We are the occupants at 9302 Michael Ed dr. We have been out ou town on family business and just received notice of zoning meeting. We are strongly opposed to this structure being built where it is it does block both windows on side of house. With in 8 foot of ours.we are very concerned about possible burglaries due to close proximity to our home and future resale of our property. All other conner houses in our neighborhood have garages in back of yard. This will be at the front conner of our home. I am enclosing pictures sorry again for short notice but we have been out of town.

Thanks

Michael west
