The University of Louisville School of Medicine Department of Pediatrics provides health care for juveniles while housed at the Youth Center. The care they provide meets the recommendations of the American Academy of Pediatrics standards for Juvenile Court Residential Facilities that house confined youth. University of Louisville has provided this service for several years and has developed a good working relationship with the YDS nursing staff. University of Louisville has established a protocol that meets the needs of the Youth Center for visits and other health related matters that involve the care of YDS residents.

Any change to the existing operation workflow resulting from a bid process would significantly impact the efficiency of the department and the care of the residents of the Youth Center.

AUTHORIZATIONS: Per KRS 45A.380, I have determined that competition is not feasible for the above described good / service and there is a single source within a reasonable geographical area of the good / service to be procured; or the resulting contract is for the services of a licensed professional, technician, artist, or other non-licensed professional service.
