I spoke at the Council meeting October 6, 2016 and suggested a reading list for the council to better acquaint themselves with the historical issues Louisville faces. Here is the list:

The Constitution of the United States an Introduction

The Souls of Black Folk

And We Are Not Saved

From the Mississippi Delta

Two Centuries of Black Louisville

Incidents in the Life of a Slave Girl

Narrative of the Life of Frederick Douglass

We are in trying times. We can sit back and let another 48 years pass us by, worsening our already complex issues. We need to be compassionate and courageous and pay attention.

With lots of love for Louisville,
