

Land Development and Transportation Committee Staff Report January 26, 2023

Case No:	22-RSUB-0009
Project Name:	Chism Trail
Location:	10300 Reeseman Drive; 10111 Brentlinger Lane
Owner(s):	Superior Builders Inc.
Applicant:	Superior Builders Inc.
Jurisdiction:	Louisville Metro
Council District:	19- Anthony Piagentini
Case Manager:	Julia Williams, AICP, Planning Manager

REQUEST(S)

- Revised Preliminary Subdivision plan

CASE SUMMARY/BACKGROUND

The proposal is for 21 single family lots within the existing Chism Trail subdivision. This is the last section of the subdivision to be completed. The revised subdivision completes the connection of Reeseman Drive.

STAFF FINDING

Staff finds that the proposal meets the requirements of the Land Development Code.

TECHNICAL REVIEW

Transportation Planning and MSD have preliminarily approved the proposal.

INTERESTED PARTY COMMENTS

Please see attached citizen letter.

REQUIRED ACTIONS:

- **APPROVE** or **DENY** the **Revised Preliminary Subdivision Plan**

ATTACHMENTS

1. Zoning Map
2. Aerial Photograph
3. Existing Conditions of Approval

1. Zoning Map

2. Aerial Photograph

3. Existing Conditions of Approval

1. The development shall be in accordance with the approved Residential Development Preliminary Plan. No further subdivision of the land into a greater number of lots than originally approved will occur without approval of the Planning Commission.
2. The applicant shall submit a plan for approval by Planning Commission staff showing trees/tree masses to be preserved prior to beginning any construction procedure (i.e. clearing, grading, demolition). Adjustments to the tree preservation plan which are requested by the applicant may be approved by Planning Commission staff if the revisions are in keeping with the intent of the approved tree preservation plan. The plan shall exhibit the following information:
 - a. Proposed site plan (showing buildings, edges of pavement, property/lot lines, easements, existing topography, and other significant site features (LOJIC topographic information is acceptable).
 - b. Preliminary drainage considerations (retention/detention, ditches/large swales, etc.).
 - c. Location of all existing trees/tree masses existing on the site as shown by aerial photo or LOJIC maps.
 - d. Location of construction fencing for each tree/tree mass designated to be preserved.
3. An original stamped copy of the approved Tree Preservation Plan shall be present on site during all clearing, grading, and construction activity and shall be made available to any DPDS inspector or enforcement officer upon request.
4. A note shall be placed on the preliminary plan, construction plan and the record plat that states, "Construction fencing shall be erected prior to any grading or construction activities - preventing compaction of root systems of trees to be preserved. The fencing shall enclose the area beneath the dripline of the tree canopy and shall remain in place until all construction is completed. No parking, material storage, or construction activities shall be permitted within the fenced area."
5. All street signs shall be installed by the Developer, and shall conform with the Manual on Uniform Traffic Control Devices (MUTCD) requirements. Street signs shall be installed prior to the recording of the subdivision record plat or occupancy of the first residence on the street, and shall be in place at the time of any required bond release. The address number shall be displayed on a structure prior to requesting a certificate of occupancy for that structure.
6. The applicant shall install signs, approved by the Metro Public Works Dept., which indicate the future extension of the public right of way for Reeseman Drive. Such signs shall be installed prior to release of bonds for the installation of the street infrastructure.
7. Open space lots shall not be further subdivided or developed for any other use and shall remain as open space in perpetuity. A note to this effect shall be placed on the record plat.
8. The developer shall be responsible for maintenance of all drainage facilities and undeveloped lots ensuring prevention of mosquito breeding, until such time as the drainage bond is released.
9. After release of the drainage bond, mosquito abatement on open space lots shall be the responsibility of the Homeowners Association. Accumulations of water in which mosquito larvae breed or have the potential to breed are required to be treated with a mosquito larvacide approved by the Louisville Metro Health Department. Larvacides shall be administered in accordance with the product's labeling. This language shall appear in the deed of restrictions for the subdivision.

10. Trees will be preserved and/or provided on site and maintained thereafter as required by Chapter 10, Part 1 of the Land Development Code and as indicated in the Tree Canopy Calculations on the Preliminary Subdivision Plan. The applicant shall submit a landscape plan for approval by Planning Commission staff for any trees to be planted to meet the Tree Canopy requirements of Chapter 10, Part 1 of the Land Development Code. A tree preservation plan shall be submitted for review and approval for any trees to be preserved to meet the Tree Canopy requirements of Chapter 10.
11. Tree Canopy Protection Areas (TCPAs) identified on this plan represent individual trees and/or portions of the site designated to meet the Tree Canopy requirements of Chapter 10 Part 1 of the Land Development Code and are to be permanently protected. All clearing, grading and fill activity in these areas must be in keeping with restrictions established at the time of plan approval. As trees within TCPAs are lost through natural causes, new trees shall be planted in order to maintain minimum tree canopy as specified on the approved development or preliminary subdivision plan.
12. Prior to the recording of the record plat, copies of the recorded documents listed below shall be filed with the Planning Commission.
 - a. Articles of Incorporation in a form approved by Counsel for the Planning Commission and the Certificate of Incorporation of the Homeowners Association.
 - b. A deed of restriction in a form approved by counsel of the Commission outlining responsibilities for the maintenance of open space.
 - c. Bylaws of the Homeowners' Association in a form approved by Counsel for the Planning Commission.
12. At the time the developer turns control of the homeowners association over to the homeowners, the developer shall provide sufficient funds to ensure there is no less than \$3,000 cash in the homeowners association account. The subdivision performance bond may be required by the planning Commission to fulfill this funding requirement.
13. The signature entrance shall be submitted to the Planning Commission staff for review and approval prior to recording the record plat.
14. If sinkholes are found on the property or if ponds are to be filled on the site, a geotechnical report shall be conducted for the site and the results shall be submitted to Public Works and MSD for review prior to construction plan approval and the recommendations of the report shall be carried out during construction on the site.
15. A geotechnical report shall be conducted for the site and the results shall be submitted to Public Works and MSD for review prior to construction plan approval. Construction methods and precautions recommended in the report shall be applied to construction within the development.
16. A deed of consolidation or minor plat creating the proposed subdivision boundary will need to be recorded prior to recording of the record plat.
17. The number of lots recorded shall not exceed 5 until the Brentlinger Lane improvements are completed. The exact System Development Charge requirements shall be worked out with Public Works prior to construction plan approval.
18. The applicant will be responsible for constructing the connection to the existing Reeseman Drive stub if/when the right-of-way is extended to the property line by Glenmary East LLC.
19. The Chism Trail Homeowners Association will work with the Glenmary East Homeowners Association to determine which households are affected by the drainage basin sharing and determine who will share in the cost of improving and maintaining the detention basin.
