Subject: Kenwood Road New Sidewalk Estimate

CW George / Rachael,

Please find below my estimate for a new concrete sidewalk on the "south side" of Kenwood Drive from Orchard Hill Drive to the firehouse entrance next to Alpine Way. The total cost under the latest TARC contract would be **\$100,000**. This includes for a professional survey to establish the existing right of way along the project limits, tree removal by Bob Ray company (thru the Metro Annual contract), tree replacement by Podges Landscaping. TARC has agreed to 50% - 50% partnership with Metro District 21. Metro Public Works will supply the design plans and the proposed construction work will be done under the TARC contract.

Thanks,

Steve Kurowsky, PE

Subject: RE: Kenwood - Sidewalk & Bus Stop Improvement Project

Please allocate \$50,000 to this project. That would be Metro's 50% of the estimated budget. This is a good decision. We will be able to use our best sidewalk contractor for this project.

Good Morning – I am working with our Contractor right now to determine which other projects will be constructed this year.

Please let me know if you and Public Works are hoping to construct the Kenwood sidewalk and bus stop improvement project this fall?

Thanks,
Mark

Subject: RE: Thank You- Kenwood Meeting!

Hello CW George – The meeting Monday was outstanding and it was very informative. I appreciate everybody you invited to attend, both from a neighborhood perspective as well as government attendees.

I do think Steve’s option 2 is the best plan, save the parking pads and still maintain a safe separation from the street.

The sidewalk on the southside, with improved bus stops on the north and south sides would serve the entire community well. The pedestrian crossing will need to be evaluated by Public Works and should not be a condition of constructing sidewalks to improve safety along Kenwood Ave.

Thanks,
Mark

Subject: Thank You- Kenwood Meeting!

Thanks again for participating in our Monday meeting. I realize it made for a late night but the value of your expertise is reflected in our relatively positive responses.

Below are the constituent comments. Can you please review and provide insight into the responses?

**Kenwood Sidewalk
Constituent Feedback**

Option 1: 0 responses

Option 2: 15 total responses

- “I am most sadden by losing trees. I would vote for minimum tree loss. Very interested in the lighting.
- “With a crosswalk”
- “Improved lighting on both sides”
- “DeSales crosswalk a must”
- “Put in crosswalks first”
- “If we have crosswalks”

Other: 7 responses

- “You can do better” ???
- “Everyone already uses the “trolley” road for walking on a multiuse path. It makes more sense to continue with using what people are used to. Crosswalks are needed regardless.
- “Continue with access road is preferred”
- “Continue with access road is preferred”
- “Make the local access road on the north side the multi-use path and extend it from the bank property to the end of the road in front of DeSales or extend around the corner and down the west side of 3rd St. to Seneca Trail. This provides safe access for walkers, bike riders, (by blocking through access similar to Southern Pkwy 4500 block you can provide safety for walkers, bicyclists, TARC riders, car parked. This would be more cost effective and provide all the needs that you are seeking. If the TARC routes don’t work with the proposal then reverse the route, same service and less cost. Cross walks would not be needed.”

Rachel,

The account number I gave you is the account string for TARC funds. I thought that's what you were looking for. The account number for Metro council funds would be assigned after the appropriated amount is transferred to public works through OMB. I don't have the account info at this time.

Mojgan,

I am having a hard time reading the chart. What type of account number is this?

Sorry for any confusion. Metro Council's Financial Analyst explained to me today that I need to know the account number that the metro council funds will be placed when it goes to Public Works for this project. If that account number won't be assigned until the appropriated metro council funds are sent to public works through OMB, please let me know and I will make note of that. Please call me if you have any questions.

Thanks,
