

Planning Commission
Staff Report
March 7, 2019

Case No:	18ZONE1066
Project Name:	Keyes Architects and Assoc.
Location:	4717 Preston Highway
Owner(s):	Boaz Hall Assoc.
Applicant:	Keyes Architects
Jurisdiction:	Louisville Metro
Council District:	21-Nicole George
Case Manager:	Julia Williams, AICP, Planning Supervisor

REQUEST(S)

- Change in Zoning from R-7 to OR-3
- Waiver from Chapter 10.2.4 to permit encroachments into the north and south LBAs
- District Development Plan with Binding Elements

CASE SUMMARY/BACKGROUND

The proposal is for a change in zoning to permit an existing private club to be used as an office. The proposal is located adjacent to a commercial business and a cemetery.

STAFF FINDING

Staff finds that the proposal meets the guidelines of the Comprehensive Plan and requirements of the Land Development Code.

TECHNICAL REVIEW

Transportation Planning and MSD have preliminarily approved the proposal.

INTERESTED PARTY COMMENTS

None received

STANDARD OF REVIEW FOR REZONING

Criteria for granting the proposed form district change/rezoning: KRS Chapter 100.213

1. The proposed form district/rezoning change complies with the applicable guidelines and policies Cornerstone 2020; OR
2. The existing form district/zoning classification is inappropriate and the proposed classification is appropriate; OR
3. There have been major changes of an economic, physical, or social nature within the area involved which were not anticipated in Cornerstone 2020 which have substantially altered the basic character of the area.

STAFF ANALYSIS FOR CHANGE IN ZONING

Following is staff's analysis of the proposed rezoning against the Guidelines and Policies of Cornerstone 2020.

The site is located in the Neighborhood Form District

The Neighborhood Form is characterized by predominantly residential uses that vary from low to high density and that blend compatibly into the existing landscape and neighborhood areas. High-density uses will be limited in scope to minor or major arterials and to areas that have limited impact on the low to moderate density residential areas.

The Neighborhood Form will contain diverse housing types in order to provide housing choice for differing ages and incomes. New neighborhoods are encouraged to incorporate these different housing types within a neighborhood as long as the different types are designed to be compatible with nearby land uses. These types may include, but not be limited to large lot single family developments with cul-de-sacs, neo-traditional neighborhoods with short blocks or walkways in the middle of long blocks to connect with other streets, villages and zero lot line neighborhoods with open space, and high density multi-family condominium-style or rental housing.

The Neighborhood Form may contain open space and, at appropriate locations, civic uses and neighborhood centers with a mixture of uses such as offices, retail shops, restaurants and services. These neighborhood centers should be at a scale that is appropriate for nearby neighborhoods. The Neighborhood Form should provide for accessibility and connectivity between adjacent uses and neighborhoods by automobile, pedestrian, bicycles and transit.

Neighborhood streets may be either curvilinear, rectilinear or in a grid pattern and should be designed to invite human interaction. Streets are connected and easily accessible to each other, using design elements such as short blocks or bike/walkways in the middle of long blocks to connect with other streets. Examples of design elements that encourage this interaction include narrow street widths, street trees, sidewalks, shaded seating/gathering areas and bus stops. Placement of utilities should permit the planting of shade trees along both sides of the streets.

The proposal is within a mixed intensity corridor that has been created Preston Hwy. The proposal is surrounded by mixed uses. The proposal is for high intensity office zoning but is located along a major arterial. It will have little impact on adjacent residential uses. The proposal will not create a new center but will be for new construction. OR-3 permits other high density residential and office uses. The proposal is compact and located in the vicinity to other similar and more intense uses making the proposal a cost effective investment. The proposal is part of a high intensity corridor that has been established along Preston Hwy. The zoning is complementary to other zoning in the area, which encourages a sense of place.

All other agency comments should be addressed to demonstrate compliance with the remaining Guidelines and Policies of Cornerstone 2020.

A checklist is attached to the end of this staff report with a more detailed analysis. The Louisville Metro Planning Commission is charged with making a recommendation to the Louisville Metro Council regarding the appropriateness of this zoning map amendment. The Louisville Metro Council has zoning authority over the property in question.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR WAIVER of section 10.2.4.

- (a) The waiver will not adversely affect adjacent property owners; and

STAFF: The waiver will not adversely affect adjacent property owners since the existing property owners and subject site have all been non-residentially used for some time with no buffers.

- (b) The waiver will not violate specific guidelines of Cornerstone 2020; and

STAFF: Guideline 3, Policy 9 of Cornerstone 2020 calls for protection of the character of residential areas, roadway corridors and public spaces from visual intrusions and mitigation when appropriate. Guideline 3, Policies 21 and 22 call for appropriate transitions between uses that are substantially different in scale and intensity or density, and mitigation of the impact caused when incompatible developments occur adjacent to one another through the use of landscaped buffer yards, vegetative berms and setback requirements to address issues such as outdoor lighting, lights from automobiles, illuminated signs, loud noise, odors, smoke, automobile exhaust or other noxious smells, dust and dirt, litter, junk, outdoor storage, and visual nuisances. Guideline 3, Policy 24 states that parking, loading and delivery areas located adjacent to residential areas should be designed to minimize impacts from noise, lights and other potential impacts, and that parking and circulation areas adjacent to streets should be screened or buffered. Guideline 13, Policy 4 calls for ensuring appropriate landscape design standards for different land uses within urbanized, suburban, and rural areas. Guideline 13, Policy 6 calls for screening and buffering to mitigate adjacent incompatible uses. The intent of landscape buffer areas is to create suitable transitions where varying forms of development adjoin, to minimize the negative impacts resulting from adjoining incompatible land uses, to decrease storm water runoff volumes and velocities associated with impervious surfaces, and to filter airborne and waterborne pollutants. The existing conditions on the site will not be changed to any significance that would warrant the buffer areas. The site and surrounding area has been used non-residentially for some time and the condition of the site is not changing.

- (c) The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant; and

STAFF: The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant since the site and surrounding area has been used non-residentially for some time and the condition of the site is not changing.

- (d) Either:

(i) The applicant has incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect); OR

(ii) The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant since the site and surrounding area has been used non-residentially for some time and the condition of the site is not changing.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR RDDDP and AMENDMENT TO BINDING ELEMENTS

- a. The conservation of natural resources on the property proposed for development, including: trees and other living vegetation, steep slopes, water courses, flood plains, soils, air quality, scenic views, and historic sites;

STAFF: There do not appear to be any environmental constraints or historic resources on the subject site.

- b. The provisions for safe and efficient vehicular and pedestrian transportation both within the development and the community;

STAFF: Provisions for safe and efficient vehicular and pedestrian transportation within and around the development and the community has been provided, and Metro Public Works has approved the preliminary development plan.

- c. The provision of sufficient open space (scenic and recreational) to meet the needs of the proposed development;

STAFF: There are no open space requirements pertinent to the current proposal.

- d. The provision of adequate drainage facilities on the subject site in order to prevent drainage problems from occurring on the subject site or within the community;

STAFF: The Metropolitan Sewer District has approved the preliminary development plan and will ensure the provision of adequate drainage facilities on the subject site in order to prevent drainage problems from occurring on the subject site or within the community.

- e. The compatibility of the overall site design (location of buildings, parking lots, screening, landscaping) and land use or uses with the existing and projected future development of the area;

STAFF: The overall site design and land uses are compatible with the existing and future development of the area.

- f. Conformance of the development plan with the Comprehensive Plan and Land Development Code.

STAFF: The development plan conforms to applicable guidelines and policies of the Comprehensive Plan and to requirements of the Land Development Code.

REQUIRED ACTIONS:

- **RECOMMEND** that the Louisville Metro Council **APPROVE** or **DENY** the **Change-in-Zoning** from
- **APPROVE** or **DENY** the **Waiver**
- **APPROVED** or **DENY** the **Detailed District Development Plan**

Based upon the information in the staff report, the testimony and evidence provided at the public hearing, the Planning Commission must determine if the proposal is in conformance with the Comprehensive Plan; OR the existing form district/zoning classification is inappropriate and the

proposed classification is appropriate; OR if there have been major changes of an economic, physical, or social nature within the area involved which were not anticipated in Cornerstone 2020 which have substantially altered the basic character of the area.

3. Staff Cornerstone 2020 Checklist

- + Exceeds Guideline
- ✓ Meets Guideline
- Does Not Meet Guideline
- +/- More Information Needed
- NA Not Applicable

Neighborhood: Non-Residential

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
1	Community Form/Land Use Guideline 1: Community Form	B.3: The proposal is a neighborhood center with a mixture of uses such as offices, retail shops, restaurants and services at a scale that is appropriate for nearby neighborhoods.	✓	The proposal is within a mixed intensity corridor that has been created Preston Hwy. The proposal is surrounded by mixed uses.
2	Community Form/Land Use Guideline 1: Community Form	B.3: If the proposal is high intensity, it is located on a major or minor arterial or an area with limited impact on low to moderate intensity residential uses.	✓	The proposal is for high intensity office zoning but is located along a major arterial. It will have little impact on adjacent residential uses.
3	Community Form/Land Use Guideline 2: Centers	A.1/7: The proposal, which will create a new center, is located in the Neighborhood Form District, and includes new construction or the reuse of existing buildings to provide commercial, office and/or residential use.	✓	The proposal will not create a new center but will be for new construction. OR-3 permits other high density residential and office uses.
4	Community Form/Land Use Guideline 2: Centers	A.3: The proposed retail commercial development is located in an area that has a sufficient population to support it.	NA	The proposal is not for commercial.
5	Community Form/Land Use Guideline 2: Centers	A.4: The proposed development is compact and results in an efficient land use pattern and cost-effective infrastructure investment.	✓	The proposal is compact and located in the vicinity to other similar and more intense uses making the proposal a cost effective investment.
6	Community Form/Land Use Guideline 2: Centers	A.5: The proposed center includes a mix of compatible land uses that will reduce trips, support the use of alternative forms of transportation and encourage vitality and sense of place.	✓	The proposal is part of a high intensity corridor that has been established along Preston Hwy. The zoning is complementary to other zoning in the area, which encourages a sense of place.
7	Community Form/Land Use Guideline 2: Centers	A.6: The proposal incorporates residential and office uses above retail and/or includes other mixed-use, multi-story retail buildings.	✓	The proposal allows for residential which could occur on the site in the future.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
8	Community Form/Land Use Guideline 2: Centers	A.12: If the proposal is a large development in a center, it is designed to be compact and multi-purpose, and is oriented around a central feature such as a public square or plaza or landscape element.	NA	The proposal is not for a large development.
9	Community Form/Land Use Guideline 2: Centers	A.13/15: The proposal shares entrance and parking facilities with adjacent uses to reduce curb cuts and surface parking, and locates parking to balance safety, traffic, transit, pedestrian, environmental and aesthetic concerns.	✓	The proposal does not share entrances with adjacent property as it is using an existing entrance. Sharing access is not required by the land development code.
10	Community Form/Land Use Guideline 2: Centers	A.14: The proposal is designed to share utility hookups and service entrances with adjacent developments, and utility lines are placed underground in common easements.	✓	Utilities could be shared with the proposal.
11	Community Form/Land Use Guideline 2: Centers	A.16: The proposal is designed to support easy access by bicycle, car and transit and by pedestrians and persons with disabilities.	✓	There is an existing sidewalk on Preston Highway that would provide safe access to the site for pedestrians and transit users.
12	Community Form/Land Use Guideline 3: Compatibility	A.2: The proposed building materials increase the new development's compatibility.	✓	A small addition is proposed to the rear of the property. It will be compatible with the existing materials.
13	Community Form/Land Use Guideline 3: Compatibility	A.4/5/6/7: The proposal does not constitute a non-residential expansion into an existing residential area, or demonstrates that despite such an expansion, impacts on existing residences (including traffic, parking, signs, lighting, noise, odor and stormwater) are appropriately mitigated.	✓	The proposal is not a non-residential expansion into a residential area. There are other non-residential uses located nearby and OR-3 permits mixed use.
14	Community Form/Land Use Guideline 3: Compatibility	A.5: The proposal mitigates any potential odor or emissions associated with the development.	✓	APCD had no issues with the proposal.
15	Community Form/Land Use Guideline 3: Compatibility	A.6: The proposal mitigates any adverse impacts of its associated traffic on nearby existing communities.	✓	The proposal has little to no affect on traffic.
16	Community Form/Land Use Guideline 3: Compatibility	A.8: The proposal mitigates adverse impacts of its lighting on nearby properties, and on the night sky.	✓	Lighting will meet LDC requirements.
17	Community Form/Land Use Guideline 3: Compatibility	A.11: If the proposal is a higher density or intensity use, it is located along a transit corridor AND in or near an activity center.	✓	The proposal is for a high density zoning district and is located along a transit corridor and near an activity corridor.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
18	Community Form/Land Use Guideline 3: Compatibility	A.21: The proposal provides appropriate transitions between uses that are substantially different in scale and intensity or density of development such as landscaped buffer yards, vegetative berms, compatible building design and materials, height restrictions, or setback requirements.	✓	The site is surrounded by non-residential uses. There is a very small addition proposed to the building, but all other site conditions will remain the same. Providing the entire buffer width does not change the compatibility of the proposal and the adjacent zoning.
19	Community Form/Land Use Guideline 3: Compatibility	A.22: The proposal mitigates the impacts caused when incompatible developments unavoidably occur adjacent to one another by using buffers that are of varying designs such as landscaping, vegetative berms and/or walls, and that address those aspects of the development that have the potential to adversely impact existing area developments.	✓	The site is surrounded by non-residential uses. There is a very small addition proposed to the building, but all other site conditions will remain the same. Providing the entire buffer width does not change the compatibility of the proposal and the adjacent zoning.
20	Community Form/Land Use Guideline 3: Compatibility	A.23: Setbacks, lot dimensions and building heights are compatible with those of nearby developments that meet form district standards.	✓	Setbacks and building heights are in compliance with the LDC.
21	Community Form/Land Use Guideline 3: Compatibility	A.24: Parking, loading and delivery areas located adjacent to residential areas are designed to minimize adverse impacts of lighting, noise and other potential impacts, and that these areas are located to avoid negatively impacting motorists, residents and pedestrians.	✓	The site is surrounded by non-residential uses. There is a very small addition proposed to the building, but all other site conditions will remain the same. Providing the entire buffer width does not change the compatibility of the proposal and the adjacent zoning.
22	Community Form/Land Use Guideline 3: Compatibility	A.24: The proposal includes screening and buffering of parking and circulation areas adjacent to the street, and uses design features or landscaping to fill gaps created by surface parking lots. Parking areas and garage doors are oriented to the side or back of buildings rather than to the street.	✓	Parking will be screened from the roadway.
23	Community Form/Land Use Guideline 3: Compatibility	A.25: Parking garages are integrated into their surroundings and provide an active, inviting street-level appearance.	NA	A parking garage is not proposed.
24	Community Form/Land Use Guideline 3: Compatibility	A.28: Signs are compatible with the form district pattern and contribute to the visual quality of their surroundings.	✓	Signs will meet LDC requirements.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
25	Community Form/Land Use Guideline 4: Open Space	A.2/3/7: The proposal provides open space that helps meet the needs of the community as a component of the development and provides for the continued maintenance of that open space.	NA	Open space is not required.
26	Community Form/Land Use Guideline 4: Open Space	A.4: Open space design is consistent with the pattern of development in the Neighborhood Form District.	NA	Open space is not required.
27	Community Form/Land Use Guideline 4: Open Space	A.5: The proposal integrates natural features into the pattern of development.	NA	There are no natural features evident on the site.
28	Community Form/Land Use Guideline 5: Natural Areas and Scenic and Historic Resources	A.1: The proposal respects the natural features of the site through sensitive site design, avoids substantial changes to the topography and minimizes property damage and environmental degradation resulting from disturbance of natural systems.	NA	There are no natural features evident on the site.
29	Community Form/Land Use Guideline 5: Natural Areas and Scenic and Historic Resources	A.2/4: The proposal includes the preservation, use or adaptive reuse of buildings, sites, districts and landscapes that are recognized as having historical or architectural value, and, if located within the impact area of these resources, is compatible in height, bulk, scale, architecture and placement.	NA	The proposal has no historical or cultural significance.
30	Community Form/Land Use Guideline 5: Natural Areas and Scenic and Historic Resources	A.6: Encourage development to avoid wet or highly permeable soils, severe, steep or unstable slopes with the potential for severe erosion.	✓	Soils are not an issue for the proposal.
31	Marketplace Guideline 6: Economic Growth and Sustainability	A.3: Encourage redevelopment, reinvestment and rehabilitation in the downtown where it is consistent with the form district pattern.	NA	The proposal is not located within a downtown.
32	Marketplace Guideline 6: Economic Growth and Sustainability	A.4: Encourage industries to locate in industrial subdivisions or adjacent to existing industry to take advantage of special infrastructure needs.	NA	The proposal is not for industrial.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
33	Marketplace Guideline 6: Economic Growth and Sustainability	A.6: Locate retail commercial development in activity centers. Locate uses generating large amounts of traffic on a major arterial, at the intersection of two minor arterials or at locations with good access to a major arterial and where the proposed use will not adversely affect adjacent areas.	NA	The proposal is not for commercial.
34	Marketplace Guideline 6: Economic Growth and Sustainability	A.8: Require industrial development with more than 100 employees to locate on or near an arterial street, preferably in close proximity to an expressway interchange. Require industrial development with less than 100 employees to locate on or near an arterial street.	NA	The proposal is not for industrial.
35	Mobility/Transportation Guideline 7: Circulation	A.1/2: The proposal will contribute its proportional share of the cost of roadway improvements and other services and public facilities made necessary by the development through physical improvements to these facilities, contribution of money, or other means.	✓	Roadway improvements are not warranted with this proposal.
36	Mobility/Transportation Guideline 7: Circulation	A.3/4: The proposal promotes mass transit, bicycle and pedestrian use and provides amenities to support these modes of transportation.	✓	There is an existing sidewalk on Preston Highway that would provide safe access to the site for pedestrians and transit users.
37	Mobility/Transportation Guideline 7: Circulation	A.6: The proposal's transportation facilities are compatible with and support access to surrounding land uses, and contribute to the appropriate development of adjacent lands. The proposal includes at least one continuous roadway through the development, adequate street stubs, and relies on cul-de-sacs only as short side streets or where natural features limit development of "through" roads.	✓	Cross access is not required with this proposal.
38	Mobility/Transportation Guideline 7: Circulation	A.9: The proposal includes the dedication of rights-of-way for street, transit corridors, bikeway and walkway facilities within or abutting the development.	✓	Additional ROW is not required with this proposal.
39	Mobility/Transportation Guideline 7: Circulation	A.10: The proposal includes adequate parking spaces to support the use.	✓	Adequate parking is provided.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
40	Mobility/Transportation Guideline 7: Circulation	A.13/16: The proposal provides for joint and cross access through the development and to connect to adjacent development sites.	✓	Cross access is not required with this proposal.
41	Mobility/Transportation Guideline 8: Transportation Facility Design	A.8: Adequate stub streets are provided for future roadway connections that support and contribute to appropriate development of adjacent land.	NA	No new roadways are proposed.
42	Mobility/Transportation Guideline 8: Transportation Facility Design	A.9: Avoid access to development through areas of significantly lower intensity or density if such access would create a significant nuisance.	✓	Access to the site is from a major arterial road.
43	Mobility/Transportation Guideline 8: Transportation Facility Design	A.11: The development provides for an appropriate functional hierarchy of streets and appropriate linkages between activity areas in and adjacent to the development site.	NA	No new roadways are proposed.
44	Mobility/Transportation Guideline 9: Bicycle, Pedestrian and Transit	A.1/2: The proposal provides, where appropriate, for the movement of pedestrians, bicyclists and transit users around and through the development, provides bicycle and pedestrian connections to adjacent developments and to transit stops, and is appropriately located for its density and intensity.	✓	There is an existing sidewalk on Preston Highway that would provide safe access to the site for pedestrians and transit users.
45	Livability/Environment Guideline 10: Flooding and Stormwater	The proposal's drainage plans have been approved by MSD, and the proposal mitigates negative impacts to the floodplain and minimizes impervious area. Solid blue line streams are protected through a vegetative buffer, and drainage designs are capable of accommodating upstream runoff assuming a fully-developed watershed. If streambank restoration or preservation is necessary, the proposal uses best management practices.	✓	MSD has no issues with the proposal.
46	Livability/Environment Guideline 12: Air Quality	The proposal has been reviewed by APCD and found to not have a negative impact on air quality.	✓	APCD has no issues with the proposal.
47	Livability/Environment Guideline 13: Landscape Character	A.3: The proposal includes additions and connections to a system of natural corridors that can provide habitat areas and allow for migration.	✓	There are no natural features evident on the site.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
48	Community Facilities Guideline 14: Infrastructure	A.2: The proposal is located in an area served by existing utilities or planned for utilities.	✓	Proposed utilities will serve the site.
49	Community Facilities Guideline 14: Infrastructure	A.3: The proposal has access to an adequate supply of potable water and water for fire-fighting purposes.	✓	An adequate water supply is available to the site.
50	Community Facilities Guideline 14: Infrastructure	A.4: The proposal has adequate means of sewage treatment and disposal to protect public health and to protect water quality in lakes and streams.	✓	The Health Department has no issues with the proposal.

4. **Proposed Binding Elements**

1. The development shall be in accordance with the approved district development plan, all applicable sections of the Land Development Code (LDC) and agreed upon binding elements unless amended pursuant to the Land Development Code. Any changes/additions/alterations of any binding element(s) shall be submitted to the Planning Commission or the Planning Commission's designee for review and approval; any changes/additions/alterations not so referred shall not be valid.
2. No outdoor advertising signs, small freestanding signs, pennants, balloons, or banners shall be permitted on the site.
3. Construction fencing shall be erected when off-site trees or tree canopy exists within 3' of a common property line. Fencing shall be in place prior to any grading or construction to protect the existing root systems from compaction. The fencing shall enclose the entire area beneath the tree canopy and shall remain in place until all construction is completed. No parking, material storage or construction activities are permitted within the protected area.
4. Before any permit (including but not limited to building, parking lot, change of use, site disturbance) is requested:
 - a. The development plan must receive full construction approval from Construction Review, Louisville Metro Public Works and the Metropolitan Sewer District.
 - b. Encroachment permits must be obtained from the Kentucky Transportation Cabinet.
 - c. The property owner/developer must obtain approval of a detailed plan for screening (buffering/landscaping) as described in Chapter 10 prior to requesting a building permit. Such plan shall be implemented prior to occupancy of the site and shall be maintained thereafter. Landscaping shall be installed within 6 months or the next available planting season of the zoning approval.
5. A certificate of occupancy must be received from the appropriate code enforcement department prior to occupancy of the structure or land for the proposed use. All binding elements requiring action and approval must be implemented prior to requesting issuance of the certificate of occupancy, unless specifically waived by the Planning Commission.
6. The applicant, developer, or property owner shall provide copies of these binding elements to tenants, purchasers, contractors, subcontractors and other parties engaged in development of this site and shall advise them of the content of these binding elements. These binding elements shall run with the land and the owner of the property and occupant of the property shall at all times be responsible for compliance with these binding elements. At all times during development of the site, the applicant and developer, their heirs, successors; and assignees, contractors, subcontractors, and other parties engaged in development of the site, shall be responsible for compliance with these binding elements.

REQUEST(S)

- Change in Zoning from R-7 to OR-3
- Waiver from Chapter 10.2.4 to permit encroachments into the north and south LBAs
- District Development Plan with Binding Elements

CASE SUMMARY/BACKGROUND

The proposal is for a change in zoning to permit an existing private club to be used as an office. The proposal is located adjacent to a commercial business and a cemetery.

STAFF FINDING

The proposal is ready for a public hearing date to be set.

TECHNICAL REVIEW

Transportation Planning and MSD have preliminarily approved the proposal.

INTERESTED PARTY COMMENTS

None received

STANDARD OF REVIEW FOR REZONING

Criteria for granting the proposed form district change/rezoning: KRS Chapter 100.213

1. The proposed form district/rezoning change complies with the applicable guidelines and policies Cornerstone 2020; OR
2. The existing form district/zoning classification is inappropriate and the proposed classification is appropriate; OR
3. There have been major changes of an economic, physical, or social nature within the area involved which were not anticipated in Cornerstone 2020 which have substantially altered the basic character of the area.

STAFF ANALYSIS FOR CHANGE IN ZONING

The site is located in the Neighborhood Form District

The Neighborhood Form is characterized by predominantly residential uses that vary from low to high density and that blend compatibly into the existing landscape and neighborhood areas. High-density uses will be limited in scope to minor or major arterials and to areas that have limited impact on the low to moderate density residential areas.

The Neighborhood Form will contain diverse housing types in order to provide housing choice for differing ages and incomes. New neighborhoods are encouraged to incorporate these different housing types within a neighborhood as long as the different types are designed to be compatible with nearby land uses. These types may include, but not be limited to large lot single family developments with cul-de-sacs, neo-traditional neighborhoods with short blocks or walkways in the middle of long blocks to connect with other streets, villages and zero lot line neighborhoods with open space, and high density multi-family condominium-style or rental housing.

The Neighborhood Form may contain open space and, at appropriate locations, civic uses and neighborhood centers with a mixture of uses such as offices, retail shops, restaurants and services. These neighborhood centers should be at a scale that is appropriate for nearby neighborhoods. The Neighborhood Form should provide for accessibility and connectivity between adjacent uses and neighborhoods by automobile, pedestrian, bicycles and transit.

Neighborhood streets may be either curvilinear, rectilinear or in a grid pattern and should be designed to invite human interaction. Streets are connected and easily accessible to each other, using design elements such as short blocks or bike/walkways in the middle of long blocks to connect with other streets. Examples of design elements that encourage this interaction include narrow street widths, street trees, sidewalks, shaded seating/gathering areas and bus stops. Placement of utilities should permit the planting of shade trees along both sides of the streets.

REQUIRED ACTIONS:

- **SET** the public hearing date

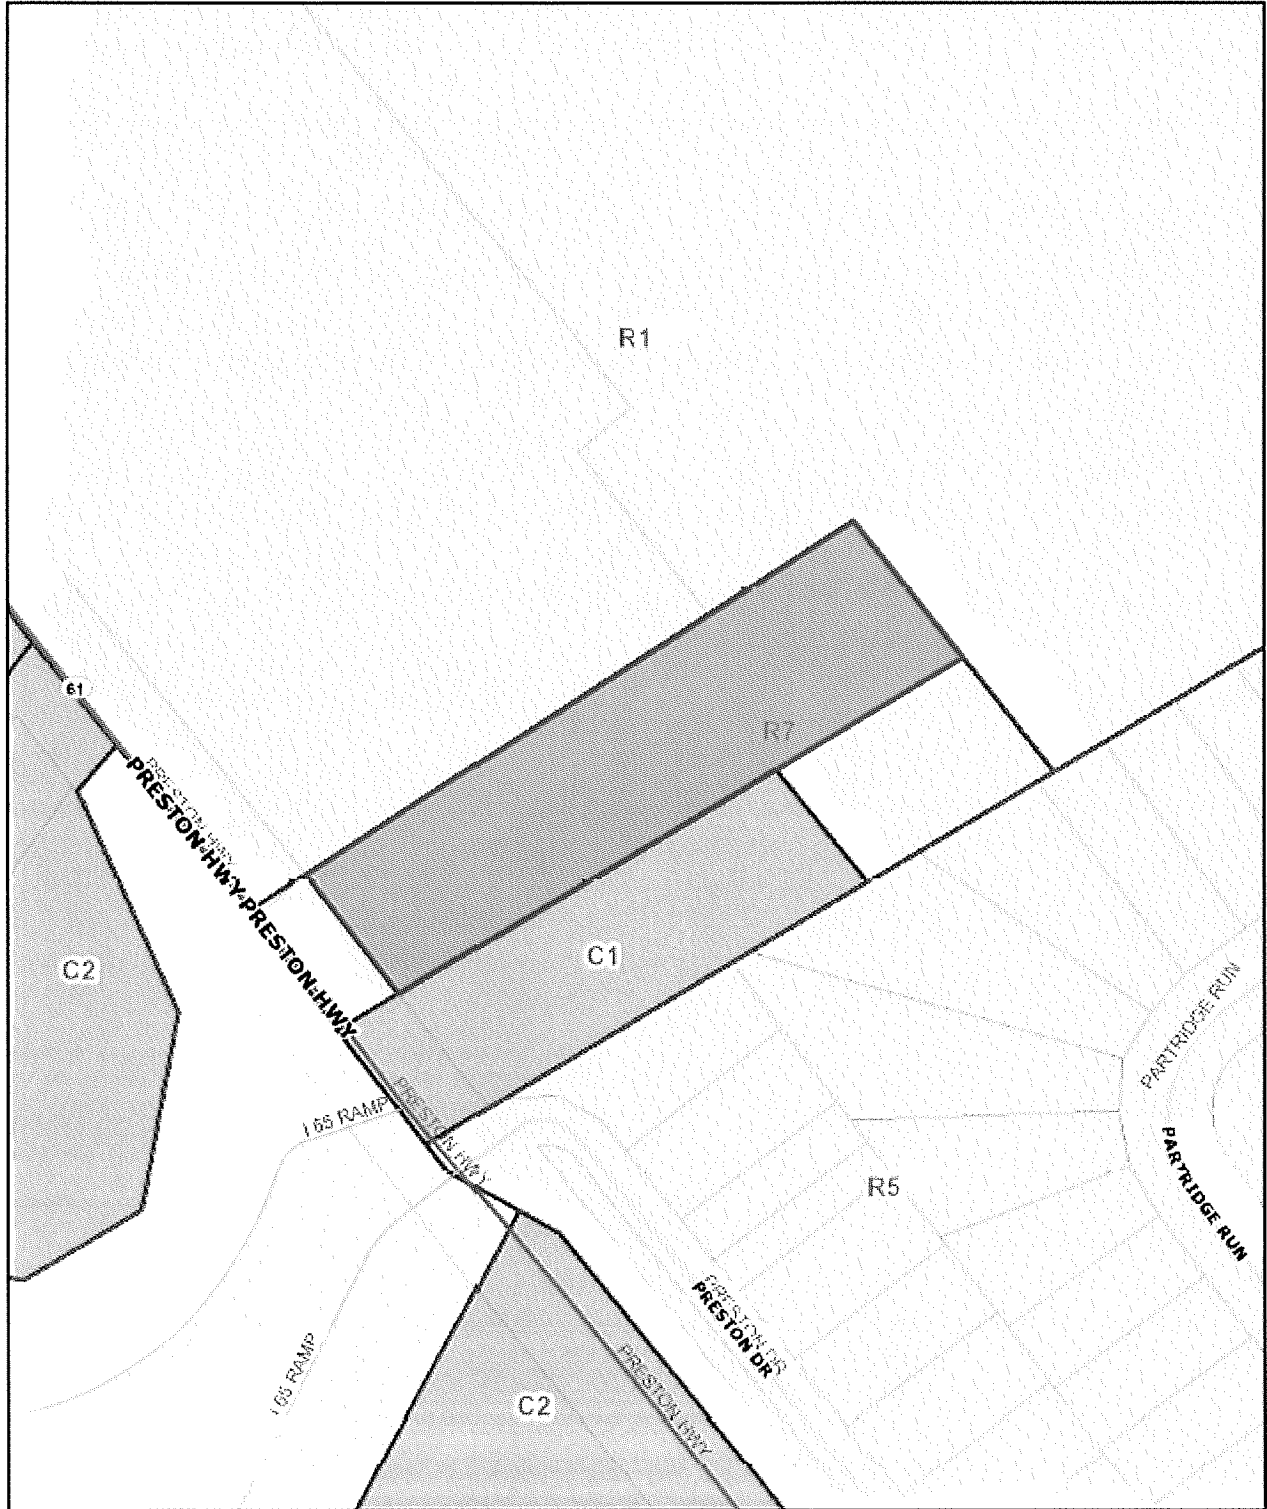

NOTIFICATION

3. Proposed Binding Elements

1. The development shall be in accordance with the approved district development plan, all applicable sections of the Land Development Code (LDC) and agreed upon binding elements unless amended pursuant to the Land Development Code. Any changes/additions/alterations of any binding element(s) shall be submitted to the Planning Commission or the Planning Commission's designee for review and approval; any changes/additions/alterations not so referred shall not be valid.
2. No outdoor advertising signs, small freestanding signs, pennants, balloons, or banners shall be permitted on the site.
3. Construction fencing shall be erected when off-site trees or tree canopy exists within 3' of a common property line. Fencing shall be in place prior to any grading or construction to protect the existing root systems from compaction. The fencing shall enclose the entire area beneath the tree canopy and shall remain in place until all construction is completed. No parking, material storage or construction activities are permitted within the protected area.
4. Before any permit (including but not limited to building, parking lot, change of use, site disturbance) is requested:
 - a. The development plan must receive full construction approval from Construction Review, Louisville Metro Public Works and the Metropolitan Sewer District.
 - b. Encroachment permits must be obtained from the Kentucky Transportation Cabinet.
 - c. The property owner/developer must obtain approval of a detailed plan for screening (buffering/landscaping) as described in Chapter 10 prior to requesting a building permit. Such plan shall be implemented prior to occupancy of the site and shall be maintained thereafter. Landscaping shall be installed within 6 months or the next available planting season of the zoning approval.
5. A certificate of occupancy must be received from the appropriate code enforcement department prior to occupancy of the structure or land for the proposed use. All binding elements requiring action and approval must be implemented prior to requesting issuance of the certificate of occupancy, unless specifically waived by the Planning Commission.
6. The applicant, developer, or property owner shall provide copies of these binding elements to tenants, purchasers, contractors, subcontractors and other parties engaged in development of this site and shall advise them of the content of these binding elements. These binding elements shall run with the land and the owner of the property and occupant of the property shall at all times be responsible for compliance with these binding elements. At all times during development of the site, the applicant and developer, their heirs, successors; and assignees, contractors, subcontractors, and other parties engaged in development of the site, shall be responsible for compliance with these binding elements.

Case No:	18zone1066
Project Name:	Keyes Architects and Associates
Location:	4717 Preston Highway
Owner(s):	Boaz Hall Association
Applicant:	Keyes Architects
Jurisdiction:	Louisville Metro
Council District:	21-Vitalis Lanshima
Case Manager:	Julia Williams, AICP, Planning Supervisor

REQUEST(S)

- Change in zoning from R-7 to OR-3
- District Development plan

CASE SUMMARY/BACKGROUND

The proposal is for the change in zoning of an existing private club for office zoning and the future construction of an office expansion. The proposal is located adjacent to a commercial business and a cemetery.

STAFF FINDING

The proposal is ready for a neighborhood meeting or to have early notification sent.

STANDARD OF REVIEW FOR REZONING

Criteria for granting the proposed form district change/rezoning: KRS Chapter 100.213

1. The proposed form district/rezoning change complies with the applicable guidelines and policies Cornerstone 2020; OR
2. The existing form district/zoning classification is inappropriate and the proposed classification is appropriate; OR
3. There have been major changes of an economic, physical, or social nature within the area involved which were not anticipated in Cornerstone 2020 which have substantially altered the basic character of the area.

STAFF ANALYSIS FOR CHANGE IN ZONING

Following is staff’s analysis of the proposed rezoning against the Guidelines and Policies of Cornerstone 2020.

The site is located in the Neighborhood Form District

The Neighborhood Form is characterized by predominantly residential uses that vary from low to high density and that blend compatibly into the existing landscape and neighborhood areas. High-density uses will be limited in scope to minor or major arterials and to areas that have limited impact on the low to moderate density residential areas.

The Neighborhood Form will contain diverse housing types in order to provide housing choice for differing ages and incomes. New neighborhoods are encouraged to incorporate these different housing types within a neighborhood as long as the different types are designed to be compatible with nearby land uses. These types may include, but not be limited to large lot single family developments with cul-de-sacs, neo-traditional neighborhoods with short blocks or walkways in the middle of long blocks to connect with other streets, villages and zero lot line neighborhoods with open space, and high density multi-family condominium-style or rental housing.

The Neighborhood Form may contain open space and, at appropriate locations, civic uses and neighborhood centers with a mixture of uses such as offices, retail shops, restaurants and services. These neighborhood centers should be at a scale that is appropriate for nearby neighborhoods. The Neighborhood Form should provide for accessibility and connectivity between adjacent uses and neighborhoods by automobile, pedestrian, bicycles and transit.

Neighborhood streets may be either curvilinear, rectilinear or in a grid pattern and should be designed to invite human interaction. Streets are connected and easily accessible to each other, using design elements such as short blocks or bike/walkways in the middle of long blocks to connect with other streets. Examples of design elements that encourage this interaction include narrow street widths, street trees, sidewalks, shaded seating/gathering areas and bus stops. Placement of utilities should permit the planting of shade trees along both sides of the streets.

The proposal for OR-3 zoning is appropriate on the site as there are other more intense land uses located in the vicinity.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
1	Community Form/Land Use Guideline 1: Community Form	B.3: The proposal is a neighborhood center with a mixture of uses such as offices, retail shops, restaurants and services at a scale that is appropriate for nearby neighborhoods.	✓	The proposal is within a mixed intensity corridor that has been created Preston Hwy. The proposal is surrounded by mixed uses.
2	Community Form/Land Use Guideline 1: Community Form	B.3: If the proposal is high intensity, it is located on a major or minor arterial or an area with limited impact on low to moderate intensity residential uses.	✓	The proposal is for high intensity office zoning but is located along a major arterial. It will have little impact on adjacent residential uses.
3	Community Form/Land Use Guideline 2: Centers	A.1/7: The proposal, which will create a new center, is located in the Neighborhood Form District, and includes new construction or the reuse of existing buildings to provide commercial, office and/or residential use.	✓	The proposal will not create a new center but will be for new construction. OR-3 permits other high density residential and office uses.
4	Community Form/Land Use Guideline 2: Centers	A.3: The proposed retail commercial development is located in an area that has a sufficient population to support it.	NA	The proposal is not for commercial.
5	Community Form/Land Use Guideline 2: Centers	A.4: The proposed development is compact and results in an efficient land use pattern and cost-effective infrastructure investment.	✓	The proposal is compact and located in the vicinity to other similar and more intense uses making the proposal a cost effective investment.
6	Community Form/Land Use Guideline 2: Centers	A.5: The proposed center includes a mix of compatible land uses that will reduce trips, support the use of alternative forms of transportation and encourage vitality and sense of place.	✓	The proposal is part of a high intensity corridor that has been established along Preston Hwy. The zoning is complementary to other zoning in the area, which encourages a sense of place.
7	Community Form/Land Use Guideline 2: Centers	A.6: The proposal incorporates residential and office uses above retail and/or includes other mixed-use, multi-story retail buildings.	+/-	More information is necessary.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
8	Community Form/Land Use Guideline 2: Centers	A.12: If the proposal is a large development in a center, it is designed to be compact and multi-purpose, and is oriented around a central feature such as a public square or plaza or landscape element.	NA	The proposal is not for a large development.
9	Community Form/Land Use Guideline 2: Centers	A.13/15: The proposal shares entrance and parking facilities with adjacent uses to reduce curb cuts and surface parking, and locates parking to balance safety, traffic, transit, pedestrian, environmental and aesthetic concerns.	+/-	More information on access is necessary.
10	Community Form/Land Use Guideline 2: Centers	A.14: The proposal is designed to share utility hookups and service entrances with adjacent developments, and utility lines are placed underground in common easements.	✓	Utilities could be shared with the proposal.
11	Community Form/Land Use Guideline 2: Centers	A.16: The proposal is designed to support easy access by bicycle, car and transit and by pedestrians and persons with disabilities.	✓	More information is necessary.
12	Community Form/Land Use Guideline 3: Compatibility	A.2: The proposed building materials increase the new development's compatibility.	+/-	More information is necessary.
13	Community Form/Land Use Guideline 3: Compatibility	A.4/5/6/7: The proposal does not constitute a non-residential expansion into an existing residential area, or demonstrates that despite such an expansion, impacts on existing residences (including traffic, parking, signs, lighting, noise, odor and stormwater) are appropriately mitigated.	✓	The proposal is not a non-residential expansion into a residential area. There are other non-residential uses located nearby and OR-3 permits mixed use.
14	Community Form/Land Use Guideline 3: Compatibility	A.5: The proposal mitigates any potential odor or emissions associated with the development.	✓	APCD had no issues with the proposal.
15	Community Form/Land Use Guideline 3: Compatibility	A.6: The proposal mitigates any adverse impacts of its associated traffic on nearby existing communities.	+/-	More information is necessary.
16	Community Form/Land Use Guideline 3: Compatibility	A.8: The proposal mitigates adverse impacts of its lighting on nearby properties, and on the night sky.	✓	Lighting will meet LDC requirements.
17	Community Form/Land Use Guideline 3: Compatibility	A.11: If the proposal is a higher density or intensity use, it is located along a transit corridor AND in or near an activity center.	✓	The proposal is for a high density zoning district and is located along a transit corridor and near an activity corridor.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
18	Community Form/Land Use Guideline 3: Compatibility	A.21: The proposal provides appropriate transitions between uses that are substantially different in scale and intensity or density of development such as landscaped buffer yards, vegetative berms, compatible building design and materials, height restrictions, or setback requirements.	+/-	More information is necessary.
19	Community Form/Land Use Guideline 3: Compatibility	A.22: The proposal mitigates the impacts caused when incompatible developments unavoidably occur adjacent to one another by using buffers that are of varying designs such as landscaping, vegetative berms and/or walls, and that address those aspects of the development that have the potential to adversely impact existing area developments.	+/-	More information is necessary.
20	Community Form/Land Use Guideline 3: Compatibility	A.23: Setbacks, lot dimensions and building heights are compatible with those of nearby developments that meet form district standards.	+/-	More information is necessary.
21	Community Form/Land Use Guideline 3: Compatibility	A.24: Parking, loading and delivery areas located adjacent to residential areas are designed to minimize adverse impacts of lighting, noise and other potential impacts, and that these areas are located to avoid negatively impacting motorists, residents and pedestrians.	+/-	More information is necessary.
22	Community Form/Land Use Guideline 3: Compatibility	A.24: The proposal includes screening and buffering of parking and circulation areas adjacent to the street, and uses design features or landscaping to fill gaps created by surface parking lots. Parking areas and garage doors are oriented to the side or back of buildings rather than to the street.	✓	Parking will be screened from the roadway.
23	Community Form/Land Use Guideline 3: Compatibility	A.25: Parking garages are integrated into their surroundings and provide an active, inviting street-level appearance.	+/-	More information is necessary.
24	Community Form/Land Use Guideline 3: Compatibility	A.28: Signs are compatible with the form district pattern and contribute to the visual quality of their surroundings.	+/-	More information is necessary.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
25	Community Form/Land Use Guideline 4: Open Space	A.2/3/7: The proposal provides open space that helps meet the needs of the community as a component of the development and provides for the continued maintenance of that open space.	+/-	More information is necessary.
26	Community Form/Land Use Guideline 4: Open Space	A.4: Open space design is consistent with the pattern of development in the Neighborhood Form District.	+/-	More information is necessary.
27	Community Form/Land Use Guideline 4: Open Space	A.5: The proposal integrates natural features into the pattern of development.	+/-	More information is necessary.
28	Community Form/Land Use Guideline 5: Natural Areas and Scenic and Historic Resources	A.1: The proposal respects the natural features of the site through sensitive site design, avoids substantial changes to the topography and minimizes property damage and environmental degradation resulting from disturbance of natural systems.	+/-	More information is necessary.
29	Community Form/Land Use Guideline 5: Natural Areas and Scenic and Historic Resources	A.2/4: The proposal includes the preservation, use or adaptive reuse of buildings, sites, districts and landscapes that are recognized as having historical or architectural value, and, if located within the impact area of these resources, is compatible in height, bulk, scale, architecture and placement.	+/-	More information is necessary.
30	Community Form/Land Use Guideline 5: Natural Areas and Scenic and Historic Resources	A.6: Encourage development to avoid wet or highly permeable soils, severe, steep or unstable slopes with the potential for severe erosion.	+/-	More information is necessary.
31	Marketplace Guideline 6: Economic Growth and Sustainability	A.3: Encourage redevelopment, reinvestment and rehabilitation in the downtown where it is consistent with the form district pattern.	NA	The proposal is not located within a downtown.
32	Marketplace Guideline 6: Economic Growth and Sustainability	A.4: Encourage industries to locate in industrial subdivisions or adjacent to existing industry to take advantage of special infrastructure needs.	NA	The proposal is not for industrial.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
33	Marketplace Guideline 6: Economic Growth and Sustainability	A.6: Locate retail commercial development in activity centers. Locate uses generating large amounts of traffic on a major arterial, at the intersection of two minor arterials or at locations with good access to a major arterial and where the proposed use will not adversely affect adjacent areas.	NA	The proposal is not for commercial.
34	Marketplace Guideline 6: Economic Growth and Sustainability	A.8: Require industrial development with more than 100 employees to locate on or near an arterial street, preferably in close proximity to an expressway interchange. Require industrial development with less than 100 employees to locate on or near an arterial street.	NA	The proposal is not for industrial.
35	Mobility/Transportation Guideline 7: Circulation	A.1/2: The proposal will contribute its proportional share of the cost of roadway improvements and other services and public facilities made necessary by the development through physical improvements to these facilities, contribution of money, or other means.	+/-	More information is necessary.
36	Mobility/Transportation Guideline 7: Circulation	A.3/4: The proposal promotes mass transit, bicycle and pedestrian use and provides amenities to support these modes of transportation.	+/-	More information is necessary.
37	Mobility/Transportation Guideline 7: Circulation	A.6: The proposal's transportation facilities are compatible with and support access to surrounding land uses, and contribute to the appropriate development of adjacent lands. The proposal includes at least one continuous roadway through the development, adequate street stubs, and relies on cul-de-sacs only as short side streets or where natural features limit development of "through" roads.	+/-	More information is necessary.
38	Mobility/Transportation Guideline 7: Circulation	A.9: The proposal includes the dedication of rights-of-way for street, transit corridors, bikeway and walkway facilities within or abutting the development.	+/-	More information is necessary.
39	Mobility/Transportation Guideline 7: Circulation	A.10: The proposal includes adequate parking spaces to support the use.	✓	Adequate parking is provided.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
40	Mobility/Transportation Guideline 7: Circulation	A.13/16: The proposal provides for joint and cross access through the development and to connect to adjacent development sites.	+/-	More information is necessary.
41	Mobility/Transportation Guideline 8: Transportation Facility Design	A.8: Adequate stub streets are provided for future roadway connections that support and contribute to appropriate development of adjacent land.	NA	No new roadways are proposed.
42	Mobility/Transportation Guideline 8: Transportation Facility Design	A.9: Avoid access to development through areas of significantly lower intensity or density if such access would create a significant nuisance.	✓	Access to the site is from a major arterial road.
43	Mobility/Transportation Guideline 8: Transportation Facility Design	A.11: The development provides for an appropriate functional hierarchy of streets and appropriate linkages between activity areas in and adjacent to the development site.	NA	No new roadways are proposed.
44	Mobility/Transportation Guideline 9: Bicycle, Pedestrian and Transit	A.1/2: The proposal provides, where appropriate, for the movement of pedestrians, bicyclists and transit users around and through the development, provides bicycle and pedestrian connections to adjacent developments and to transit stops, and is appropriately located for its density and intensity.	+/-	More information is necessary.
45	Livability/Environment Guideline 10: Flooding and Stormwater	The proposal's drainage plans have been approved by MSD, and the proposal mitigates negative impacts to the floodplain and minimizes impervious area. Solid blue line streams are protected through a vegetative buffer, and drainage designs are capable of accommodating upstream runoff assuming a fully-developed watershed. If streambank restoration or preservation is necessary, the proposal uses best management practices.	+/-	More information is necessary.
46	Livability/Environment Guideline 12: Air Quality	The proposal has been reviewed by APCD and found to not have a negative impact on air quality.	✓	APCD has no issues with the proposal.
47	Livability/Environment Guideline 13: Landscape Character	A.3: The proposal includes additions and connections to a system of natural corridors that can provide habitat areas and allow for migration.	+/-	More information is necessary.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
48	Community Facilities Guideline 14: Infrastructure	A.2: The proposal is located in an area served by existing utilities or planned for utilities.	✓	Proposed utilities will serve the site.
49	Community Facilities Guideline 14: Infrastructure	A.3: The proposal has access to an adequate supply of potable water and water for fire-fighting purposes.	✓	An adequate water supply is available to the site.
50	Community Facilities Guideline 14: Infrastructure	A.4: The proposal has adequate means of sewage treatment and disposal to protect public health and to protect water quality in lakes and streams.	✓	The Health Department has no issues with the proposal.
