Printed Fence Screen

TOP SELLING FENCE PRIVACY WINDSCREEN

Perfect Combination of Privacy, Air Flow, and 11 Color choices to fit any Fence. Available in standard and custom sizes.

Our 200 Series Privacy Plus Screen is manufactured by FenceScreen, using UV and heat-treated knitted polyethylene (HDPE) material that is lead-free and phthalate-free. This high-grade outdoor rated material is a breathable fabric that allows for an excellent air passage. This is one of the best all-around privacy fence screens used for commercial and residential fence applications.

ORDER NOW (CONFIGURATOR/16/PRIVACYPLUS-FENCE-SCREEN-200-SERIES-88)

ANY CUSTOM SIZE

Customizing your fence screen to the exact size you need is no sweat. For custom heights not listed, please call 888.313.6313 for an estimate.

OUTSTANDING PRIVACY

Provides Excellent Visibility blockage due to the unique knit design, and yet allows excellent air passage through the fabric.

UV PROTECTED MATERIAL

Manufactured using knitted high density polyethylene (oil-based) material with UV additives, which will not mold or mildew.

INEXPENSIVE & POPULAR AMONGST THE INDUSTRY

The Perfect Solution for Adding Privacy and visualizes a clean look for any fence area

Made of High Quality HDPE material that's designed to provide 88% Visibility Blockage for Commercial and/or Residential fences. Providing a clean look & excellent way to help an uncovered fence with Outstanding Privacy.

200 Series Privacy Screen Plus is ideal for Commercial and Residential fences needing a combination of privacy, air flow and color options. Privacy Plus Screen is the most popular solution to provide the privacy you need as well as a clean look for any fence area, construction site, special event, back yard, dust control or fence barrier, and is a perfect complement to landscapes and residential backyards. Manufactured of Heavy-duty knitted construction coupled with high-grade UV and Heat treated HDPE makes for a long lasting and super durable fence screen. The 200 Series is available in 11 color choices making it easy to get the look you want. The screen provides 88% visibility blockage due to the unique knit design, yet allows for excellent air passage through the fabric. It's the perfect solution for fence privacy in hot, cold, windy and changing climates.

- Available in any size, custom sized to fit your fence

- Choice of 11 Colors to accompany any Projects
- Unique Knitted construction with great air flow passage
- Finishing Options: Half-moon vents, Wind Windows, & Reinforced Center Binding
- 2" Polypropylene Webbing for Edge Reinforcement
- Brass Grommets at every 24"

All FenceScreen materials are durable, well made, and completed with binding and grommets on all four edges, then packaged and shipped ready for installation. Privacy Plus Fence Screen is "*in stock*" ready for immediate shipment in 4', 5', 6' & 8' heights x 50' long standard sized panels. Our 200 Series screen can be custom sized to fit any fence.

FenceScreen.com offers easy to order, on-line purchasing allowing you to choose your color, height, length(s) and accessories. We also offer custom size options so you can choose your exact height and length to fit your exact fence. Each piece will be fabricated, marked and shipped ready to fit your exact fence measurements.

Note: All standard fence screens are cut 4" less than actual fence height to ensure a proper, clean, and wrinkle-free fit on the fence.

Example – A 6' tall fence = 5'-8" actual height of the Privacy screen panel.

Standard rolls are 50' long, so for example if you order 62'-10" you will receive a 50' roll and a second piece that is 12'-10".

* Panels longer than 50' or special heights are Special Order only, please call one of our customer service representatives to place special order 888-313-6313.
