October 12, 2016

Dear Neighbor,

RE: Proposed change in zoning from R-4 to C-2 to allow a “Menards” store on approximately 32.50 acres on the property located at the southeast corner of Preston Highway and Cooper Chapel Road at 4700, 4900, 4902, 4904, 4908 and 5000 Cooper Chapel Road and 10211 Preston Highway and 4915, 4917, 5001, 5003, 5005 & 5007 Maple Spring Drive

We are writing to invite you to a meeting we have scheduled to present neighbors with our rezoning plan to allow a 207,922 square foot “Menards” store with outlots and residual tracts to be located as above.

Accordingly, we will soon be filing a plan for pre-application review with the Division of Planning and Design Services (DPDS) that will be assigned a case manager, and case number. We will provide the name of the case manager and the case number at the neighbor meeting. We would like to show and explain to neighbors this plan so that we might hear what thoughts, issues and perhaps even concerns you may have.

In that regard, a meeting will be held on **Thursday, November 3rd at 7:00 p.m. at Bethany United Church of Christ** located at **10400 Old Preston Highway**.

If you cannot attend the meeting but have questions or concerns, please call our attorney Bill Bardenwerper at 426-6688, or our land planning and engineering firm representatives David Mindel or Kathy Linares at 485-1508.

We look forward to seeing you.

Sincerely,

William B. Bardenwerper

cc: Hon. James Peden, Metro Councilman, District 23
Brian Davis, Planning Supervisor with Metro Division of Planning & Design Services
Rodney K. Wekkin, Real Estate Representative, with Menards, Inc.
David Mindel or Kathy Linares, engineer and land planners with Mindel, Scott & Assoc. Inc.
Suzanne Cheek, Horizon Real Estate

Neighborhood Meeting Summary Menard's/Preston

A neighborhood meeting was called to order at 7:00 PM on November 7, 2016 at the Bethany United Church of Christ which was chosen because it is located just off Preston Highway with ease of access to residents from the area who mostly attended this neighborhood meeting.

The meeting began with Bill Bardenwerper showing a PowerPoint presentation of the area and nearby development. He did this so that everyone present was fully familiar with exactly the properties being considered and impacted. He described also the proposed initial site plan for this site, its perimeter buffers and setbacks, the location of parking, the diminished parking from what is usually requested at a large development like this, the fact that there are out-lots proposed that do not yet include, as the Menard's building does, a detailed district development plan, and the proposal for points of access.

Major issues raised by neighbors included traffic and access. This was especially concerning among the residents who still reside within what seems like a very rural area along Maple Springs Drive. That is a dead-end street with a poorly designed connection to Preston Highway south of Cooper Chapel Road.

Mr. Bardenwerper explained that the primary points of access will be off of Cooper Chapel Road where there is a traffic signal at Preston Highway. Indeed, he said that residents who presently have a difficult time accessing Preston Highway from Maple Springs Drive neighborhood, especially those wishing to turn left across several lanes of northbound traffic to enter the southbound lanes will be able to access the signal at Cooper Chapel Road through this development. He said that that will provide for safer travel movements, particularly among those desiring to turn left (south) from the Maple Springs Drive onto Preston Highway. After all, there are lots of jobs located south off Preston Highway in Bullitt County as well as two large shopping centers on either side of Preston Highway where the Wal-Mart, the Kohl's and the Kroger stores are located. There is also a development that will be perhaps more easily accessed north of this development across Cooper Chapel Road where the Lowe's hardware store and theater complex are located. Menard's itself will provide a wide variety of offerings, not just like Lowe's, but greater in number and variety and at highly competitive pricing.

But that didn't seem to satisfy Maple Springs Drive residents who apparently like to have the exact access they have today onto and off of Preston Highway. Mr. Bardenwerper and Mr. Mindel from Mindel Scott & Associates also described this Maple Springs Drive access which they said will be widened and improved. They said that more meetings will be held with KTC (the state highway department), to determine exactly how to design that access point, some of which is located in state right-of-way, and how it will connect both to the portions of the site not presently under a detailed district development plan proposal and the portion of the site where Menards is located which does have a DDDP associated with it. They said that they figured that Maple Springs Drive will either have an easy sweeping left (north) movement from Preston Highway with existing Maple Springs Drive connecting to it at a new stop sign, or they will be creating a four-way stop just off Preston Highway. This will be determined by KTC in consultation with Metro

Public Works. They said that more information on this will be provided to residents once it is decided and designed.

Mr. Bardenwerper, Mr. Mindel and the applicant's corporate representative Rodney Wekkin further explained the ways around the Menard's store and site, how customers will access the store through the front of the building facing Preston Highway, make their purchases and return from where they came, or place their larger orders inside and then drive to the rear of the store where their order will be picked up. They explained how that area of the site will be accessed.

They also explained how the site was surrounded with significant buffers because the site is large enough to be able to accommodate those setbacks. The storage yard in the back will be thoroughly fenced in so that materials being loaded and unloaded or stored in the yard will be screened from view. Areas outside of the fenced-in area will be landscaped and screened to improve aesthetics and mitigate potential adverse impacts on neighbors.

Mr. Mindel also explained how stormwater is handled through on-site detention, assuring that post-development peak rates of runoff to will not exceed pre-development conditions.

The applicant's representatives also explained how a Traffic Impact Study (TIS) is being prepared and will be available for public review once filed. While they don't know the results at this TIS the impacts, if any, and any mitigation measures that may be required, they speculated to some, such as a northbound deceleration lane onto the Maple Springs Drive secondary access point to the site. They said that Cooper Chapel Road had recently been improved and that traffic impacts there were not anticipated to require further mitigation measures. But in the end, they explained, KTC and Metro Public Works and Transportation Planning make all the decisions on access and traffic mitigation.

Mr. Bardenwerper also explained how the DPDS "Case Management Review Process" works, how agencies such as those mentioned above, will review the submitted DDDP and how those agencies' preliminary stamps of approval are required prior to this application being docketed for public meetings and hearings. He said that those attending this meeting, and who have received notice thus far, will receive official notice of those meetings so that they can appear to comment on the application finally filed.

Mr. Bardenwerper also provided those present with information relative to contacts at DPDS and Metro Transportation Planning.

Respectfully submitted,
William B. Bardenwerper
