As soon as your office gets the ok from PW&A engineers for placement, start the NDF process and send the funds to my attention. When we see the funds have actually been transferred in the account, I can order them from HSD. The bolts aren't usually the issue. They unbolt them, period. Or just jerk them out of the concrete.

In your NDF funding, please put in there if you want "OLD LOUISVILLE" or the neighborhood name.

Costs are \$583 each with a \$140 liner. Total \$723.00 each.

**Subject:** Decorative Old Louisville Trash Cans

Steve,

I would like to fund the placement of three Ornate Old Louisville trash receptacles at the below listed locations.

1) TARC stop in front of 1350 S 1st Street... replace the silver mesh one.

(2) TARC stop at the intersection of Oak and Floyd... I believe there was an ornamental trash ben there, but it's now missing.

(3) Not a TARC stop, but there was one at the intersection of Magnolia and Brooke... that one was stolen / recycled I'm told. (In front of Irene Spicer's old house). The Address is 1380 S Brooke Street.

What is the cost of each of them ?

Will you except D6 NDF funds for the purchase and installation of these receptacles? Also, because people seem to want to take them, can we install them with extra long bolts?

Thanks a bunch David.

**Subject:** RE: Ornate Garbage Cans

Wanda,

There needs to be four foot of sidewalk clearance left for pedestrians and wheelchairs once these garbage cans are in place.

- 1) TARC stop in front of 1350 So. 1<sup>st</sup> Street to replace the silver mesh one that is there. This garbage can should be fine in place of the existing can.
- 2) TARC stop at the intersection of Oak and Floyd. One was there but is now missing. This garbage can should be fine. Maintain existing clearance behind tree well.
- 3) Intersection of Magnolia and Brooke in front of 1380 So. Brook Street. Front of 1380 S Brook St the sidewalk looks a little too narrow. If you cross Magnolia to the SW corner along magnolia you should have enough room if you put the trash can along the curb but not too close to the handicap ramp.

If you have any questions let me know.
