July 2020

Opticos Design

Missing Middle Housing

MISSING MIDDLE

Certified

Responding to the Demand for Walkable Urban Living

Powered by Opticos Design, Inc.

Summary of Top Issues (Cont'd.)

5. Code Makes it Too Easy to Opt Out of the Standards

★ 6. Parking is a Barrier to Development in Traditional Areas

★ 7. Too Much Land Zoned Single-Family in County

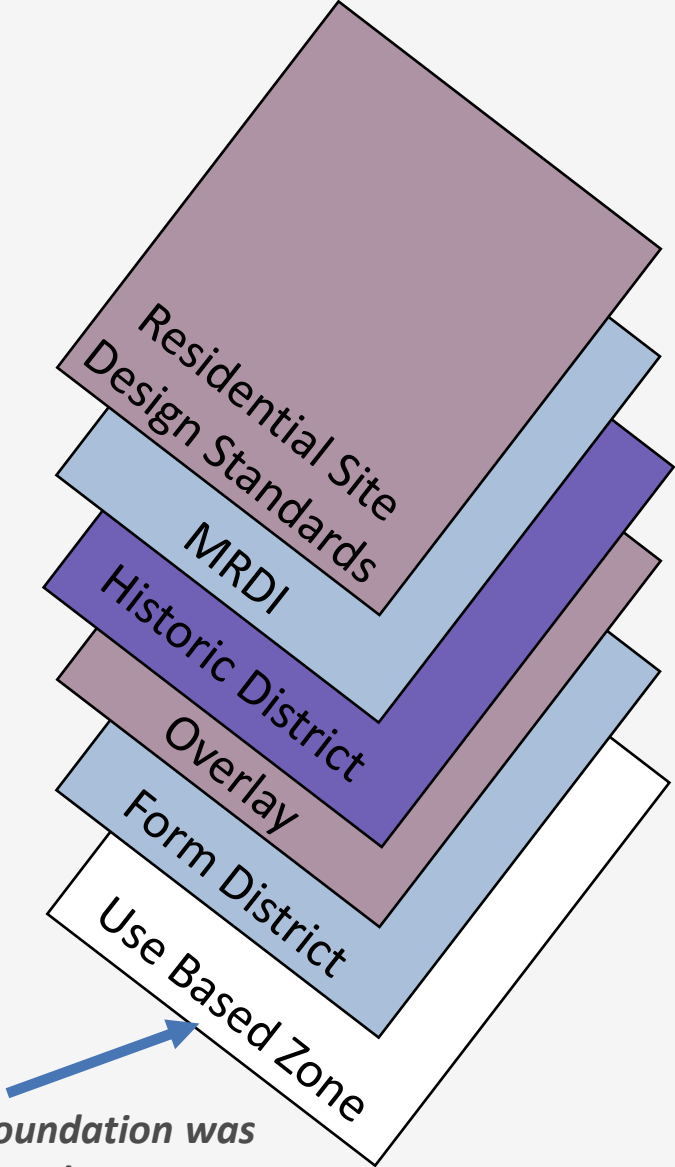

8. Comp. Plan Doesn't Identify Where Diverse Housing Should be Prioritized

Complex Layers of Regulation

- 1. Use-Based Zoning Districts
- 2. Form Districts
- 3. TNZD Components
- 4. Overlay Districts
- 5. Historic Districts
- 6. MRDI: Mixed Residential Development Incentives
- 7. ADI: Alternative Development Incentives
- 8. Planned Residential Development District
- 9. Building Design Standards
- 10. Residential Site Design Standards

We found anywhere from **4 to 5 layers** applying to **one property.**

Ineffective foundation was never addressed

Standards Limit Delivery of Housing Choices

Current code does not permit full range of types

Densities too low

Lot sizes too high

Parking minimums too high

Recommendation:
\$\$ / High Priority

Embed full range of types into new single-tier zones.

Full Range of Missing Middle Housing Types and Necessary Densities

Duplex: Stacked
8-17 du/ac Front-Loaded
8-19 du/ac Rear-Loaded

Duplex: Side-by-Side
8-16 du/ac Front-Loaded
8-22 du/ac Rear-Loaded

Cottage Court
N/A du/ac Front-Loaded
19-35 du/ac Rear-Loaded

Multiplex Small
23-58 du/ac Front-Loaded
26-70 du/ac Rear-Loaded

Multiplex Large
44-55 du/ac Front-Loaded
52-70 du/ac Rear-Loaded

Courtyard Building
54-60 du/ac Front-Loaded
58-70 du/ac Rear-Loaded

Townhouse
N/A du/ac Front-Loaded
20-28 du/ac Rear-Loaded

Live/Work
N/A du/ac Front-Loaded
20-28 du/ac Rear-Loaded

Shift from Density Focus to Form and Scale

This Quaint, 2-Story Courtyard Apartment is 90 dwelling units per acre!

Continue to Consider Parking Reductions: Do It by Context

Parking is often
biggest barrier for
housing.

 Recommendations:
\$ / High Priority

Remove all parking requirements
for areas
within traditional
contexts

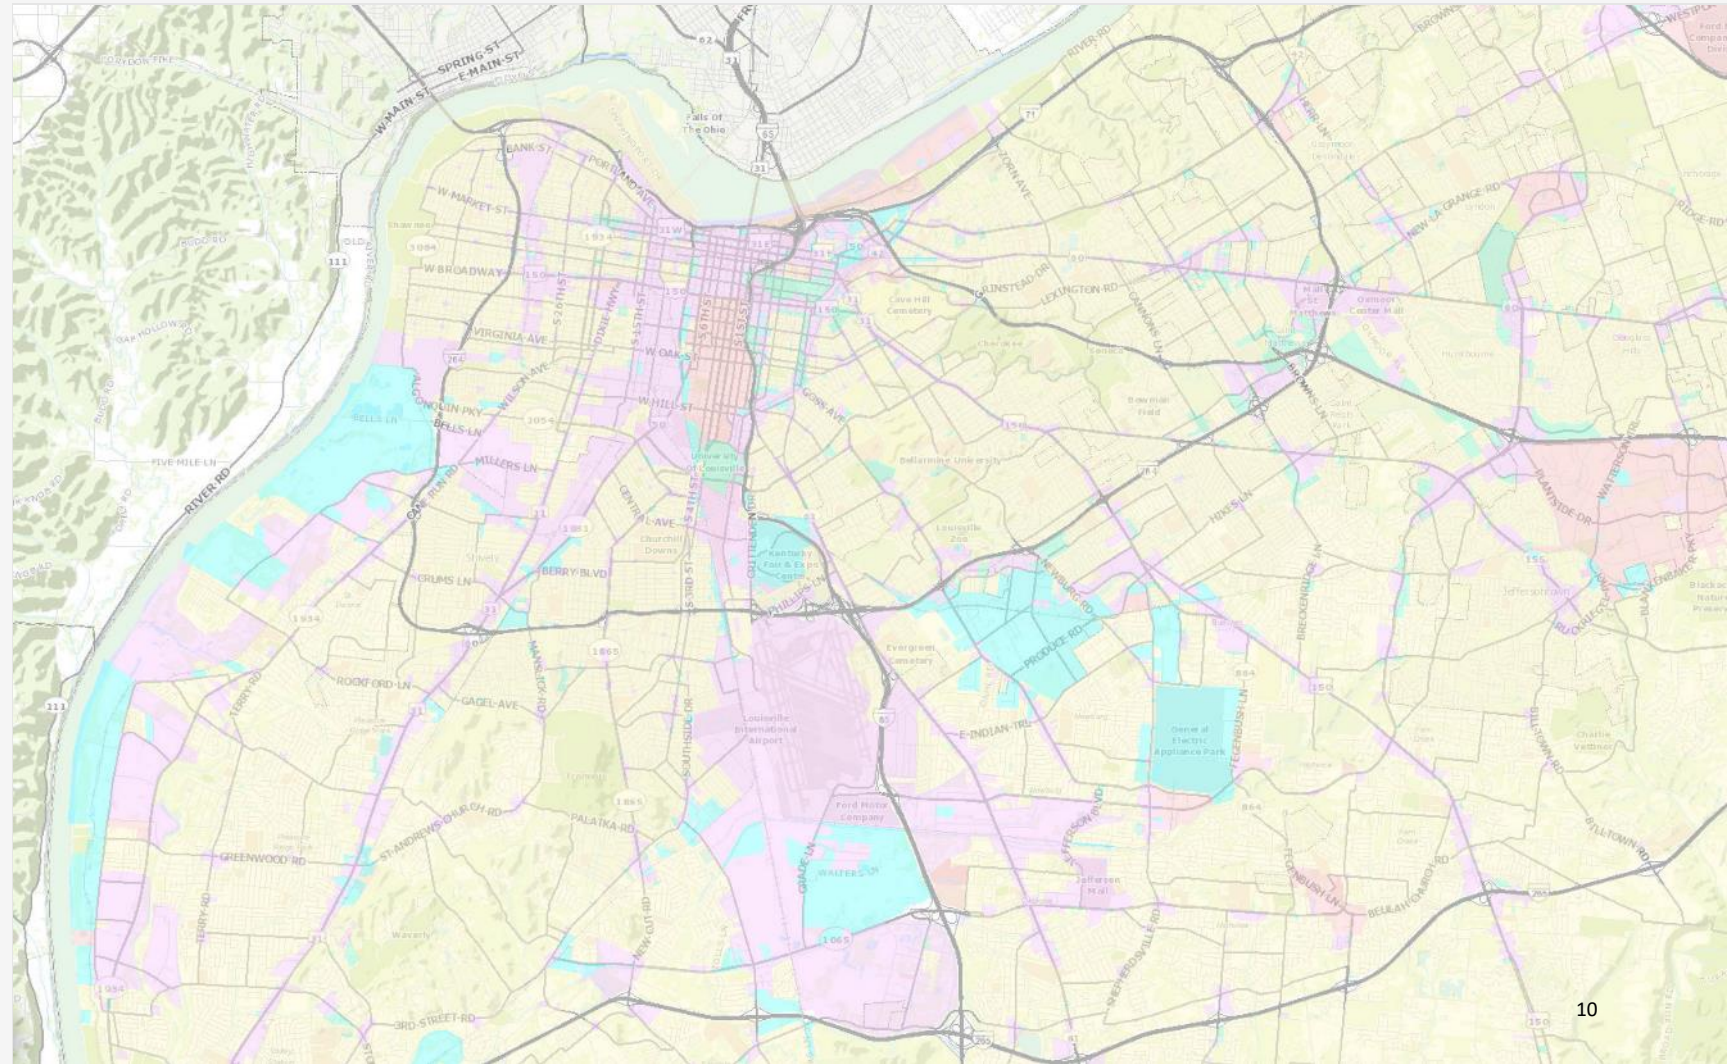

Max 1 per unit for
suburban contexts

Too Much Land Zoned for Single-Family Only

75% of Jefferson County restricted to single-family residential.

Due to shifting demand and rising costs, this will not meet market needs for attainability or desired choices.

Summary of Residential Zone Standards

R-5A through R-8A allow multifamily, but these zones apply to **only about 6%** of Jefferson County.

Densities in zones that allow MF are generally too low, except for R-8A which only applies to 0.02% of land.

Zone	Use	Max FAR	Max Density	% of County Mapped
R-4	SF	0.5 (1.5 ADI; additional for CS)	4.84 (6.05 MRDI)	53.50
R-5	SF	0.5 (1.5 ADI; additional for CS)	7.26 (9.07 MRDI)	10.51
UN	SF	0.75 (3.0 with PD option)	1 per lot (58.08 with PD option)	0.08
R-5A	MF	.5	12.01	1.32
R-5B	Duplex	.5	2 per lot	0.08
R-6	MF	.75	17.42	3.12
R-7	MF	1	34.8	1.53
R-8A	MF	3	58.08	0.02

 Red indicates potential barriers to production of Missing Middle Housing and affordability.

Specific Recommendations for Zone Standards: ADUs

 **Recommendation:**
 \$\$ / High Priority

Allow Accessory Dwelling Units (ADU) in all residential zones. Implement form-based standards that allow ADUs by-right.

A Carriage House utilizes a large dormer to create a unit, over the garage.

Carriage House with unit accessed off a side street.

Carriage House with unit accessed off a back yard

1. Description

An accessory structure located at the rear of a design site, above the garage that provides a small residential unit (accessory apartment), home office space, or other small commercial or service use, as allowed by the transect zone.

2. Number of Units

Units per building	1 max.
Carriage Houses per Design Site	1 max.

House-Scale Building
 Not allowed on the design site of a Cottage Court.

T3NE	T3NG	T4NS	T4NM	T4MS
------	------	------	------	------

General Note: Photos on this page are illustrative, not regulatory.

Key	T# Allowed	T# Not Allowed
-----	------------	----------------

Key
 --- ROW / Design Site Line
 --- Setback Line
 ■ Accessory Structure
 ■ Building Type

3. Building Size and Massing

Height ¹	T3NE	T3NG	T4NS	T4NM	T4MS
Max. Number of Stories	2	2	2	2	2
Main Body					
Width	32' max.				A
Depth	24' max.				B
Separation from Primary Building	10' min. ²				C

Carriage House shall not be taller or have a larger footprint than the primary building on the design site.

Carriage House must be in compliance with Sub-Section 14-4C-2A (Accessory Apartments) regarding ownership of the unit.

¹Includes garage story

²Carriage House may be connected to primary building by an uninhabitable space including, but not limited to a breezeway.

4. Allowed Frontage Types

Frontage type not required

5. Pedestrian Access

Main Entrance Location at Side Street, alley or internal to design site. **D**

The main entrance shall not be through a garage.

6. Vehicle Access and Parking

Driveway and parking location shall comply with standards in Item 7 (Parking) of the transect zone. **E**

Alley access is required if alley exists.

7. Open Space

Private Open Space

Not required.

An example of form-based standards for Accessory Dwelling Units that enable a by-right process.

Pocket Neighborhoods Should be Allowed by Right

No buffers needed for 1-2 story house-scale buildings, even if density is higher than adjacent development!

Would Not Meet Lot Size, Parking, or Buffer Requirements

Option A: Homes on the Green

Number of Units	7
Lot Size	1.9 acres
Number of Unit Types	1
Overall Density	3.7 du/acre

Option B: Cottage Court

Number of Units	15
Lot Size	1.9 acres
Number of Unit Types	3
Overall Density	7.9 du/acre

Option C: Proposed Cottage Court

Number of Units	18
Lot Size	1.9 acres
Number of Unit Types	3
Overall Density	9.5 du/acre

Thank You!
