorney Steve Porter to help negotiate a mitigation for their issues.

The drawings presented in the 2nd neighborhood meeting were adjusted to provide more buffer for those on the east end of the development and along the north fence line running behind our property primarily by moving apartment buildings to the west and closer to S English Station Road. . In addition to shifting the apartment building along our property line to the west, there were additional apartments added to the building . As a result, that apartment building as shown in version 2 drawings was shifted to begin perpendicular to the front corner of our house with its full length including additional apartments solely parallel to our property line. The 15 foot buffer was not expanded and the apartments were placed such that they have a direct view to the bedrooms of which that side of our house is totally comprised. In addition, the green area in the corner adjacent to our driveway entrance was reduced by more than 50%. In summary, much of the brunt of adjustments affected our property negatively.

With my comments at the 2nd meeting described above, my only ask was that the developer and engineers do anything they can that is possible and within reason to return our exposure to the original conceptual drawing. I suggested some potentially minor adjustment to a couple of buildings immediately to the east and south east of our property that could provide additional area and minimize the effects on buffer for neighbors along the north fence line and east fence line. Both Mr. Garrett and Mr. Triplett indicated that might be possible and would look into it as well as other possibilities to alleviate the effects on our property described above.

In summary, we had always hoped that whoever purchased the property next door would put in nice homes that would possibly even enhance the area aesthetically as well as enhance nearby property values. We realize that would have been the best possible scenario for us but have accepted that Mr. Garrett has his rights to put apartments in instead. That being said, our hopes now are only that the apartment building along our property line be shifted eastward to place its leading edge that is nearest English Station Road to begin perpendicular to the back edge of our house with some addition to the 15 foot buffer and to restore the green area at the northwest corner bringing it closer to the original concept. We believe if this will be done it will somewhat mitigate the negative effects on our property value and the view of the apartments into our bedrooms.

Thank you for your consideration,
Sincerely,

Steve (and Debbie) Noland

April 26, 2022

Dear Mr. Talbott

As I am sure adjustments are being made to the apartment development at 803 S. English Station Road, I am submitting these comments to your consideration and with request that they be forwarded to Mr. Damon Garret and Mr. Derek Triplett for consideration by all that are making the decisions on how the apartment development will be implemented.

These comments are based on the concepts presented in the first two neighborhood meetings you conducted.

Our address is 803 S. English Station Road right next door on the north side of the development. We have lived at our property almost 12 years. It is 1.5 acres with a country-like setting including a ranch bedford stone house, a 1/3 acre pond with fountain and lots of nice trees and yard. We have always enjoyed all areas of our property that has always come with much labor to keep it looking nice and make improvements along the way.

My wife and I are both retired. We had always planned to live at this residence as long as we could physically keep up with it and then, with the equity that we build over the years, move to a patio home similar to much of the retired population on fixed incomes.

Over the years we have received many compliments from people walking on the sidewalk on how nice it looks. I only say all this because the view from the street of our property will be negatively affected by the adjustments made in the 2nd version of conceptual drawings resulting in a negative effect to our property value and buyer's interest when at some time in the future we decide to sell and move on to the next phase of our life.

The first version drawings included a green area in the northwest corner adjacent to our driveway entrance. My wife and I saw that area as at least some help to the view of our house from the street and any friends and relatives entering our driveway. The first version also showed the full length of an apartment building bordering our property beginning perpendicular to the back corner of our house and running to the east totally on our property line with only a 15 foot buffer.

In the first meeting, there were several comments made by property owners on the east end of the development and the north fence line behind our house regarding the lack of buffer between their house and the proposed location of apartments. In the days following the meeting, we learned some of the folks primarily making the comments regarding the lack of buffer were being represented by attorney Steve Porter to help negotiate a mitigation for their issues.

The drawings presented in the 2nd neighborhood meeting were adjusted to provide more buffer for those on the east end of the development and along the north fence line running behind our property primarily by moving apartment buildings to the west and closer to S English Station Road. . In addition to shifting the apartment building along our property line to the west, there were additional apartments added to the building . As a result, that apartment building as shown in version 2 drawings was shifted to begin perpendicular to the front corner of our house with its full length including additional

apartments solely parallel to our property line. The 15 foot buffer was not expanded and the apartments were placed such that they have a direct view to the bedrooms of which that side of our house is totally comprised. In addition, the green area in the corner adjacent to our driveway entrance was reduced by more than 50%. In summary, much of the brunt of adjustments affected our property negatively.

With my comments at the 2nd meeting described above, my only ask was that the developer and engineers do anything they can that is possible and within reason to return our exposure to the original conceptual drawing. I suggested some potentially minor adjustment to a couple of buildings immediately to the east and south east of our property that could provide additional area and minimize the effects on buffer for neighbors along the north fence line and east fence line. Both Mr. Garrett and Mr. Triplett indicated that might be possible and would look into it as well as other possibilities to alleviate the effects on our property described above.

In summary, we had always hoped that whoever purchased the property next door would put in nice homes that would possibly even enhance the area aesthetically as well as enhance nearby property values. We realize that would have been the best possible scenario for us but have accepted that Mr. Garrett has his rights to put apartments in instead. That being said, our hopes now are only that the apartment building along our property line be shifted eastward to place its leading edge that is nearest English Station Road to begin perpendicular to the back edge of our house with some addition to the 15 foot buffer and to restore the green area at the northwest corner bringing it closer to the original concept. We believe if this will be done it will somewhat mitigate the negative effects on our property value and the view of the apartments into our bedrooms.

Thank you for your consideration,
Sincerely,

Steve (and Debbie) Noland

Subject: FW: Proposed English Station Rd. Apartment Complex

Mr. & Mrs. Chapleau,

The proposed development at 805 S. English Station Road is a re-zoning case that will go before Metro Council for final action. Since councilmembers vote on zoning changes, they can't participate in off record conversations. They can only base their decisions on testimony entered into the public record. To do so otherwise, may face a court challenge.

Your comments can be part of the official record that Councilman Kramer will be reviewing by either participating in the public hearings or sending your comments to the case manager, Dante St. Germain, who I've included on this email. Her email address is dante.st.germain@louisvilleky.gov and her phone number is 574-4388.

Public Hearings haven't been scheduled yet. The applicant's plans are being reviewed by agencies such as Public Works, KYTC, MSD,..etc. The applicant must address any comments by those agencies and then the case will go before a public hearing. I will announce hearing dates in Councilman Kramer's eNewsletters.

Zoning decisions are based on testimony provided and what is allowed under the [Land Development Code](#). The Planning Commissioners will hear from the applicant and residents and then send their recommendation to the Metro Council. Once it comes before the Council, members review the case to ensure the process was followed, not rather a member likes a development or not. Commissioners and the Council must use the code to justify their vote on facts or evidence presented in the hearings.

Residents and HOAs can organize and even hire a legal representative to participate in the zoning process on their behalf.

I do encourage you to participate in the zoning process to share your concerns.

Please let me know if you have any questions regarding the zoning process. If you have questions about the proposed development, it's best to ask the case manager.

Thank you!

Scott

Subject: Proposed English Station Rd. Apartment Complex

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

Please oppose the proposed apartment complex on English Station Road. My wife and I moved here because Lake Village was a quiet, peaceful community ideal for retired, elderly people. The residents and the HOA take very good care of the property and our condo values continue to be strong. The land adjacent to Lake Village is currently under development for a condo complex. The proposed apartment complex on the other side of Lake Village is bound to have a negative impact on our investment. It is a fact that rental property is not cared for as well as private owned property.

Additionally, the congestion factor and safety factor has residents worried. We had to install a security system with motion detector lights in the rear of our condo because we have had prowlers at night. In fact, my wife found blood on our patio lawn chair and blood dripped on our patio after a disturbance that took place around 3am one morning in an alley way next to our property.

Your support in stopping the rezoning and proposed apartment complex next to Lake Village shall be most appreciated.

Walt and Margery Chapleau, 914 Ridge Point Drive.

Sent from my iPhone. Dante, we do not want apartments behind us. There are too many in this area already. Middletown has lost its identity of a nice upscale, safe and desirable place to live. Landis Lakes is beautiful upscale living community, Signature Point is well built and classy as well as homes around it. From Shelbyville Road down to our Landis Lakes Village, are mostly condos and then expensive homes. This builder has been bankrupted several times and builds cheaper type apartments. We don't want the crime, traffic, litter, drainage and esthetics of ours homes that we take pride in ruined by his apartments. Ideally we would all like to see it remain green space, but know that isn't realistic, but why not patio homes or single homes that are owned by occupants. We are losing our sense of safety in this largely senior area, as well as home value. Would you want this to happen to your mother?

My wife wrote the first email so I thought I would write the second.

When we moved into Lake Village the closest apartments were on the other side of Christian Academy. Everything else is single family homes. Lake Village also has a clause that homes in our neighborhood cannot be rented. Now, the last two development approvals have been apartments and this one is too. We now have apartments in front of us and soon on both sides

We moved to this area for single family homes, Not apartments. It appears we will have to move again. It seems that we have no say at the development reviews.

My conclusion is that either the zoning laws are broken or our representation does not work. I believe that the majority in Lake Village feel the same.

Subject: Case #22-ZONEPA-0021 /805 S. English Station Road

Dear Ms. St. Germain,

We live in the Villages of Landis Lakes next door to the referenced proposed property development. We would like our comments submitted for the record.

We are very concerned about the addition of 82 rental townhouses proposed for this development for many reasons.

1. High density of rental apartments already in this small area, The Lodges and Middletown Landing. With the addition of 2 developments on the other side of us with ~ 180 rental apartments being built along with single family homes.
2. Additional traffic taxing an already busy road causing safety concerns - we request a traffic study be done
3. Concern for potential addition of crime from high density of rentals. Already break ins reported at the apartment complexes across the street.
4. Drainage issues

5. Rental properties not being taken care of - single family owned homes where homeowners have a vested interest in their properties is the better option and fit for this neighborhood.

Thank you!

Bob & Terry Richman

Thank you for your comments on this case. I will add them to the record.

A traffic study is required if a proposed development meets thresholds for generating new trips on an existing road.

The Louisville Water Company handles all water pressure matters.

I'm not sure what you mean by requesting lack of road access to the property. The property has frontage on S English Station Road.

Subject: Steve Noland concern with proposed changes to the 805 S. English Station Road apartment project

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

Dear Mr. Talbott

I appreciate your time today to briefly discuss my concerns with an adjustment that is being contemplated to the initial plan for townhouse apartments at 805 S. English Station Road. This is to follow up per your suggestion with an email to you that lays out my specific concerns regarding an adjustment of the project proposal presented on 3/23 that is being presented for consideration by Steve Porter representing a group of neighbors primarily on the east and southeast side of the project.

My wife, Deborah and I have lived at the house located at 803 S. English Station Road for 11 ½ years. During that period we have made improvements and worked hard to not only maintain the property, but to make it better. We are both retired and to some degree, like everyone else bordering this project, are depending on its value for our future plans. The initial proposed project would place a full apartment building bordering the south side of our property with a green area also bordering our property between the apartment and S. English Station Road. I understand that one of the changes recommended by the group that has secured Mr. Porter's services is to shift the apartments away from the houses on the east end of the project to the west toward S. English Station Road. I am concerned that the shift may result in more apartments bordering our property.

It is my assumption that the green area in the north west corner of the project was originally proposed to help the project look better from English Station Road and from properties across the road at Signature Point. From my perspective, the project will decrease the value of our house as proposed but if the green area is reduced, will further reduce the appeal of our property and its value.

My hopes are that there is a way to give the folks on the east end of the project more buffer space without moving more apartments bordering our property while allowing the green space in the northwest corner of the project to remain as initially proposed.

Again, I thank you for your time speaking with me today. Please forward my concerns for consideration by the primary folks you are working with that are involved in making design changes.

Sincerely,

Steve Noland

Attachments: Neighborhood_Meeting_follow-up_Ltr_03_29_22V2.pdf

Mr. Batson,

The applicant has scheduled a follow-up Neighborhood Meeting. Please see attachment.

The proposed development at 805 S. English Station Road is a re-zoning case that will go before Metro Council for final action. Since councilmembers vote on zoning changes, they can't participate in off record conversations. They can only base their decisions on testimony entered into the public record. To do so otherwise, may face a court challenge.

Your comments can be part of the official record that Councilman Kramer will be reviewing by participating in the public hearings or sending your comments to the case manager, Dante St. Germain, who I've included on this email. Her email address is dante.st.germain@louisvilleky.gov and her phone number is 574-4388.

Public Hearings haven't been scheduled yet because the applicant is required to host a neighborhood meeting to share plans with area residents prior to filing. After the neighborhood meeting, the applicant may submit plans to Metro's Planning & Design. The plans will be reviewed by agencies such as Public Works, KYTC, MSD,..etc. The applicant will address comments by those agencies and then the case will go before a public hearing. I will announce hearing dates in Councilman Kramer's eNewsletters.

Zoning decisions are based on testimony provided and what is allowed under the [Land Development Code](#). The Planning Commissioners will hear from the applicant and residents and then send their recommendation to the Metro Council. Once it comes before the Council, members review the case to ensure the process was followed, not rather a member likes a development or not. Commissioners and the Council must use the code to justify their vote on facts or evidence presented in the hearings. For instance, you can request the applicant conduct a traffic study to see what impact the development will have on streets... and based on that suggest infrastructure improvements.

Residents and HOAs can organize and even hire a legal representative to participate in the zoning process on their behalf.

I do encourage you to participate in the zoning process to share your concerns.

Please let me know if you have any questions regarding the zoning process. If you have questions about the proposed development, it's best to ask the case manager because she would know more than me since she will be working with the applicant.

Thank you!

Scott

Dante,

Please add this letter to the open file regarding apartments to be built at 905 S English Station Road. This is not acceptable to the residents of Lake Village at Landis Lakes. We already have condos and apartments being constructed on the property to the other side of our community and these apartments will only add to the overcrowding of South English Station Road and will decrease the value of the our properties and the surrounding properties. The design shows a swimming pool being placed right next to our existing owners and we were told that there does not need to be any type of buffer since this would be R5 to R5 zoning. Apartments do not add value to our property because renters do not take care of rental spaces like a homeowner would or a HOA.

There are no garages in this new development so that means it will be filled with cars in the parking lot. Again this does not add value to our homes. We do understand that this property will be developed, but please do not change the zone to R5 to allow apartments. Most everyone is willing to accept condos, hopefully without a pool, or move it to the center of the complex so that the noise will not disturb the existing owners of properties around this development.

Thank you for your time,
Bruce & Susan Sanders

Subject: Case # 22-ZONEPA-0021 (205 S. English Station Road)

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

Hi Dante,

I am writing to you regarding the proposed building of apartments at 205 S. English Station (Case # 22-ZONEPA-0021). Unfortunately, I wasn't able to attend the meeting held on Wednesday, March 23rd regarding this property, but I would like my comments to be entered into record and taken into consideration.

I am a home owner in the Lake Village at Landis Lakes neighborhood, which is located next to the proposed site, and I oppose the building of apartments on the site. Together with my neighborhood and others in the area (Signature Point, Landis Lakes, The Woods, Academy Ridge, Troon, and Valencia) we have many concerns, including lack of buffer space between properties, decreased property value, drainage issues, traffic, and increased crime.

The property at 205 S. English Station Road is surrounded on all three sides by home owner residences. Having this many apartments would be an eyesore and lower the value and appeal of living in our neighborhoods. In addition, having Christian Academy across the street will add to an already big traffic problem on South English Station. Currently, there is new construction in Signature Point, as well as two new developments being built on both sides of I-64 (one development that will include multiple apartments). I am requesting that a traffic study be completed since the current infrastructure will not be able to sustain the increase of development in the area. We have already seen an increase in traffic as South English Station Road is a cut-through for people trying to get from Blankenbaker Parkway to Shelbyville Road, to avoid the traffic congestion of the Gene Snyder/Shelbyville Road intersection.

Based on the renderings we received, it appears that the proposed apartment development intends to install a community pool, that will back up to our community property line. This will increase noise and be a nuisance factor.

It would be more desirable to have single family homes that would be sold to individuals that have a vested interest in their property, rather than renters.

I appreciate your understanding and support in stopping the development of more apartment buildings in our area.

Sincerely,
Todd Rollo

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

Good Evening, Ms. Dante St. German:

My name is Andrew Koch, and I'm a resident at The Village at Landis Lakes. My address is 14407 Crescent Cove Drive and my property backs up to the Subject property which is being considered to build 82 rental townhouse apartments upon. Although I knew there would come a day that this land would be developed, I never imagined that it would be developed into rental units, especially being **surrounded on all sides (even across the street) by very expensive single family homes and condos**. Being the former president of our condo community it raises major concerns which I hope our zoning and planning constituents will take into consideration and vote against developing this property into rental units, but rather developed into fee simple homes, patio homes or townhomes where owners would truly have a vested interest in their homes and in our community.

Although I was out of town and unable to attend the meeting this past Wednesday, I understand the meeting was very well attended by many, if not all, of our neighboring communities to this property (Lake Village, Signature Point, Landis Lakes, Troon, and others). I also understand they made their voices heard about the many concerns they foresee, along with providing suggestions and other feedback to make sure our neighborhoods remain inviting, safe, and secure. I think this is a true testament that we want the very best for all of us who live and thrive in this area. Although I may be echoing much of the sentiment from this meeting, here are a few of my concerns in no particular order:

- We already have enough apartments and townhomes for rent in our area, which has caused a considerable increase in traffic, trash, drainage and erosion issues, crime, noise complaints, and other community and social issues.
- Environmentally and legally, we have a natural spring which divides this property from ours and it should not be filled in or disrupted. We have a retention pond that catches the flow from this spring and rainwater in the back of our community, and right next to my property which should not be interfered with. It is my understanding that there are plans for an additional retention pond on this Subject property right above above our pond, which would create erosion, stagnation, and other flooding issues. In addition, I'm concerned there will not be adequate buffer zones created around the Subject property to separate my condo community and the other single family home communities which surround this property.
- We have another new development under construction on the other side of our community that has already created several hardships to our condo owners that back up to this property. Once this property is completed it will only add to the issues I raised earlier in my first bullet point. Regarding traffic, I would request a traffic study be completed. English Station Road is already heavily traveled and it's becoming more and more dangerous, especially to the children who attend the Christian School Academy, and those who frequently enjoy walking and cycling on this road.

I would be happy to meet with you or others on the Zoning & Planning Board to continue this conversation and discuss other options for our condo community and the other surrounding neighborhoods. Regardless, I request the Board **not** to approve this property for rental units.

Thank you for your time and consideration. I've also copied our current Board Members and our property management company on my response.

Sincerely,

Andrew Koch

March 25, 2022

Louisville Metro Planning and Design Services
444 S, 5th Street
Louisville, KY 40202
Attn: Ms. Dante St. Germain
RE: Case Number 22-ZONEPA-0021

Dear Ms. St. Germain,

We are currently out of town and were unable to attend the in-person meeting held this week (March 23, 2022) concerning the proposed zoning change from R-4 to R-5A to allow an 82-unit apartment community on property located at 805. S. English Station Road. However, we wanted to send you a communication voicing our concerns.

We purchased our patio home within this past year in the Lake Village at Landis Lakes subdivision. Since that time, we have learned of at least three new developments within a mile of our subdivision. The current traffic situation at times is a complete mess. It is hard to imagine how much worse the situation will become over the next year or two. We believe a traffic survey should be conducted to determine the effect this proposed development will have on English Station/Shelbyville Road and the surrounding area.

Additionally, we are terribly concerned about the effect of more development as it relates to noise – due to a lack of buffers between the subdivisions and draining issues that could arise from further development in this area. Our property is among the lowest elevations in the area, and flooding is a serious worry for us.

Finally, we are concerned that this proposed community is being developed with the intent to be used as units to be leased/rented. It is undeniable that ownership of a dwelling promotes a heightened level of upkeep and care taken with the property. We do not want to see this lovely area suffer some of the ill effects found in other areas of Metro Louisville which allow for rental properties. Higher crime rates, increased levels of noise, more traffic, and a lower level of care of the property are all things which do not match the living conditions we and our neighbors currently enjoy living off English Station Road.

As you consider rezoning of the piece of land, please be mindful of the points above. We hope you will be able to make the determination that apartments for rent is not the best solution. While we realize development will happen, we feel that rezoning this property to be used for multi-family rental property is not a good use of the land nor is it in line with existing dwellings in the surrounding area.

Thank you for your time and attention to this matter.

If you have any questions, please feel free to contact us.

Sincerely,

John and Susan Lyons

I want to add my objection to the rezoning of the referenced case. The communication you received from Jay Kute states the obvious as well as it can be said. I ditto his well stated memorandum.

Paul Williamson, 11 year resident of Lake Village at Landis Lakes.

Subject: Case #22-ZONEPA-0021

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

Dear MS St. Germain,

I was unable attend the meeting Wednesday Evening but I would like to have my comments entered into the record and ask those who make the decisions to take my comments into consideration.

I am a resident of the Village of Landis Lakes and president of the HOA . The property in question is surrounded on all sides by single family homes. There are two developments under construction that are a combination of single family homes and apartments. Across the road from us is another apartment complex. I feel that we have enough apartments in our area and to have another development of this type will critically impact our area in a very negative way with drainage, lack of buffer zone and traffic.

The most critical of these being traffic. I would ask that a traffic study be done. Adding 83 more townhouses would have a detrimental effect on already taxed South English Station Road. That many additional cars would make traveling English Station Road very dangerous especially for the Christian Academy Kids.

Having a complex of single family units where the owners have a vested interest would be a better addition to this area. There would be fewer cars and owners with a vested interest care about their community.

I ask the members of the Louisville Metro Planning and Design to consider my request and not approve this property for different zoning.

--

Have a GREAT DAY & God Bless America,

Jay

Subject: Opposition points Case # 22-ZONEPA-0021

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

I am writing to oppose the building of "**APARTMENTS**" at 805 S. English Station Road. Many factors need to be taken into consideration from the Planning Committees to even consider such **APARTMENTS** to be constructed.

Keep in mind, I am not opposed to building Patio Homes that would blend well with our surroundings on South English Station Road. I am opposed to **APARTMENTS** for the following reasons:

- * huge turn over of renters / renters generally don't take as much care of their residences/surrounding areas as actual "**BUYERS**"
- * Buyers have a vested interest in their community and tend to take much better care of inside and outside of their residences.

We also have to consider additional traffic on So English Station Road due to the fact that there are already the following builds under construction:

1. The Reserve (same builder) 53 patio homes / 172 apartments
2. Creekside Commons: 83 new single family homes

Units already on So English Station Road:

The Lodge Apartments: 288 **APARTMENTS** apx

Signature Point: 178 homes/condos and more have been built in the last year in Signature Point.

Middletown Landing Apartments: over 650 units **APARTMENTS** (just within a mile radius)

Speeding automobiles utilizing a "short cut" from Gene Snyder / Taylorsville Road going onto Poplar Lane and turning left onto So English Station Road. Once they pass over the bridge, the speeding begins. Safety issues for all residences and for students coming/going to Christian Academy.

Having said all of this, we know and understand the land will be developed. We just don't want APARTMENTS and the layout they presented last night at the meeting was only a drawing of the possible finished units. They only showed sample pictures, so we really don't know what will actually be built.

Again, **we believe the builder and his backers should consider patio homes.** Even with this, there are additional items of great concern both to Lake Village and The Woods of Landis Lakes.

- *buffering - how much space between our homes and their structures
- * landscaping - how much, how tall, what kind and the placement
- * fences - height/type, placement
- * privacy fences ?
- * shifting and/or rearranging physical placements of the units
- * drainage concerns
- * screening of the entire pool area - landscaping, fences, privacy fences, etc.

As a resident of Lake Village Patio Homes, we are mostly retirees and older residents; and we do not like the idea of the swimming pool being located directly beside our units on Ridge Point Drive.

This is only the beginning of resident opposition.....we hope to be heard....we hope the builder etc will take our concerns into consideration.

Thank you
Marti Foster

Subject: Statement made by Attorney John Talbot

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

Ms. St. Germain

During his presentation at the Middletown Library last night, Attorney John Talbot made mention that Louisville is required to have a certain large number of residences available per a federal mandate.

Would you please be kind enough to direct me to where I might learn more about this?

He said Louisville was "short" on residences per this mandate and that is why expansions such as the one at 805 South English Station Rd are necessary.

Best regards and thank you in advance...

David Logsdon

I would like there to be patio homes. Patio Homes would be more like the surrounding and adjacent properties.

There are numerous apartment complexes already in this area.

166-172 apartments under construction 288 apartments across from the ones being constructed.

788 apartments behind Christian Academy.

That is all within one mile. All use S English Station Road

Please consider keeping it residential!

I realize there is a goal/requirement for affordable housing. However, there are other areas it doesn't all have to be in Middletown.

One other thing there also are another 204+ apartments approved on Beckley Station Road by Shelbyville Road. That two is within one mile of our home.

That is a total of 1,446 apartments within 1 mile of our home.

So our area has large population in apartments not even counting the proposal for another 82 units.

I would be more interested in purchasing a Patio Home than renting an apartment or townhome.

We attended the neighborhood meeting last regarding the above named property.

We would rather they be town patio homes developed there!

The developer & attorney John Talbott started out defensive. Mr. Triplett was very professional.

I'm not sure what may come from this meeting.

Tonight there is another meeting about our property assessments which will go up. I'm pretty discouraged and feel things are out of our control.

We requested a traffic analysis and we're told it wouldn't matter.

The attorney John Talbott said, "our property values have doubled in the last ten years" I said "ours has not". He said, "they have gone up"

Later, he commented, "I'm sorry if bought land by a farm and paid more than it was worth & naive enough to think it wouldn't be developed".

I call that condescending. We are owners of properties that our valuable to us. This is so sad how the world is changing.

We have been had and are being devalued and placated!

More value has been placed those who will reside in the future than those who currently reside here and are paying taxes which are increasing.

So to summarize we are discouraged, disregarded and patronized. I am so sad and disappointed.

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

Hello,

Our names are Mike and Debbie Murphy and we live in Lake Village on English Station. We attended the meeting at the Middletown Library on March 23 and have a few comments to pass along. We are very concerned with the overload of apt. rentals in this one area. This is an area of family owned homes and retired seniors who also own their own homes and have had more than our fair share of apartment rentals being built in the last few yrs and I believe enough is enough. We are worried about increased traffic and crime coming into our neighborhoods, please consider making this development one of homes that are owned by the families who live there. No more apartments in this area! Thank you

Dear Ms. St. Germain,

I sadly was not able to attend the meeting regarding this property last night but would like my comments to be entered into the record.

I am a resident of Lake Village of Landis Lakes Patio homes. Our entire community (Lake Village, Signature Point, Landis Lakes, Troon) are united in stopping this development in it's current state due to many reasons: lack of buffer space between properties, drainage, traffic, crime to name a few.

This property is surrounded on all three sides by homeowner residences. This many two story buildings would be a complete eyesore and a blight on the community. Not to mention that it would be directly across from the Christian Academy School which would cause an even bigger traffic problem than there is now. There are already two new developments being built on each side of I-64 adding to the chaos. I think this demands that a traffic study be made.

From the drawing it also appears that they intend to install a community pool that backs up directly against our property line, so this will amp up the noise and nuisance factor!

In a perfect world it would be wonderful to leave the green space as it is but I know that will not be the case. At any rate it would be much more desirable to have single family or one story patio home type buildings that would actually be sold to individuals who have a vested interest in their property rather than to transient renters.

To those who have the power to make the changes, please take all of this into consideration when making your judgement. When I purchased my home 12 years ago I did not imagine that I would have to live right next door to 82 rental units. Please put yourself in our shoes. I don't think you would want to either.

Thank you for your consideration.

Respectfully,

Marla Moore

Myself and everyone else in Lake Village at Landis Lakes oppose the planned townhouse apartments and encourage the re-planning of the site to a fee simple townhouse condo plan.

This would mean when the site is built all the units would be sold to individuals that have vested interest in their individual units just like Lake Village unit owners do.

This would be more acceptable to myself and my neighbors as a more realistic use of the property to match the properties that surround that area.
Respectfully,

Ms. St.Germain,

I am a resident of Lake Village and owner of the home at 910 Ridge Point Drive.

I very much appreciate your affording an opportunity for the residents of Lake Village to express our deep concern and strong opposition to the above referenced zoning matter, putting our feelings into the permanent record.

I think the property in question could be developed as townhome/condo residences which would be privately owned... to the advantage of our neighborhood and the surrounding area. Ownership means responsibility, pride, and care for one's investment. The large rental property across the road...The Lodges...certainly provides ample rental units for those who need that option. More rental units could result in a negative atmosphere due to the sometimes transient occupation of such units. We realize that the land will be developed....but we are extremely concerned and strongly oppose the rental plan currently under consideration.

Increased traffic, more noise, possible failure to maintain rental units...all work against the quality of life that people in the surrounding neighborhoods have invested in. We obviously have a proprietary interest in seeing upscale, thoughtful development of the area on South English Station.

Thank you for your time and attention.

Subject: New Development @ 805 S. English Station Road

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

Dear Ms. St. Germain:

My name is Sandra Nava, and I have been living in the Lake Village @ Landis Lakes subdivision (to the right of the proposed project) for the past 12 years. Over this time, I have seen several apartment projects be built around us, and the traffic has become absolutely ridiculous; not to mention the amount of littering as well as the increasing speed of cars even though we are half a block from a school zone. When I walk my dog every morning and night, I have to stand at the entrance of our subdivision for a much longer time. It's not so bad in the summer, but in the winter and in bad weather, it can be brutal. In the beginning there was hardly any traffic, and now I have to stand and wait to even cross the street. With just the apartment complex The Lodges already built, I started watching the traffic and not even during rush hour, cars are constantly entering/exiting the complex. Yesterday morning I counted and while I stood waiting with the dog to cross, 9 out of 10 cars pulled into the Lodges. During rush hour, it's non-stop. I can't even imagine what the traffic will be like with another apartment complex since another one is presently in construction to the right of us.

All the residents in Lake Village oppose the planned townhouse apartments and encourage the re-planning of the site to a fee simple townhouse condo plan. I am the youngest resident in Lake Village at 57, and if I have a difficult time crossing the street, I can't even imagine the average aged resident of 70-80. I would ask that a traffic study please be completed since the developer stated last night that it wasn't required for this property. I think it will make a huge difference. I appreciate your time in reading my email, and I hope that our pleas can be taken into account.

Sincerely,
Sandra Nava

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

As residents of Lake Village at Landis Lakes we would like to voice our concerns about the above planned development. We understand development is inevitable but the pace at which S English Station Road is being developed and residences being added is alarming. What was once a community of primarily owner occupied residences along this road now has a large apartment community across from our entrance along with another apartment community being developed along 64.

Our concern with apartments is the lack of ownership leading to lack of pride and care of the properties. It has also become a sign of the times that apartment buildings have more opportunity for thefts and car hijackings. Everyone in Lake Village opposes the townhouse apartments because of the lack of ownership in the midst of this community. We would strongly encourage a restructuring of this site's plan to be fee simple townhouse condos. This would then mean the homes in this new development would be owned by individuals with a vested interest in their units , just like Lake Village unit owners and eventually the condo unit owners on the other side of Lake Village.

In addition, we believe a Traffic Study must be done. S English Station Rd is predominantly a 2 lane road with a significant increase in drivers trying to get in and out every day, not to mention traffic for students of CAL for all grades and additional activities.

Thank you for your time,
Guy and Kathy Orlandi

Dear Honorable Kevin Kramer,

I am contacting you to express my opposition to DPDS CASE Number 22-ZONEPA-0021, regarding a proposed zone change to allow construction of an 82-unit apartment complex on approximately 7.2 acres located at 805 S. English Station Road.

I am unable to attend tonight's meeting at the Middletown Library, but I have emailed a letter to Case Mgr. Dante St. Germaine at Lou. Metro Planning and Design Services to express my opposition to re-zoning this area.

I am emailing my letter to him today and will mail a hard copy as well.

I would like you to have a copy of this correspondence. I want to email a copy to you today but I am not able to send an attachment with this communication.

Please send an email address where I can email a copy of my letter to you.

Thank you for your representation of the citizens within your District 11.

Warmest regards, Anita H. Kuvin

Subject: Proposed development - Case # 22-ZONEPA-0021

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

Hello Dante

I attended the neighborhood meeting on the new development proposal at 805 S.English Station Rd.
82 Town house apartments
Case # 22-ZONEPA-0021

I want to share my concerns/feedback on the proposal:

- As a community – we do not want or need more apartments on S. English Station road. In the one and a half mile radius between Shelbyville road and Poplar: Over 1000 apartment units
- The Lodge apartments – 288 units
- Middletown landings – 646 units
- The Reserve – 53 patio homes/172 apartments (under construction)
- New Apartment development on Beckley Station Road

This area is getting over saturated with apartments. Traffic on South English Sta road is a serious concern.

- High volume of walkers. It is dangerous trying to cross the road
- Christian Academy school – also a lot of student walkers
- Speed – very few follow the 35 MPH on S English Station

This is a large retirement community. Concerns with safety. With the finalization of the Lodge apartments – car break-ins drastically increased.

Specifically related to the proposed layout

- Buffer space between properties not sufficient. A few trees is not going to provide the privacy needed between properties
- Drainage/Water retention basin concerns. Will this work? Concern with close proximity to free standing homes.
- Location of pool/clubhouse. Too close to neighboring condos. Concerns with privacy/noise. (Retirement community on this side)

The location would be best suited for condos/patio homes. Owners who take pride in their property and blend in with neighboring age group.

Thank you for the opportunity to voice my concerns.

Debbie Hagan

RE: Case # 22-ZONEPA-0021

Proposed zone change to allow development of 82-unit apartment complex on property at 805 South English Station Road.

Dear Mr. St. Germain:

I am unable to attend tonight's meeting at the Middletown Public Library.

For the record, I am attaching a copy of my letter stating my opposition to this zone change, along with some supporting reasons about *why* such development will be damaging to the surrounding residential neighborhoods and our community-at-large.

I will be mailing a signed copy of this letter to you later today.

I do appreciate your consideration of my request and I thank you for your time and attention to this important matter which has far-reaching consequences to our residents and our community.

Kindest regards,

Anita H. Kuvin

RE: CASE # 22-ZONEPA- 0021 ~~~ Proposed zone change from R-4 to R-5A allowing an 82-unit apartment complex consisting of twelve 2-story buildings on about 7.19 acres of land located at 805 S. English Station Road

Dear Mr. St. Germain:

I am a resident of *Lake Village at Landis Lakes Condominium Community*, located on S. English Road. We are a village made up mainly of older adults. I am unable to attend tonight's in-person meeting at the Middletown Library, BUT I do want my comments to be noted and entered into the record for that meeting.

I recognize that the property in question *will* be developed and I have no desire to stop development. However, I am *TOTALLY OPPOSED* to rezoning this property from R-4 to R-5A to open the door for an 82-unit high-density apartment complex to be built there.

We already have *The Ledges*, a large apartment development on South English Station Road in very close proximity to the proposed site for more apartment construction. Since its opening, *The Ledges Apartments* have already generated a huge increase in street and foot traffic in our village and on S. English Station Road.

This situation has been compounded by greatly increased "cut-through" traffic via Poplar Lane allowing motorists to avoid traffic bottlenecks on I-64, I-265 and Shelbyville Road. Time will increase this cut-through traffic.

The addition of *another* high-density structure for renters who are transient and not personally invested in our community is NOT needed and is unwarranted (except to developers who will make large profits.) These are some reasons why construction of more apartments would create a negative impact for our residents and neighborhood:

- Private real estate values will decrease
- New drainage issues
- Increased street and foot traffic *and* speeding cars
- Elevated street and road noise levels
- Increased crime, raising issues and concerns about the safety of our children and seniors
- More unsightly trash and litter along our streets and roadways

I believe that either patio homes or condominiums should be built on this property - *not high-density apartments*. Because homeowners take pride in their property and their neighborhood, home ownership enhances lifestyles for residents and our city by enhancing the value, desirability and character of the community-at-large.

In making your decision, *PLEASE* make the rights and best interests of current individual property owners living in this South English Station Road corridor your top priority at Louisville Metro Planning and Design.

PLEASE DO NOT rubber-stamp the plans of developers who will realize huge profits at the expense of the older adults and families who own property here, vote here and pay taxes here. These developers will pocket their profits and leave... We homeowners will be the ones left to suffer the consequences and pay the price for their thoughtless development of available land within our community.

Thanks to you, Mr. St. Germain, and to Louisville Metro Planning and Design for your time and consideration of my request. *I IMPLORE YOU: PLEASE DO THE RIGHT THING. PROTECT OUR CITIZENS!*

Kindest regards,

Anita H. Kuvin

Subject: Zoning Change 22-ZONEPA-0021

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

Good afternoon,

I am writing to express my opposition to the proposed Zoning Change which would provide more traffic and congestion directly across the street from the entrance to Signature Point Drive on South English Station Road on what was previously a small 7 acre hobby farm surrounded by single family residences and a handful of villa type patio homes. This proposal is too dense for such a space, especially given the properties already under construction.

Living in this neighborhood since 2015, I've watched (and suffered through the associated blasting) hundreds of apartments on the land next door, in addition to what seems to be a never ending array of small and expensive homes being built at Signature Point. Just when will this constant development end on South English Station? New apartments and homes are now being constructed across from the apartments next to the villas, several large properties are on the market on Poplar and another development is going up along the road. Seems that despite opposition and common sense this will be approved and once construction has begun on this project, another rezoning request will be sought for any remaining parcel between here and Poplar Lane.

Traffic is terrible on South English Station due to Christian Academy and its expansion during the morning and afternoon commuting hours due to the school traffic. The private school has hired traffic directors to assist, however the additional construction vehicles now working on the developer's current project, ongoing work at Signature Point, pedestrian and bicycle use has made this area a dangerous and unpleasant place to live.

This development is going to hurt our property values at Signature Point, add more to the existing traffic problems, and create yet more light pollution. I don't know why Louisville even has a planning department. You will likely approve this development, and then any subsequent requests on Poplar Lane (which all of us know will be next) and it will soon be that the time it takes getting from Signature Point to the light at Shelbyville Road and then onto the Snyder will increase another ten minutes. This area is over developed already yet the "planners" continue to let the developers build.

What will the prices of these apartments be? Will they be affordable for lower income individuals? Unless we begin to provide affordable housing for workers who will be required to support this type of out of control development, the traffic around S. English Station, Shelbyville Road and the freeway will continue to make living in this area unbearable. These traffic studies are a joke. Lastly, I am also saddened that as Covid continues, though the powers that be have declared it over, you've scheduled a public meeting in a small library conference room with a capacity of 50 people, which anyone with sense is weighing the risk of attending!

Please consider a no vote on this. R-4 is the only appropriate use for this parcel.

Sincerely,

Donna & Andrew Costelle
14511 Signature Point Drive

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

I am writing to oppose the request for a zoning change at 805 S. English Station Road. In the last 6 years the following construction has been completed or in progress within 1/2 mile of 805 adding 454 multi-family units and 85 single family for a total of 539 new units.

Our neighborhood can't support 82 additional units for the safety of our residents or the walking students from Christian Academy which is directly across the street. Please reject this proposal.

1. 166 new units at 1007 S. English Station (The Stables currently underway) 2. 288 units built in 2018 (The Lodges) 900 S. English Station 3. 85 single family homes by Elite Creekside Commons 1200 S. English Station

This doesn't include the single family community Elite already built next to Christian Academy.

Thank you in advance for your time and consideration.

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

Hello,

I am writing to say I oppose the proposed zoning change at 805 S English Station Rd.

I live in Signature Point. Approximately two hundred homes have been added here with more being built closer to Poplar Rd. All of this in addition to the subdivisions that already exist including the Village condominiums and the Lodges apartments in this area are already creating a traffic nightmare.

It is all flowing onto Shelbyville Rd and is backing up constantly around the Gene Snyder interchange. In addition to traffic, I'm concerned about property values and crime. We already had one crime spree here in Signature Point that initiated from the apartments.

Thank you.

Mr. Bethurem,

The proposed development at 805 S. English Station Road is a re-zoning case that will go before Metro Council for final action. Since councilmembers vote on zoning changes, they can't participate in off record conversations. They can only base their decisions on testimony entered into the public record. To do so otherwise, may face a court challenge.

Your comments can be part of the official record that Councilman Kramer will be reviewing by participating in the public hearings or sending your comments to the case manager, Dante St. Germain, who I've included on this email. Her email address is dante.st.germain@louisvilleky.gov and her phone number is 574-4388.

Public Hearings haven't been scheduled yet because the applicant is required to host a neighborhood meeting to share plans with area residents prior to filing. After the neighborhood meeting, the applicant may submit plans to Metro's Planning & Design. The plans will be reviewed by agencies such as Public Works, KYTC, MSD,..etc. The applicant will address comments by those agencies and then the case will go before a public hearing. I will announce hearing dates in Councilman Kramer's eNewsletters.

Zoning decisions are based on testimony provided and what is allowed under the [Land Development Code](#). The Planning Commissioners will hear from the applicant and residents and then send their recommendation to the Metro Council. Once it comes before the Council, members review the case to ensure the process was followed, not rather a member likes a development or not. Commissioners and the Council must use the code to justify their vote on facts or evidence presented in the hearings. For instance, you can request the applicant conduct a traffic study to see what impact the development will have on streets... and based on that suggest infrastructure improvements.

Residents and HOAs can organize and even hire a legal representative to participate in the zoning process on their behalf.

I do encourage you to participate in the zoning process to share your concerns.

Please let me know if you have any questions regarding the zoning process. If you have questions about the proposed development, it's best to ask the case manager because she would know more than me since she will be working with the applicant.

Thank you!

Scott

Ms. Logsdon,

I do not have that information. You would need to ask the developer. The style of units is two-story townhomes, but whether they will be in a condo regime or rented is not information that we track.

Hello Councilman Kramer – I am writing to you on behalf of the Landis Lakes and Landis Springs neighborhood re 22-ZONEPA-0021. There is a farm located at 805 S. English Station Road that developer Damon Garrett with Sunshine Builders is proposing an 82-unit Apartment Complex. We have deep concerns about this for numerous reasons and

would like to meet with you or speak with you as neighborhood and get your advice and help please. We are banning together and seeking legal assistance as well. Please let me know if you're open to a meeting, call, in person discussion, etc. Thank you in advance, Amber Hedges 502-718-9863

Mr. Logsdon,

I've included Dante St. Germain, case manager, on this email to ask her to include your email addresses on the notification list for the rezoning of 805 S. English Station Road.

Councilman Kramer announces all upcoming meetings in District 11's eNewsletter so I added your email address. I tried to add your wife's email address as well; however, it was "surpressed" meaning at one time she was on the list but unsubscribed. If she wants to be added, she'll have to click on the link below my signature to "Sign up for eNews" to change subscriptions.

Attached is the information regarding the upcoming Neighborhood Meeting hosted by the applicant.

Please let me know if you have any other questions.

Thank you!

Scott

Thank you for your very kind and informative reply.
I greatly appreciate it.

Can you please keep me in the loop regarding times and locations for the best way for me personally to take part in any further discussion or hearings regarding this matter???

That too would be greatly appreciated.

Very best regards - David Logsdon

Mr. Logsdon,

The proposed development at 805 S. English Station Road is a re-zoning case that will go before Metro Council for final action. Since councilmembers vote on zoning changes, they can't participate in off record conversations. They can only base their decisions on testimony entered into the public record. To do so otherwise, may face a court challenge.

Your comments can be part of the official record that Councilman Kramer will be reviewing by participating in the public hearings or sending your comments to the case manager, Dante St. Germain, who I've included on this email. Her email address is dante.st.germain@louisvilleky.gov and her phone number is 574-4388.

Public Hearings haven't been scheduled yet because the applicant is required to host a neighborhood meeting to share plans with area residents prior to filing. After the neighborhood meeting, the applicant may submit plans to Metro's Planning & Design. The plans will be reviewed by agencies such as Public Works, KYTC, MSD,..etc. The applicant will address comments by those agencies and then the case will go before a public hearing. I will announce hearing dates in Councilman Kramer's eNewsletters.

Zoning decisions are based on testimony provided and what is allowed under the [Land Development Code](#). The Planning Commissioners will hear from the applicant and residents and then send their recommendation to the Metro Council. Once it comes before the Council, members review the case to ensure the process was followed, not rather a member likes a development or not. Commissioners and the Council must use the code to justify their vote on facts or evidence presented in the hearings. For instance, you can request the applicant conduct a traffic study to see what impact the development will have on streets... and based on that suggest infrastructure improvements.

Residents and HOAs can organize and even hire a legal representative to participate in the zoning process on their behalf.

I do encourage you to participate in the zoning process to share your concerns.

Please let me know if you have any questions regarding the zoning process. If you have questions about the proposed development, it's best to ask the case manager because she would know more than me since she will be working with the applicant.

Thank you!

Scott

Ms. Hedges,

Planning and Design does not have the answer to any of those questions. For population information, the only place I can direct you is the Census data, which was recently updated but which is more useable if you have mapping capabilities. Without the ability to map out the Census block groups, the Census data is less useful to you.

We do not keep data on the types of housing in any given area. The Census collects limited information about this, keeping track of owner-occupied vs. rental units, but again it is difficult to use without mapping capabilities.

With respect to any tax incentives, you would need to ask the developer that information. We do not track that.

Hi Dante,

Would you be able to provide any of the below information to me or point me in the right direction?

Specific to 22-ZONEPA-0021:

1. What is the population in this area?
2. How many apartment buildings, condos, patio homes?
3. Are there tax incentives and write offs being given as part of this development?

Thank you,

Amber

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

Hi Dante,

I am writing in response to the letter received March 9, 2021 stating an apartment community of 82 units and 12 buildings is being planned for development at [805 S. English Station Rd., Louisville, KY 40299](#). The proposed community is directly adjacent to the rear of our home property at [906 Grace Court, Louisville, KY 40245](#).

We have many concerns as it relates to the plans to re-zone and construct an apartment complex and some are listed below. Until we see the plans, we won't be able to know if there are any others.

Concerns:

Drainage as we are downhill from the property

Noise due to the density of the planned community and number of tenants/cars

Loss of view to direct sunlight due to structures blocking the sun

Our backyard is very small, there is only about 15ft from our house to the farmers land so a 20ft buffer will not be sufficient to create a barrier.

Can you please send me the current plan they are proposing? Once we review, we'll reply back with any additional concerns.

Thank you,

Amber Hedges

I am concerned and do not want the property 805 S English Station Rd being re zoned from R4 to R5A to accommodate 82 apartment community!

Our property is on the edge of that property. There already are numerous numerous apartments being built around the

area. This will decrease our property value increase traffic which is already super busy congested. 7.19 areas is a small area to place 82 more apartment units.

I don't know if it even helps to write you. However I feel hopeless with anything anymore.

I just thought you could help to counter this.

I know it's all about money in pockets. It not what I want as a property owner.

Is this an already done deal and a waste of our time to try to fight this action?

Is it possible to ask them to shifted it over away from our properties 10 more 10ft and equal out some of the open space on the other side?

It seems unfair

To put it so close to our side and so far off the other side

Comments *	In regards to apartment zoning proposal for south English Station road. Case number 22-zonepa-0021. I very much oppose more apartments being developed in this area. South English station road between Shelbyville road and Poplar, is getting over-saturated with apartment complexes. With the completion of the last project, crime has increased, traffic and speeding on English Station road is out of control. Not to mention the trash on the roadside. I hope you will support our community on this issue. Looking forward to the meeting on 3/23. Thank You!

805 S. English Station rd is another example of no regard for the homeowners in the are I live in. Garden homes, patio homes were obtrusive enough. The density out here has grown since we moved here in 1999. With that comes unbelievable traffic. Developers could give a rats arse because they chase the almighty dollar and probably dont live in the affected areas. Politicians just see the developments as more voters. I have no data but my opinion is apartment dwellers aren't likely to vote and homeowners like myself and my neighbors will vote to oust those who allow our community to be degraded in this way. When was the last time you or your boss have traveled the roads out here? S. English, South Pope Lick, Poplar, S. Beckley all have roads which were never designed for the traffic already here. The roads are already breaking down because of the volume. I invite you to travel them during "rush hour" for an eye opening experience. By the way, that starts around 4.

March 23, 2022

Dante St. Germaine, Case Manager
Louisville Metro Planning and Design Services
444 S. 5th Street
Louisville, KY 40202

RE: CASE # 22-ZONEPA- 0021 ~~~ Proposed zone change from R-4 to R-5A allowing an 82-unit apartment complex consisting of twelve 2-story buildings on about 7.19 acres of land located at 805 S. English Station Road

Dear Mr. St. Germaine:

I am a resident of *Lake Village at Landis Lakes Condominium Community*, located on S. English Road. We are a village made up mainly of older adults. I am unable to attend tonight's in-person meeting at the Middletown Library, BUT I do want my comments to be noted and entered into the record for that meeting.

I recognize that the property in question *will* be developed and I have no desire to stop development. However, I am *TOTALLY OPPOSED* to rezoning this property from R-4 to R-5A to open the door for an 82-unit high-density apartment complex to be built there.

We already have *The Ledges*, a large apartment development on South English Station Road in very close proximity to the proposed site for more apartment construction. Since its opening, *The Ledges Apartments* have already generated a huge increase in street and foot traffic in our village and on S. English Station Road.

This situation has been compounded by greatly increased "cut-through" traffic via Poplar Lane allowing motorists to avoid traffic bottlenecks on I-64, I-265 and Shelbyville Road. Time will increase this cut-through traffic.

The addition of *another* high-density structure for renters who are transient and not personally invested in our community is NOT needed and is unwarranted (except to developers who will make large profits.) These are some reasons why construction of more apartments would create a negative impact for our residents and neighborhood:

- Private real estate values will decrease
- New drainage issues
- Increased street and foot traffic *and* speeding cars
- Elevated street and road noise levels
- Increased crime, raising issues and concerns about the safety of our children and seniors
- More unsightly trash and litter along our streets and roadways

Either patio homes or condominiums should be built on this property - *not high-density apartments*. Because homeowners take pride in their property and their neighborhood, home ownership enhances lifestyles for residents and our city by enhancing the value, desirability and character of the community-at-large.

In making your decision, *PLEASE* make the rights and best interests of current individual property owners living in this South English Station Road corridor your top priority at Louisville Metro Planning and Design.

PLEASE DO NOT rubber-stamp the plans of developers who will realize huge profits at the expense of the older adults and families who own property here, vote here and pay taxes here. These developers will pocket their profits and leave... We homeowners will be the ones left to suffer the consequences and pay the price for their thoughtless development of available land within our community.

Thanks to you, Mr. St. Germaine, and to Louisville Metro Planning and Design for your time and consideration of my request. *I IMPLORE YOU: PLEASE DO THE RIGHT THING. PROTECT OUR CITIZENS!*

Kindest regards,

Anita H. Kuvin
