LETTER OF OPPOSITION

Proposed Rezoning and Development at 4422 West Broadway

To Whom It May Concern:

I am Elmer L. Allen a resident living at 1309 Fairland Place Louisville, KY. As part of Westover neighborhood, I am writing to express my opposition to the proposed rezoning and development of property at 4422 West Broadway.

The Land Use Plan for this site is not consistent with the broader intent of the use of the land which is a Historic preservation. Multiple-family residences tend to be clustered together in large developments near other dense land uses, such as commercial and office, as opposed to being scattered throughout neighborhoods; multiple-family residences are typically, physically, and visually, isolated from single-family residences; it should be the goal of the Planning Commission to preserve existing neighborhoods.

Our opposition is also based on these potential/probable negative effects:

- The property owners have already disregarded public safety regarding the fence that keeps falling over.
- They have previously disregarded the integrity of the neighborhood by letting the historic mansion fall to ruin, tearing down the historic building, and allowing trash to pile up outside of trash receptacles.
- The loss of neighborhood and community character.
- Currently there are current problems with parking, cleanliness, and neighborly responsibilities.
- A decrease in the market value of my home.
- Must have an environmental survey for this area.
- Increased traffic congestion adding to an already dangerous situation on West Broadway.
- There has not been a traffic study to see the effects of this number of tenants and streets available to the neighborhood for parking.
- The destruction of green space and mature trees.
- This type of apartment complex does not fit into the single-family neighborhood.
- The dumpsters needed for this type of building will be a problem for the neighborhood.
- The neighborhood will be affected by limited number of parking spaces.
- This will cause overcrowding and congestion in the neighborhood.
- Construction such as jackhammering too close to the Historic Basil Doerhoefer Mansion could cause damage. This must be studied and considered.
- The neighborhood already includes a facility owned and operated by the proposed owner of the facility at issue.
- The upkeep of the property they own now in the neighborhood has been dismal.

PLANNING &
DESIGN SERVICES

- Once the property is rezoned, the developer can change the original concept within the approved R7 zoning.
- The proximity of the Senior Citizens home or the Historic Basil Doerhoefer Mansion next to the new construction will not leave them any green space or view.
- The Church has not been good caretakers with the existing property so there is no reason to believe that this would change.
- The church allowed the Peter Doerhowfer Mansion to deteriorate and to the point where they demolished without permission.
- The proposed facility is too tall and does not meet the current, residential aesthetic in the community.
- Such a facility would be more appropriate for an area which does not include historic homes and an aging population.
- The church has shown no concern for the Neighbors and how it affects us.

Please DO NOT rezone this site to R7. Once the property is rezoned, a developer can change the original concept within the approved R7 zoning. Single family construction fits within this neighborhood and community.

Respectfully,

Elmer Louise Allen

LETTER OF OPPOSITION

Proposed Rezoning and Development at 4422 West Broadway

To Whom It May Concern:

Armed Anton

1307 FAIRLAND PLACE

LETTER OF OPPOSITION

Proposed Rezoning and Development at 4422 West Broadway

To Whom It May Concern:

I am Elyn Gray a resident living at 718 So. 44th St. Louisville, KY. As part of Westover neighborhood, I am writing to express my opposition to the proposed rezoning and development of property at 4422 West Broadway.

The Land Use Plan for this site is not consistent with the broader intent of the use of the land which is a Historic preservation. Multiple-family residences tend to be clustered together in large developments near other dense land uses, such as commercial and office, as opposed to being scattered throughout neighborhoods; multiple-family residences are typically, physically, and visually, isolated from single-family residences; it should be the goal of the Planning Commission to preserve existing neighborhoods.

Our opposition is also based on these potential/probable negative effects:

- The property owners have already disregarded public safety regarding the fence that keeps falling over.
- They have previously disregarded the integrity of the neighborhood by letting the historic mansion fall to ruin, tearing down the historic building, and allowing trash to pile up outside of trash receptacles.
- The loss of neighborhood and community character.
- Currently there are current problems with parking, cleanliness, and neighborly responsibilities.
- A decrease in the market value of my home.
- Must have an environmental survey for this area.
- Increased traffic congestion adding to an already dangerous situation on West Broadway.
- There has not been a traffic study to see the effects of this number of tenants and streets available to the neighborhood for parking.
- The destruction of green space and mature trees.
- This type of apartment complex does not fit into the single-family neighborhood.
- The dumpsters needed for this type of building will be a problem for the neighborhood.
- The neighborhood will be affected by limited number of parking spaces.
- This will cause overcrowding and congestion in the neighborhood.
- Construction such as jackhammering too close to the Historic Basil Doerhoefer Mansion could cause damage. This must be studied and considered.
- The neighborhood already includes a facility owned and operated by the proposed owner of the facility at issue.
- The upkeep of the property they own now in the neighborhood has been dismal.

- Once the property is rezoned, the developer can change the original concept within the approved R7 zoning.
- The proximity of the Senior Citizens home or the Historic Basil Doerhoefer Mansion next to the new construction will not leave them any green space or view.
- The Church has not been good caretakers with the existing property so there is no reason to believe that this would change.
- The church allowed the Peter Doerhowfer Mansion to deteriorate and to the point where they demolished without permission.
- The proposed facility is too tall and does not meet the current, residential aesthetic in the community.
- Such a facility would be more appropriate for an area which does not include historic homes and an aging population.
- The church has shown no concern for the Neighbors and how it affects us.

Please DO NOT rezone this site to R7. Once the property is rezoned, a developer can change the original concept within the approved R7 zoning. Single family construction fits within this neighborhood and community.

Respectfully,

A handwritten signature in black ink, appearing to read "Eliza Yang". The signature is written in a cursive, flowing style.

LETTER OF OPPOSITION

To Whom It May Concern:

I am Willie J. Sims a resident living at 1046 1/2 So 43 Louisville, KY. As part of Westover neighborhood, I am writing to express my opposition to the proposed rezoning and development of property at 4422 West Broadway.

The Land Use Plan for this site is not consistent with the broader intent of the use of the land which is a Historic preservation. Multiple-family residences tend to be clustered together in large developments near other dense land uses, such as commercial and office, as opposed to being scattered throughout neighborhoods; multiple-family residences are typically, physically, and visually, isolated from single-family residences; it should be the goal of the Planning Commission to preserve existing neighborhoods.

Our opposition is also based on these potential/probable negative effects:

- The property owners have already disregarded public safety regarding the fence that keeps falling over.
- They have previously disregarded the integrity of the neighborhood by letting the historic mansion fall to ruin, tearing down the historic building, and allowing trash to pile up outside of trash receptacles.
- The loss of neighborhood and community character.
- Currently there are current problems with parking, cleanliness, and neighborly responsibilities.
- A decrease in the market value of my home.
- Must have an environmental survey for this area.
- Increased traffic congestion adding to an already dangerous situation on West Broadway.
- There has not been a traffic study to see the effects of this number of tenants and streets available to the neighborhood for parking.
- The destruction of green space and mature trees.
- This type of apartment complex does not fit into the single-family neighborhood.
- The dumpsters needed for this type of building will be a problem for the neighborhood.
- The neighborhood will be affected by limited number of parking spaces.
- This will cause overcrowding and congestion in the neighborhood.
- Construction such as jackhammering too close to the Historic Basil Doerhoefer Mansion could cause damage. This must be studied and considered.
- The neighborhood already includes a facility owned and operated by the proposed owner of the facility at issue.
- The upkeep of the property they own now in the neighborhood has been dismal.

- Once the property is rezoned, the developer can change the original concept within the approved R7 zoning.
- The proximity of the Senior Citizens home or the Historic Basil Doerhoefer Mansion next to the new construction will not leave them any green space or view.
- The Church has not been good caretakers with the existing property so there is no reason to believe that this would change.
- The church allowed the Peter Doerhowfer Mansion to deteriorate and to the point where they demolished without permission.
- The proposed facility is too tall and does not meet the current, residential aesthetic in the community.
- Such a facility would be more appropriate for an area which does not include historic homes and an aging population.
- The church has shown no concern for the Neighbors and how it affects us.
- What happens in ten to fifteen years if the church decides to sell this property?

Please DO NOT rezone this site to R7. Once the property is rezoned, a developer can change the original concept within the approved R7 zoning. Single family construction fits within this neighborhood and community.

Respectfully,

A handwritten signature in black ink, appearing to be "C. J. ...", written over the word "Respectfully,".

LETTER OF OPPOSITION

Proposed Rezoning and Development at 4422 West Broadway

To Whom It May Concern:

I am *Bruce Northman* a resident living at *4529 Everview AVE* Louisville, KY. As part of Westover neighborhood, I am writing to express my opposition to the proposed rezoning and development of property at 4422 West Broadway.

The Land Use Plan for this site is not consistent with the broader intent of the use of the land which is a Historic preservation. Multiple-family residences tend to be clustered together in large developments near other dense land uses, such as commercial and office, as opposed to being scattered throughout neighborhoods; multiple-family residences are typically, physically, and visually, isolated from single-family residences; it should be the goal of the Planning Commission to preserve existing neighborhoods.

Our opposition is also based on these potential/probable negative effects:

- The property owners have already disregarded public safety regarding the fence that keeps falling over.
- They have previously disregarded the integrity of the neighborhood by letting the historic mansion fall to ruin, tearing down the historic building, and allowing trash to pile up outside of trash receptacles.
- The loss of neighborhood and community character.
- Currently there are current problems with parking, cleanliness, and neighborly responsibilities.
- A decrease in the market value of my home.
- Must have an environmental survey for this area.
- Increased traffic congestion adding to an already dangerous situation on West Broadway.
- There has not been a traffic study to see the effects of this number of tenants and streets available to the neighborhood for parking.
- The destruction of green space and mature trees.
- This type of apartment complex does not fit into the single-family neighborhood.
- The dumpsters needed for this type of building will be a problem for the neighborhood.
- The neighborhood will be affected by limited number of parking spaces.
- This will cause overcrowding and congestion in the neighborhood.
- Construction such as jackhammering too close to the Historic Basil Doerhoefer Mansion could cause damage. This must be studied and considered.
- The neighborhood already includes a facility owned and operated by the proposed owner of the facility at issue.
- The upkeep of the property they own now in the neighborhood has been dismal.

LETTER OF OPPOSITION

Proposed Rezoning and Development at 4422 West Broadway

To Whom It May Concern:

I am Wm Daise Sr a resident living at 4522 Riverview Louisville, KY. As part of Westover neighborhood, I am writing to express my opposition to the proposed rezoning and development of property at 4422 West Broadway.

The Land Use Plan for this site is not consistent with the broader intent of the use of the land which is a Historic preservation. Multiple-family residences tend to be clustered together in large developments near other dense land uses, such as commercial and office, as opposed to being scattered throughout neighborhoods; multiple-family residences are typically, physically, and visually, isolated from single-family residences; it should be the goal of the Planning Commission to preserve existing neighborhoods.

Our opposition is also based on these potential/probable negative effects:

- The property owners have already disregarded public safety regarding the fence that keeps falling over.

- The neighborhood already includes a facility owned and operated by the proposed owner of the facility at issue.
- The upkeep of the property they own now in the neighborhood has been dismal.

PETITION REQUESTING A TOTAL REVIEW OF THE PROPOSED APARTMENT BUILDING ON 45TH BROADWAY

Residents of Westover Subdivision and other residents of the Chickasaw and Shawnee Neighborhoods are profoundly concerned about the proposed construction of an apartment building with fifty five (55) Units at 45th and Broadway. We adamantly oppose the construction of this proposed structure for the following reasons:

- neighborhood already includes a facility owned and operated by the proposed owner of the facility at issue.
- recently there are current problems with parking, cleanliness and neighborly responsibilities.
- do not need another facility run by the same owner in our neighborhood.
- proposed facility is too tall and does not meet the current, residential aesthetic in the community.
- are concerned as well about the proposed use.
- community does not need a residential facility for those who have aged out of foster care.
- in a facility would be more appropriate for an area which does not include historic homes, and an aging population.
- there has not been a traffic study to see the affects of this number of tenants and the streets available to the neighborhood.
- proposed 55 unit, four stories apartment building would only have 25 parking spaces for its tenants. This is a problem.
- the dumpsters needed for this type of building will be a problem for the neighborhood.
- the Church did not in advance ask the neighborhood what would be acceptable for this project. No concern for the Neighbors and how it affects us.

PETITION REQUESTING A TOTAL REVIEW OF THE PROPOSED APARTMENT BUILDING ON 45TH BROADWAY

Residents of Westover Subdivision and other residents of the Chickasaw and Shawnee Neighborhoods are profoundly concerned about the proposed construction of an apartment building with fifty five (55) Units at 45th and Broadway. We adamantly oppose the construction of this proposed structure for the following reasons:

1. Our neighborhood already includes a facility owned and operated by the proposed owner of the facility at issue.
2. Currently there are current problems with parking, cleanliness and neighborly responsibilities.
3. We do not need another facility run by the same owner in our neighborhood.
4. The proposed facility is too tall and does not meet the current, residential aesthetic in the community.
5. We are concerned as well both the proposed use.
6. Our community does not need a residential facility for those who have aged out of foster care.
7. Such a facility would be more appropriate for an area which does not include historic homes, and an aging population.
8. There has not been a traffic study to see the affects of this number of tenants and the streets available to the neighborhood.
9. The proposed 55 unit, four stories apartment building would only have 25 parking spaces for its tenants. This is a problem.
10. The dumpsters needed for this type of building will be a problem for the neighborhood.
11. The Church did not in advance ask the neighborhood what would be acceptable for this project. No concern for the Neighbors and how it affects us.

PETITION REQUESTING A TOTAL REVIEW OF THE PROPOSED APARTMENT BUILDING ON 45TH BROADWAY

Residents of Westover Subdivision and other residents of the Chickasaw and Shawnee Neighborhoods are profoundly concerned about the proposed construction of an apartment building with fifty five (55) Units at 45th and Broadway. We adamantly oppose the construction of this proposed structure for the following reasons:

1. Our neighborhood already includes a facility owned and operated by the proposed owner of the facility at issue.
2. Currently there are current problems with parking, cleanliness and neighborly responsibilities.
3. We do not need another facility run by the same owner in our neighborhood.
4. The proposed facility is too tall and does not meet the current, residential aesthetic in the community.
5. We are concerned as well about the proposed use.
6. Our community does not need a residential facility for those who have aged out of foster care.
7. Such a facility would be more appropriate for an area which does not include historic homes, and an aging population.
8. There has not been a traffic study to see the affects of this number of tenants and the streets available to the neighborhood.
9. The proposed 55 unit, four stories apartment building would only have 25 parking spaces for its tenants. This is a problem.
10. The dumpsters needed for this type of building will be a problem for the neighborhood.
11. The Church did not in advance ask the neighborhood what would be acceptable for this project. No concern for the Neighbors and how it affects us:

PETITION REQUESTING A TOTAL REVIEW OF THE PROPOSED APARTMENT BUILDING ON 45TH BROADWAY

Residents of Westover Subdivision and other residents of the Chickasaw and Shawnee Neighborhoods are profoundly concerned about the proposed construction of an apartment building with fifty five (55) Units at 45th and Broadway. We adamantly oppose the construction of this proposed structure for the following reasons:

1. Our neighborhood already includes a facility owned and operated by the proposed owner of the facility at issue.
2. Currently there are current problems with parking, cleanliness and neighborly responsibilities.
3. We do not need another facility run by the same owner in our neighborhood.
4. The proposed facility is too tall and does not meet the current, residential aesthetic in the community.
5. We are concerned as well about the proposed use.
6. Our community does not need a residential facility for those who have aged out of foster care.
7. Such a facility would be more appropriate for an area which does not include historic homes, and an aging population.
8. There has not been a traffic study to see the affects of this number of tenants and the streets available to the neighborhood.
9. The proposed 55 unit, four stories apartment building would only have 25 parking spaces for its tenants. This is a problem.
10. The dumpsters needed for this type of building will be a problem for the neighborhood.
11. The Church did not in advance ask the neighborhood what would be acceptable for this project. No concern for the Neighbors and how it affects us.

PETITION REQUESTING A TOTAL REVIEW OF THE PROPOSED APARTMENT BUILDING ON 45TH BROADWAY

Residents of Westover Subdivision and other residents of the Chickasaw and Shawnee Neighborhoods are profoundly concerned about the proposed construction of an apartment building with fifty five (55) Units at 45th and Broadway. We adamantly oppose the construction of this proposed structure for the following reasons:

1. Our neighborhood already includes a facility owned and operated by the proposed owner of the facility at issue.
2. Currently there are current problems with parking, cleanliness and neighborly responsibilities.
3. We do not need another facility run by the same owner in our neighborhood.
4. The proposed facility is too tall and does not meet the current, residential aesthetic in the community.
5. We are concerned as well about the proposed use.
6. Our community does not need a residential facility for those who have aged out of foster care.
7. Such a facility would be more appropriate for an area which does not include historic homes, and an aging population.
8. There has not been a traffic study to see the affects of this number of tenants and the streets available to the neighborhood.
9. The proposed 55 unit, four stories apartment building would only have 25 parking spaces for its tenants. This is a problem.
10. The dumpsters needed for this type of building will be a problem for the neighborhood.
11. The Church did not in advance ask the neighborhood what would be acceptable for this project. No concern for the Neighbors and how it affects us.

PETITION REQUESTING A TOTAL REVIEW OF THE PROPOSED APARTMENT BUILDING ON 45TH BROADWAY

Residents of Westover Subdivision and other residents of the Chickasaw and Shawnee Neighborhoods are profoundly concerned about the proposed construction of an apartment building with fifty five (55) Units at 45th and Broadway. We adamantly oppose the construction of this proposed structure for the following reasons:

1. There are questions about their capabilities and/or commitment to maintaining the quietude of the community as exemplified by their management of an Airbnb and the disruptive elements it has brought to the neighborhood.
2. The proposed plan indication of compounding current problems with parking, cleanliness and continuity of neighborly responsibilities.
3. The proposed facility does not meet the current, residential aesthetic in the community.
4. We are concerned as well both the proposed use and the impact on the immediate neighborhood and beyond.
5. Our community does not need a residential facility for those who have aged out of foster care which brings uncertainty of the impact of a concentrated unknown and potentially non adaptive persons into the area. Such a facility would be more appropriate for an area which does not include historic homes, and an aging population.
6. There has not been a traffic study to see the effects of this number of tenants and the streets available to the neighborhood.
7. There are already traffic and parking problems in the general area that the neighbors continually try to moderate with others existing in the neighborhood. This compounds the negative situation that we are trying to address.
8. The Church leadership has not addressed the ongoing impact of church members cars blocking access to surrounding homes. The proposed 55 unit, four stories apartment building would only have 25 parking spaces for its tenants. This portends a problem.
9. The Church leaders have not shown sensitive to the concerns of the community or at least, have not demonstrated sufficient research or concern as to how to mitigate adverse impact on the neighborhood.

PETITION REQUESTING A TOTAL REVIEW OF THE PROPOSED APARTMENT BUILDING ON 45TH BROADWAY

Residents of Westover Subdivision and other residents of the Chickasaw and Shawnee Neighborhoods are profoundly concerned about the proposed construction of an apartment building with fifty five (55) Units at 45th and Broadway. We adamantly oppose the construction of this proposed structure for the following reasons:

1. Our neighborhood already includes a facility owned and operated by the proposed owner of the facility at issue.
2. Currently there are current problems with parking, cleanliness and neighborly responsibilities.
3. We do not need another facility run by the same owner in our neighborhood.
4. The proposed facility is too tall and does not meet the current, residential aesthetic in the community.
5. We are concerned as well about the proposed use.
6. Our community does not need a residential facility for those who have aged out of foster care.
7. Such a facility would be more appropriate for an area which does not include historic homes, and an aging population.
8. There has not been a traffic study to see the affects of this number of tenants and the streets available to the neighborhood.
9. The proposed 55 unit, four stories apartment building would only have 25 parking spaces for its tenants. This is a problem.
10. The dumpsters needed for this type of building will be a problem for the neighborhood.
11. The Church did not in advance ask the neighborhood what would be acceptable for this project. No concern for the Neighbors and how it affects us.
