

STATEMENT TO LOUISVILLE METRO COUNCIL MEETING

May 12, 2016

by Daniel Cobble, Citizen – Page 1 of 2 –

RE: The Marginal Personality, Root Cause of Heroin Epidemic

Metro Council Members,

KET's Bill Goodman is attending the conference in Atlanta on the heroin epidemic. But this conference will not accomplish much, because young middle class addicts are amongst other "marginal personalities" living amidst us, and that you see on the 6'oclock news everyday.

Marginal personalities are stressed-out souls, weak in character, low confidence, depressed, frustrated, and usually dealing with acute personal problems. Per the one's profile, the marginal personality is prone to violence, including murder, drug use, and suicide. Per the 6 o'clock news, we are experiencing a rise in their erratic behaviors, including heroin use.

The marginal personality needs daily exposure to moral behavior. Otherwise, they are subject to making bad decisions. I.e., they need guidance from "moral authority." But we are not giving it to them. We accept the politician who publicly calls another person Lucifer, and Trump's false claims of a man's father conspiring to kill President Kennedy. No outrage from whites when cops gun down unarmed black men; or when Judge Olu Stevens is trying to protect rights in the courtroom. No outcry of Commonwealth Attorney Thomas Wine's systemic denial of due process. No demand that Rick Petino resign amidst the team's prostitution scandal, while the current UofL team was made to forfeit. – Attached, see Page 1 of the May 4, 2016 Complaint filed with Attorney General Andy Beshear requesting impeachment of Chief Justice John Minton of the Kentucky Supreme Court. Justice Minton accepted forged pleadings in the name of Ms. Connie Marshall, and then Minton dismissed Marshall's case based on those fraudulent papers. His clerks took Ms. Marshall's filing fee and then laughed

in her face. – Microsoft announced its recent lawsuit against the U.S. Dept of Justice for forced surveillance of people's emails without probable cause, blatant 4th Amendment violations. We should be demanding U.S. Attorney General Loretta Lynch resign from office.

There's no public outrage over the U.S. military & UofL trying to steal my Wellness System for Service-members and Veterans. . .

And on it goes.

So you see, the Atlanta drug conference won't accomplish much.

Thank you!

BACKGROUND

Dear AG Beshear,

- A. Pursuant to the AG's campaign-promise of "protecting the rights of all Kentuckians," Complainants Daniel Cobble & Connie Marshall prays the AG will "rightly" process the herein *Complaint* for their families, and for setting the example for diminishing corruption in Kentucky.
- B. Since 2011, Complainants have given the public many examples of abuse within the Kentucky "Court of Justice." Abundant evidence shows the judges throughout Kentucky are operating an **unconstitutional, "silent policy"** of denying tax-paying citizens access to civil courts. When Citizen-plaintiffs are injured by gov't agencies / officials & corporate officers, these cases are summarily dismissed by Kentucky judges, in violation of the plaintiffs' **1st, 7th, & 14th Amendments** rights, as well as the illegal taking of their filing fees without intent to process these cases.
- C. **Amendment 7, for example, guarantees Plaintiff's right to civil jury trial**, and for all trials **to be heard under "common law..."** I.e., the courts must uphold plaintiffs' **unanswered Complaints and Affidavits.**

Recommendations for Community Workshop Program to Reverse **PATHOLOGY OF NO-HOPE** by West End Youngsters

According to a 2014 study by the Anne E. Casey Foundation, African American children in Kentucky suffer from the **absence of:** 1) **justice** & 2) **economic opportunity** to create the conditions of no-hope within their fragile mental pathologies.

Wherefore, the West End should consider forming the following **ongoing workshops & committees**, as a comprehensive program, for adults “getting out in front” fighting for their children:

1. Monthly workshop on legal and constitutional rights: So adults can learn when their children are violated by authorities. Then, “What to do next.”

2. Monthly workshop on parental support: Basic support mechanisms & tasks for parents to become liaisons between their children and authorities (LMPD, JCPS, Seven Counties, Dept of Juvenile Justice, Etc).

3. Policy committee on JCPS: For developing recommendations (& publicizing) on how JCPS can better serve West End children; **such as:**

- 1) extending school lunch periods (reasonably to 30 min.),
- 2) reversing policy on child suspensions,
- 3) allowing child to attend school close to home,
- 4) stop drugging Our children unless absolutely necessary.

4. Policy committee on dispersing tax dollars: For submitting (& publicizing) recommendations on projects development in the West End, based proportionally on the taxes **paid by citizens west of the 9th Street corridor.**

5. Bi-monthly Youth Workshop for Careers Opportunities: Experts from West End, Louisville at-large, & state displays availability of the many trades and professions throughout the U.S. Workshop is especially needed to expand consciousness of parents for planning their children’s education.
