Instructions:

1. A petition with original signatures shall be submitted to Planning & Design Services at least 15 days prior to scheduled Public Hearing date.
2. To request a public hearing at 6:00 PM or later at a convenient location requires at least three hundred (300) signatures from property owners living within the affected Metro Council District and/or adjacent Metro Council Districts.
3. Each individual must sign his/her name. Entries such as "Mr. & Mrs. Jones" shall be counted as a single request for an evening hearing.
4. Planning & Design shall verify that at least three hundred (300) signatures are from the affected Metro Council District and/or adjacent Metro Council Districts.
5. Each sheet of the petition shall be checked by Planning & Design Services. Staff verifies that this is a request for a public hearing at 6:00 PM or later at a convenient location. If "**petition for a public hearing at 6:00 PM or later in a convenient location**" is not stated on each sheet, then the names on that sheet shall not be counted towards the request.
6. A letter of acknowledgement, regarding the receipt of the petition, shall be written by Planning & Design Services and given to the person who submits the petition. The letter does not verify the accuracy of the petition, but only serves as acknowledgement that the petition was filed with Planning & Design Services.

Planning Commission,

Attached is a Petition with over 300 signatures of property owners requesting an evening public hearing of the Planning Commission associated with a proposed Concrete Batch Plant at 13905 Aiken Road (22-DDP-0098).

We believe this request is consistent with the spirit of the Louisville Metro ordinance related to an evening public hearing by the Planning Commission. More specifically:

- The proposed request for a Concrete Batch Plant adjacent to our neighborhood appears to us to be significantly more important (and more devastating) than a normal rezoning request.
- The proposed Concrete Batch Plant is proposed for an existing residential buffer area associated with an M-3 quarry use that has been maintained for 40 years adjacent to our neighborhood. In addition to replacing a buffer area with an industrial plant, the proposed Concrete Batch Plant would add large concrete trucks to a significant portion of Aiken Road, which we consider to be a narrow, residential, tree-lined roadway with schools, a church, and no sidewalks.
- And a proposed Concrete Batch Plant requires an APCD air quality permit, noting that there are only five other industrial facilities in eastern Jefferson County (north of I-64) whose emissions require an air quality permit. Three of these five existing air quality permits are located nearby on or near Avoca Road, which appears to be a more appropriate industrial-type, non-residential roadway. One of the other five existing air quality permits is for the Ford Kentucky Truck Plant. None of the five existing air quality permits is located adjacent to a major residential area, or has large trucks using a residentially-oriented roadway.

Thanks for your consideration,

Kim Brice
