1075 Garrs Ln Alley – there is a section of the alley which is concrete behind the apartments and is in reasonable shape (few cracks in the concrete here and there). The section behind 1075 Garrs is asphalt and not in as good of shape (I assume that the apartments fixed their section of the alley at some point). I would reconstruct this portion only for now which is approximately 90'x15'. I estimate this to be \$10,000.00. In the event you want to reconstruct the entire alley, I would remove the concrete and asphalt and come back in with all concrete, that would be \$70,000.00.

Alley between Grand and Hall running from S 32nd St to Reynolds - in really bad shape, large pot holes and again has a parking lot connected to it for an apartment complex on a portion of the alley. I am quoting you a 12 inch reconstruction of the alley as I do not know what is below the current asphalt. At a minimum I would recommend a 4 inch mill and 4 inches of asphalt be replaced. My estimate for this alley is \$55,000.00.

Alley Running from S 22nd st to S 23rd just north of Algonquin (Gregg intersects the alley) – is currently concrete and has inverted crown. The alley is cracked at the inverted crown throughout, but not terrible on variable displacement. I might recommend a few panel replacement, but think that a full scale removal and replacement may be excessive. I would suggest putting in \$20-25k on this alley and we would replace the worst of the worst. Below are just a couple locations where that funding might be well spent.

Google

Welding invoice .pdf

Gregg Ave from Vorster to alley - Asphalt in okay shape, few apparent utility cuts here and there. Would recommend if funding, to mill and repave all of the roadway. I have that estimated at \$20,000.00.

Let me know if you might want me to quote something above differently.

Thanks,

Importance: High

Per our discussion this afternoon,

Please confirm District 1 will be using the below funding sources to fund the below projects. Thank you.

\$35,000.00 CIF funds to pay for the following alley paving projects.

\$10,000.00	1075 Garrs Lane
\$25,000.00	Algonquin Parkway alley from 22 nd – 23 rd (Gregg intersects)
\$35,000.00	Total CIF Funds (D1 will prepare the CIF Agency Request packets for these projects.)

\$39,491.76 MAP and/or MAP Match funds for the below sidewalk projects:

\$ 2,678.76	1337 Olive Street (There isn't a cost estimated for Olive St in the attached email. There is a \$1,263.00 cost estimate for 2706 Virginia Ave in the attached email.)
\$ 20,158.00	2300 Block of W Gaulbert Ave (Both sides)
\$13,032.00	1302 Cypress St
\$1,493.00	2724 Virginia Ave
\$1,083.00	2100 W Gaulbert Ave
<u>\$1,047.00</u>	<u>3516 Colmar Dr</u>
\$39,491.76	Total MAP and/or MAP Match Funds

\$20,000.00 MAP and/or MAP Match funds for the following street paving project: Gregg Ave from Vorster to the alley.

This will leave D1 with the following remaining budgets to use toward other future sidewalk and/or paving projects:

60,754.93	Sidewalk & paving projects
\$9,000.00	Sidewalk projects only
<u>\$28,531.75</u>	<u>Paving projects only</u>
\$98,286.68	Total Remaining Budget

Please advise as soon as possible which sidewalk and paving projects D1 wants to fund with the \$98,286.68 remaining budget.

Thank you

LaTonya
