Hi Steve,

We are preparing the CIF request for \$102,000. For documentation purposes, will Public Works accept the funds?

Thanks,

Megan

CW Armstrong / Megan,

I have put together an estimate for the bump-out additions to Bardstown Road from Ellwood to Edenside. I used the attached document that Kevin Bailey sent me to do my estimate. I estimated each individual bump out location and removed the ones that KYTC said they will be responsible for building. The estimate follows as below:

Survey = \$8,000
Design = \$0 (KYTC providing)
Construction = **\$135,000** (w/ a 10% contingency)
Construction Inspection = \$0 (Metro)

North side of Bardstown Road = \$50,000
South side of Bardstown Road = \$85,000

Most of the new bump outs costs between \$3,500 & \$5,000 each. However, the really tough locations are at Windsor and potentially Tyler (I already provided a much cheaper option here). The amount of work as laid out in the photo below is a lot more intricate than these other generic bump outs. The two bump outs at Windsor are estimated at \$19,000 and \$15,000 each.

If the budget is to remain \$102,000, we can work together to eliminate some of these locations to get under budget if that is your desire.

Subject: Bardstown Road Resurfacing

Hi Steve,

Kevin Bailey let us know today you will be the PM from the Metro side of the Bardstown Rd. project. Council Member Armstrong wants to commit the balance of her CIF funds for the fiscal year to funding additional bumpouts. Her balance in December was \$110,441.12, and she appropriated \$8,000 for the survey fee. I'm actually at the appropriations committee this afternoon to complete that transaction. So we have an additional ~\$102,000 to fund the bumpouts.

I would like to help get those funds transferred to you as soon as possible. Has the survey report come back? What additional information do you need from us to get us an estimate? I will be going out on leave in mid-February, so I want to get this all taken care of as soon as I can.

Please let me know what I need to do to help.

Thanks,

Megan Metcalf
