

CIF061621PW21B

Louisville Metro Council City Agency Request
Neighborhood Development Fund (NDF)
 ■ **Capital Infrastructure Fund (CIF)**
Municipal Aid Program (MAP)
Paving Fund (PAV)

Primary Sponsor: Councilwoman Nicole George

Amount: \$8,250 **Date:** June 4, 2021

Description of program/project including public purpose, additional funding sources, location of project/program and any external grantee(s):
 Design of the "paint & post" curb extensions at the intersections along Ashland Ave between Taylor Blvd and Southern Pkwy to slow drivers.

 Scope of Services attached. Cost estimate: \$8,250

City Agency: Public Works
Contact Person: Dirk Gowin
Agency Phone: 502-574-5925

I have reviewed this request for an expenditure of city tax dollars, and have determined the funds will be used for a public purpose and have the attached documentation from the receiving department concerning the project/expenditure.

Subject: RE: Ashland

CW George,

Following from our traffic group on items 1 & 5.

Ashland Avenue is currently listed (by Ordinance) as a Metro "through" street and has a speed limit of 35 mph.. The ADT is approximately 3000 vehicles per day. It functionally classifies/operates as a local collector providing a connection between local streets and the arterial street system (Taylor and Southern Parkway). We can do a speed study and see what the 85th percentile is.. It is likely around 35 mph. And check crash rates as well.

We can/will look at Bellevue and Ashland for a multi-way stop again, but a quick look at the splits (see below) indicates that unless there is a crash problem, it would not meet MUTCD guidance for the installation of a multi-way.

Please let the CW know that TE will look at both requests. Thanks!!

Subject: Re: Ashland

Please proceed. Rachel will assist with the appropriation. My only request is that you add a line requiring them to present a draft for comments prior to dropping final drawings.

For my own record, I hope the following considerations will be given:

- 1.) Dropping the speed limit from 35mph
- 2.) Widening the parking area
- 3.) Pavement treatment such as road rumble strips coming at the Olmsted North approach ??
- 4.) Treatment near Livingston

5.) 4 way stop at Bellevue & Ashland - previously denied based on accident count.

CAUTION: This email came from outside of Louisville Metro. Do not click links or open attachments unless you recognize the sender and know the content is safe

Dirk,

Please see the following preliminary scope and fee for this project. If everything looks good to you, I will send along a more formal proposal letter.

Scope of Services

1. Develop drawings that include a standard detail for intersection bumpouts using pavement markings and delineators and a layout sheet to identify intersections included in project.
2. Develop a base file using publicly available GIS data and develop a pavement marking plan for the intersection of Ashland Avenue, Livingston Avenue, and Mapleton Avenue.
3. Develop an opinion of probable construction cost.
4. Submit drawings and opinion of probable construction cost to Metro Government for review and address comments, as appropriate.
5. Submit final drawings and opinion of probable construction cost.

Compensation - \$8,250

Let me know if you have any comments/questions. As always, thank you for the opportunity.

Chad
