Explanation of Interest

I am very interested in getting involved in what happens in my city and my neighborhood. I think it is important to be part of the solution and not part of the problem. I have actively participated in activities when I lived in California. Now that I have bought a home here in the Portland neighborhood. I would like to be apart of the voice that speaks out for change, resolution and more importantly make the view of the people be heard.

It is my goal to see that our neighborhood improves and not only preserves the history parts of Portland but that I help champion the change necessary for there to be a much better community for all that live in here.
