Special Legislation

Council President James requested that the Council invoke Rule 7.01(a) to deem item 32 as an emergency and allow for it to be passed at the same meeting at which it is introduced.

A motion was made by Council Member Piagentini, seconded by Council Member Fowler, that Council Rule 7.01(a) be invoked. The motion carried by a voice vote.

[R-057-20 V.1 042320 - Allow Chiropractic Services to Resume.pdf](#)

A motion was made by Council Member Peden, seconded by Council Member Piagentini, that this Resolution be approved.

Council Member Peden spoke about chiropractic service being considered 'elective' care rather than 'emergency' care and, therefore, has been shut down during the COVID-19 pandemic. He spoke about having back pain and the need for urgent care in such situations, and how a chiropractor can help alleviate such intense pain without pain medicine.

Council Member Peden made a motion, seconded by Council Member Piagentini, that this Resolution be amended to add the following:

"WHEREAS, the Chiropractic Associations of Kentucky have submitted their re-start procedures as dictated by the CDC to the Governor's Office;"

Council Member Sexton Smith asked if all of the Chiropractic Associations in Kentucky were working together to provide one document to the Governor, and Council Member Peden responded in the affirmative.

The motion to amend carried by a voice vote.

Council Member Piagentini stated that chiropractors prevent more serious complications that may need to be addressed in an emergency room, and that they provide an alternative therapy to the use of opioids.

Council Member Yates stated that physical therapy and other providers of alternative care should be included with chiropractors, as they too provide more conservative treatment.

A motion was made by Council Member Yates, seconded by Council Member Fowler, that this Resolution be amended to include "other forms of conservative treatment" in the Whereas clauses.

Council Member Kramer spoke in support of the amendment.

The motion to amend carried by a voice vote.

The following spoke to the amended Resolution:

- Council Member Fowler spoke in support of the amended Resolution.
- Council Member Reed spoke in support of the amended Resolution. He also asked whether physical therapists were included in the businesses being allowed to re-open on Monday.
- Council Member Coan asked whether chiropractors were included in the businesses that were being allowed to re-open on Monday as part of the phased-in restart to the economy; and also stated that he did not want to get in the habit of recommending to the Governor when businesses should be allowed to re-open.
- Council Member Sexton Smith stated that she had received confirmation from Representative Rocky Adkins confirming that chiropractors were among those businesses being allowed to re-open on Monday. She also stated that she could make an argument to have several other types of businesses be re-opened but would not because she believed they should support the course being provided by leadership, and she would not be supporting this Resolution.
- Council Member Yates spoke in support of the amended Resolution, though Resolutions have often been known to get little response in the past. He later stated that he felt the Resolution was moot and would not be supporting it.
- Council Member Blackwell agreed with Council Member Sexton Smith's concern about suggesting to the Governor what should be re-opened, and how the Council could find themselves proposing a Resolution regarding such each meeting or even daily, and for that reason would not be supporting the amended Resolution.
- Council Member Winkler stated that choosing one type of pain management provider over another was problematic for him.

Council Member Peden concluded by stating that he understood that some may feel that the Resolution is moot, but rather than pulling his sponsorship he would be willing to send it to a committee so that they can see what happens on Monday.

A motion was made by Council Member Peden, seconded by Council Member Yates, that this Resolution be referred to the Community Affairs, Health and Education Committee. The motion carried by a voice vote.

[Tree Removal Permit Example.pdf](#)

A motion was made by Council Member Piagentini, seconded by Council Member Fox, that this Ordinance be approved.

Council Member Flood provided background on this Ordinance, which started with a Resolution requesting the Planning Commission to review the Land Development Code and make suggestions regarding the tree canopy and the preservation of trees, and included a series of public meetings. The suggested amendments to the Land Development Code were provided in the form of an Ordinance to the Planning and Zoning Committee last summer and it has been discussed and amended as presented here.

Council Member Hollander briefly reviewed some of the changes (listed below) being made to the Land Development Code to continue to address the shrinking tree canopy and heat island effect associated with it:

- the fee-in-lieu provision is to be used as a last resort and those dollars will stay in the Council district;
- increased the tree canopy requirement for industrial areas to 30 percent;
- allowed trees planted on private lots in major subdivisions to be counted toward the tree canopy;
- changed spacing for street trees to address concerns about driveways; and
- new requirement that will not allow clear cutting on some pieces of land and would require the preservation of some trees, and changed a related

provision that discourages tree clearing prior to development.

Council Member Winkler spoke about his concern regarding the look-back provision and how the solution provided in this Ordinance creates the potential for a moral hazard that could only be prevented by requiring a permit to remove any trees, and that is not a solution anyone is interested in pursuing. He stated that no one got everything they wanted but that it was a good balance between addressing the tree canopy and heat island effect and promoting development across Jefferson County.

Council Member Peden also spoke about his concern regarding the loop hole in the look-back provision, and how a realtor may suggest a property owner clear all of the trees to raise the value of the land and how it may be easier to sell. He stated that he may consider proposing an amendment that requires the name of the person who paid to have the land clear cut be provided because he doubts that the land owner will want to take on that expense up front.

Council Member Coan stated that he advocated for stronger provisions that did not make the cut, but he was fine with it because he thought it was a good process that he was proud to be a part of, and a good piece of legislation. He requested to be a co-sponsor as well. He also spoke about the look-back provision and the balance between conservation and development. He also stated his concern about over-regulating private property rights.

Council Member Piagentini stated that he appreciated the process used to create this legislation, as it was not rushed, took into consideration a variety of thoughts, and had various sources of input.

Council Member Purvis spoke about her concern regarding private property rights. She stated that a few of her constituents are concerned about not being able to refuse to have trees planted on or near their property, and when the trees become problematic they cannot afford to maintain them and the trees may cause damage to their property.

Council President James requested to be added as a co-sponsor.

The motion to approve carried by the following vote and the Ordinance passed:

- Yes:** 25 - Green, Shanklin, Dorsey, Sexton Smith, James, McCraney, Coan, Hollander, Mulvihill, Kramer, Blackwell, Fox, Fowler, Triplett, Reed, Winkler, Parker, Piagentini, Benson, George, Engel, Peden, Flood, Yates and Ackerson
