At our neighborhood meeting, these concerns were brought up:

1. Vandalism
2. Crime
3. Loud parties
4. Wanted to know how AirBNB vets their guests.

To ease their minds, we explained our security camera system that monitors the exterior of the home. We also explained that AirBNB requires valid government identification and we require past host recommendations before we give a guest access to the home. In sticking to our procedures, we have been fortunate in the past, and we do not expect issues moving forward.
