Subject: Building a garage with an accessory apartment

Location of Meeting: 608 Rawlings Avenue

My wife and I would like to introduce our selves to the neighborhood. We just moved into 608 Rawlings Avenue and plan to stay for a long time. We are building a garage with an accessory apartment above it. We are hosting a neighborhood meeting on March 12th at 6:00 PM for anybody that has questions or concerns regarding the build.

The garage will be a 3/4 car garage with a 600 to 650 square foot apartment above it. At the meeting we will have site plans and floor plans provided. Any further questions can be addressed to Beth Jones, Planner II of Develop Louisville.

We look forward to meeting you!

Merrivether Neighborhood Meeting Summary

This meeting was held Monday, March 12th at 6:00 PM at 608 Rawlings Street. There were seven people present. We all gathered around the kitchen table and we went over the garage plans, site plans and previous remodels I have constructed. The only questions brought forward were how many street parking spots this garage would open up, if proper permits would be pulled and general traffic flow. No true arguments or discrepancies were brought up. The meeting lasted about 30 minutes and everybody seemed more informed at the end of the meeting.
