

Justification Statement

The road closure of Gladstone is in compliance with the Comprehensive Plan because it allows all the current property owners that maintain "Gladstone" to maintain it as their own property. Which falls in line with the Comprehensive Plan; Goal C1: "Encourage the development of a mobility system that will enable the community to achieve and maintain a high level of environmental quality". As of late the areas were overgrown and an eye sore. But since we have started this process we are now all looking to maintain these areas to a much higher standard. As stewards of the property we own we will maintain allotted properties to the best of our ability. And we as property owners will allow any public agency having legal authority to maintain sewers and drains that fall on these properties.
