GENERAL NOTES:

- Parking areas and drive lanes to be a hard and durable surface.
- An encroachment permit and bond will be required for all work done in the Metro right-of-way.
- No increase in drainage run off to state roadways.
- There shall be no commercial signs in the Right of Way.
- There shall be no landscaping in the Right of Way without an encroachment permit.
- Construction fencing shall be erected prior to any construction or grading activities preventing compaction of root systems of trees to be preserved. The fencing shall enclose the area beneath the dripline of the tree canopy and shall remain in place. No parking, material storage, or construction activities shall be permitted within the fenced area.
- Mitigation measures for dust control shall be in place during construction to prevent fugitive particulate emissions from reaching existing roads and neighboring properties.
- The area identified for future right-of-way for the relocation of Old Bardstown Road, as shown, shall be dedicated to public use by minor plat or deed at the applicant's expense within 60 days of request by the Director of Louisville Metro Public Works.
- A reciprocal access and crossover easement/agreement in a form acceptable to the Planning Commission shall be created between the adjoining property owners and recorded. A copy of the recorded instrument shall be submitted to the Division of Planning and Design Services; transmittal of approved plans to the office responsible for permit issuance will occur only after receipt of said instrument. The Applicant further agrees to construct the easement/agreement area(s).
- Compatible utilities shall be placed in a common trench unless otherwise required by appropriate agencies.
- Site lighting should not shine in the eyes of drivers. If it does, it should be re-aimed, shielded or turned off.
- There are no KARST features on the subject site per a September 25, 2014 site visit by Ann Richard RLA.

MSD NOTES:

- Sanitary sewer service will be provided by lateral extension and will be treated at the Cedar Creek Wastewater Treatment Plant.
- No portion of the site is within the 100 year flood plain per FIRM Map No. 21111 C 0097 E dated December 5, 2006.
- Drainage pattern depicted by arrows (→) is for conceptual purposes. Final configuration and size of drainage pipes and channels shall be determined during the construction plan design process. Drainage facilities shall conform to MSD requirements.
- If the site has thru drainage an easement plat will be required prior to MSD granting construction plan approval.
- A Downstream Facilities Capacity Request was approved by MSD on July 7, 2014.
- Erosion & Silt Control shown is conceptual only, and final design will be determined on construction plans. Prior to any construction activities on the site a Erosion & Silt Control Plan shall be provided to MSD for approval.
- An MSD drainage bond will be required.
