You are correct - per our discussion at our last meeting, we discussed adding rock as a border in your Brightsites. We would add the border similar to the border at the Fern Valley Brightsite and Outer Loop Brightsite.

This is aesthetically more pleasing and more practical.

Adding all rock instead of mulch is not recommended because:

1. Mulch ground cover helps with weed and crab grass control – a rock ground cover does not help
2. Weed barrier fabric is always necessary to install for weed control in an entire rock bed and will also add substantially to the cost
3. Mulch is more beneficial to the plant material because it breaks down and adds minerals and nutrients to the soil, which helps the plants thrive

Gina,

I certainly appreciate the great work of Brightside, especially in my district. I see only one discrepancy in the attached proposal in that I would rather have rock instead of mulch in my landscaping projects since it is easier to sustain.

Once we get that changed in the proposal, I will have Kevin do the paperwork for NDF funding.

Thanks,

Councilwoman Welch,

Brightside continues to build a clean and green community through our volunteer cleanups, tree planting program, education outreach and our Brightsite program. Neighborhoods that are clean and beautiful foster a sense of pride among residents.

Brightside continues to maintain the Brightsites throughout Louisville Metro. We accomplish maintaining the Brightsites annually through sponsorship.

We appreciate the opportunity to partner with you by maintaining the Brightsite in your district located at New Cut and I-265. Please find the attached FY17 proposal outlining the investment to maintain this Brightsite for \$3,000. We ask that you email your response to renew our partnership by Friday, August 5th. If you have any questions or ideas on how to improve your Brightsite, please let us know.

John is still working on the revised landscape plan for S. Park and Fairdale Road, we should be in touch soon with a game plan.

Again, thank you for your continued support to help keep our city clean, green and beautiful!

Warmest Regards,
Gina
