Jeff,

We can work up a plan, however, unless the Director approves an increase in budget we are out of no parking sign blanks and we have been out of funding for materials since November. We had some large project costs which ate a significant part of our budget this year. So, even if we get project funding it won't be enough for us to place an order.

Dan,

We will work up a plan and get it in the works ASAP. The section of roadway is approximately 400'. This will necessitate a minimum of (6) no parking anytime signs. This is if we increase the spacing to 200' which is much wider than typical (apx 100' to 150').

William or Patricia,

Can you please provide a cost estimate to install (6) no parking anytime signs on the dead end portion of W Florence Ave?

Thanks,
