<b>What is the case number of the development application? *</b>	21-ZONE-0057
<b>Comments *</b>	The proposed development in 21-ZONE-0057 will cause extreme flooding for existing residents downstream from the designed on-site retaining basin. Properties downstream of the proposed development already experience flooding due to water being directed across their properties from Vaughn Mill down Briscoe Ln.

**Comments \***

I request to speak during the upcoming zoning change meeting for 6906 Briscoe Ln, 6709 & 6803 Outer Loop from R4 single-family residential to R5A multi-family Residential. Why was the plan changed from R5 single family to R5A multi-family? Briscoe Lane is already a narrow, high-traffic road with a bus compound, Middle and High school traffic, traffic from after school activities, high numbers of walking traffic to and from Highview park. This road cannot handle the extra traffic from multi-family development and from traffic routed off of Outer Loop to Briscoe Ln.
