

Summary of Neighborhood Meeting 725 Baroness on 10/29/2019 at 6pm

4 Neighbors showed up to the meeting. First question was relating to what is a short term rental so we discussed. Second question was about parking, which I explained we would have off street parking in the back that would fit 3 cars. We plan to have a 3 car limit and have guests park behind the house. The next question was about how the guests would be vetted so I explained we don't rent to local people and the guest has to have positive reviews and be verified with a government identification. They then asked about how we would manage the unit which I talked about how we use motion cameras and a noise level monitoring device to make sure that no one gets too loud. All neighbors seemed to be good with the proposal and said they had all their questions answered. I gave the neighbors my cell phone number to make sure that they had it and told them to contact me with any questions or concerns.
