To: [REDACTED]

Let me get this straight ... You come into the neighborhood, you mow down countless trees, completely destroy the view I once had, run off unknown # of animals, a breeding pair of red tailed hawks and falcons and many other birds I used to watch, and now you want to give me the opportunity to discuss a formal application (that we both know has already been approved), so you can say you gave us an opportunity to put in our ten cents worth. It's way too late to ask for permission to change the planning and zoning for this property. IT'S ALREADY A DONE DEAL!!!! I don't believe for one second that the people that invested their money into this property did it with- out already knowing it was a done deal, no matter what anybody in this district / subdivision likes or dislikes about what has already happened. You have already ruined it all, no one can do anything about it, you've already torn it all down ! The bad part about this is that no one on the planning commission and / or the board of zoning adjustment actually cares about what the people in this subdivision in district 26 actually would have wanted , because they don't care! Bottom line is they don't give a damn!! THANKS FOR NOT ASKING BEFORE YOU TOOK A CRAP ON OUR WOODS AND OUR VIEW AND ALL THE ANIMALS YOU DISPLACED. I am sure you wouldn't mind if some developers came into your neighborhood and just mowed down all your trees and put a condo next to your house or a house for degenerates to ruin your neighborhood. Absolutely crap! A very unhappy person Garry

The E-MAIL ISN'T EVEN A VALID
E-MAIL. IS CANDICE DURHAM A REAL
PERSON?
