Yes, I'll ask about how the waste water is handled.

Thanks Teena. MSD would review all of the water/drainage issues with a detailed plan.

Thanks!

There is already a car wash with exit onto the road St. Michael's Church uses. Also, Floyds Fork Creek Watershed is in the area. I believe car washes reuse the water but I am not sure where the discarded water goes. I don't believe it is hauled off to a sewer treatment plant - maybe goes to Hollenbach and Oakley sewer line. MSD would know.

Teena,

I just wanted to let you know that I realize I gave you some incorrect information by mistake. The determination to reduce intensity of uses in the Tyler Town Center PD would be considered a minor amendment per LDC 2.8.5.A.4 and therefore final action will be with the Planning Commission on this case. I mistakenly told you last week that it would require Metro Council action in response to your email seeking information about the case.

Let me know if you have any further questions or comments.

Thank you, as always, for your informative and prompt response. There is a petition online on [Change.org](#) to stop the development of the car wash. I tried to draw attention to the issue without success last year. I have shared the documents with neighbors and hope that this will raise awareness as to the need to participate in and be aware of zoning issues. Is there a way to listen in on or participate in the meeting next week?

Thank you,
Cathy Alger

On Fri, Apr 30, 2021 at 10:48 AM Lockett, Jay P <Jay.Lockett@louisvilleky.gov> wrote:

Cathy,

With respect to the interpretation that was made under 20-INTERP-0001, the Development Review Committee (hearing minutes attached) decided last year that Car Wash was a permitted use under the “Limited Use 2 (LU2)” which is defined in the Tyler Town Center Planned Development District as:

Limited use Category 2 (LU2) - contains those uses directly related to the automobile (such as automobile service stations and gas stations). Automobile and truck sales and rental facilities prohibited. This limited use category is only permitted on lots adjacent to Taylorsville Road.

Subsequent to that decision by the Development Review Committee last year, Metro Council passed a resolution asking for the PD Plan to be modified to remove the LU2 category as an allowed use in “Southwest Commercial Area IIc,” which includes the lots south of Taylorsville Rd on either side of Grenden Fields Dr. (Metro Council Ordinance Attached for reference)

That request is being heard by the Planning Commission next week under docket 21-DDP-0046, Thursday 5-6. If the language is adopted as proposed, then car wash would no longer

an allowed use on those lots, but other areas of the PD could potentially still have them if LU2 was an allowed use category. (staff report attached)

Also, there is a proposal that has been submitted by an applicant to build a car wash and oil change business at the SW corner of Grenden Fields and Taylorsville under docket 21-DDP-0031. (Development plan proposal attached-staff is waiting on revisions to address initial review comments)

If you have any further questions, or if you want to submit comments on either the proposed change to the PD zoning rules, or the proposed carwash development you can email me anytime.

Regards,

Jay Lockett, AICP

Hi Jay,

We corresponded in January of 2020 about the proposed car wash near Stone Lakes Subdivision in Jeffersontown, Kentucky. I conveyed all the information to the HOA and to the neighborhood, but got little traction to oppose this development or participation in the government meeting. I remember hearing "this ship sailed long ago" with regard to development of this property. I remember you wisely saying that instead of a car wash, it could be instead (worse) a business such as a liquor store, convenience store, or 24 hour drive through fast food.

I am writing to ask if there is any more information or if the zoning officials have indeed decided that car washes are within the zoning allowances.

A BOD of the HOA has started a petition to raise objection to the car wash, which is reasonable, but I would like to know that we don't instead get a bar or liquor store.

Can you bring me up to date on what has been decided or who I can contact about this?

Thank you,

Cathy Alger

Catherine,

Per our conversation, I want to relay some details about the request for the site located at the SW corner of the intersection of Grenden Fields Dr and Taylorsville Rd. The site is located within the Tyler Town Center Planned Development District ([Full PDD Pattern Book](#) here, you can click on items in the table of contents to jump to them). Specifically, per the PD land use map in Chapter 3 of the pattern book, the subject site is located within the “Southwest Commercial Area” subarea. The land use table on that same page lists the use categories allowed on that site, and the following page lists the descriptions of those use categories. Specific listed uses for each category can be found in the appendix.

The specific request for this case is for a determination of whether a Car Wash would be an allowed use within “Limited Use Category 2,” which is a category of uses allowed on the subject site. Per the pattern book: ***Limited use Category 2 (LU2) - contains those uses directly related to the automobile (such as automobile service stations and gas stations). Automobile and truck sales and rental facilities prohibited. This limited use category is only permitted on lots adjacent to Taylorsville Road.*** Since Car Wash is never mentioned as a use either specifically permitted or not, the applicant has requested that an official determination be made by the Development Review Committee. The administrative procedures for this review and determination are laid out in Chapter 5 of the pattern book.

The Development Review Committee hearing will be open to the public, and anyone may attend and sign up to speak for or against the proposal, or as a neutral party. The commissioners may consider any testimony they receive in their decision. Anyone who is unable to attend the hearing can send written comments to me via email, and those comments will be incorporated into the record and presented to the commissioners along with staff analysis of the proposal. The meeting is tentatively scheduled for 2-5, formal written notice will be mailed at least 10 days prior to the hearing.

Please feel free to contact me with any further questions or concerns regarding this proposal, or general questions.

I can only hope that owners of the proposed car wash in front of Grenden Fields will be considerate of the adjoining neighborhoods! We value our quiet area and the beauty of our area. Progress has a way of happening. My hope would be a quiet and clean business w privacy of our property protected. Hopefully you will consider that. Please advise me what you might do to ensure these things for us. Thank you. Marchelle Joseph, Grendan Fields

It's come apparent that our officials could care less about us!!!! wonder what they would do if a 24/7 car wash came in their neighborhood??? They would fight tooth and nail to stop it!! It ridiculous to let a 24/7 car wash come in our neighborhood, extra traffic, bad people that sell drugs sell at these car washes a lot, NOISE of the wash and the vacuums blaring all times of night!!! It shows how little we matter to Louisville!!!! There are many places they could put a car wash besides here!!! Across Taylorsville rd Kroger already has one, what do we need another???? I would love to know the answer to that???? Wonder how many palms were butter to get this approved??? Several I say!! You can't imagine how upset I am with this, I'm right by where it will be!!!thanks for reading my comments!!!! Please rethink this for all the residents of Grenden Fields!!

Very upset resident

Yep it's me again, just wondering how much money you received for letting this car wash come in a residential neighborhood with the noise and lights all times of night?? Our so calle city leaders could care less about us plain regular folks!!! I wonder if a 24/7 car wash came in their neighborhood so all could see hear and be scared about drug deals happening all hours of the night?? I bet they would fight it tooth and nail not to let it come and disturb everyone!! It wouldn't be so bad if it wasn't in our subdivision but it has homes all around it!! This is a senior community not some young place we go to bed early and don't want to hear vacuums all hours of the night!!!! I know you could care less about us since it is not in your neighborhood but we do!!!! This is the most pitiful business that could ever go there!!! But for those that had their hands buttered up don't have a care at all!!!! I'll keep sending email so at least it helps I'm trying to keep my subdivision quiet like it is now!!! It doesn't show it's in a neighborhood where all the traffic and noise will disrupt our everyday living!!! I know they could care less about us, that shows big time!!! Buttered palms always vote yes no matter what's at stake!!! I realize you and Stuart tried to help but some don't care about us at all!!! If it wasn't by our homes there would be no problem at all but 24/7 traffic and terrible vacuum noise is going to be really bad!!! Not to mention Kroger has a car wash right across the street, so how many do we need?? It shows no one took in consideration of how this will be right in our subdivision!!! I guess now with palms buttered there is nothing we can do? I will get phone numbers for all companies involved and

every time at 2am I hear vaccines blaring I will drive these companies nuts!!
Everything now shows the plain folk has no say anout anything do do with their
peaceful lives in their own home!!! Thank you Miss Angela and mr Benson for
everything you do!!!

Mr. Luckett

Our residents were extremely disappointed to learn that the Planning Commission voted 8-1 to allow a car wash in front of our community. I have been told by more than one resident that they were not able to access the meeting with the information provided. Our one resident, Renee Mitchel, who chose to speak was cut off by the facilitator while the attorney was allowed to drone on and on. We feel that this was a proforma meeting and the commission had already made up their minds before the meeting ever began. Our concerns for our community were not taken into consideration.

We still have concerns regarding the ill advised placement of this business and its impact on our community. It will impede the flow of traffic in and out of our community and could possibly back up traffic on Taylorsville Road. There is no way to minimize the impact of the additional traffic on our community unless the city can open up Tyler Way to Pleasant Glen Drive so that people can enter and exit Taylorsville Road at the traffic light that currently exists.

We are also concerned about the impact it will have on Grenden Fields Drive, which is a private road, and the amount of maintenance it will now require to keep up with this additional traffic load.

Our last major concern is that this business will be operational 24/7. The amount of noise coming from the Car Wash and its proximity to our homeowners will be detrimental. Some of our homeowners are approximately 30 yards from the property.

We want to ensure that all requirements of the Tyler PDD will be followed in the construction of this business from beginning to completion. This includes but is not limited to lighting, berm, landscaping, fencing and trash containment. The PDD did not anticipate a business with such loud operations being allowed so close to a residential community. While there is nothing in the PDD guidelines concerning noise there need to be steps taken to mitigate and lessen the impact on our community. This could take the form of sound barriers or enhanced mufflers around and attached to the vacuum systems.

We also want to make sure that Grenden Fields Drive, our entrance and the land next to Grenden Fields Drive are left in the condition that they are today. The strip of land between the street and the sidewalk, which we own, contains our irrigation system which feeds the entrance edifice.

To this regard, we would appreciate receiving a copy of the proposed plans for this development..

You can reach me at this email address or at 502-240-5733 or 502-291-1021.

Thank you

This letter is in reference to the proposed 24/7 car wash on the corner of Taylorsville Rd. and Grenden Fields Drive. I recently moved from rural Indiana to this community. I chose Grenden Fields because it is quite and peaceful in this busy area. With this 24/7 car wash I feel it will completely destroy this. We only have one way in and out so it will cause major traffic in our neighborhood. Please take all of this in consideration of our elderly community. Would you put this car wash in one of your elderly family members from yard?

Thank you
Mary Jane Massey
