After figuring the cost for a possible 8 hours of work (could be less ) depending on conditions, labor and materials total would be \$2,371.92. I will work with Tim and Bryan about nailing down a date to accomplish this work and respond accordingly.

Bryan,

Just checking in on this project. Have you had a chance to work out a plan on the cost/timeline? We are happy to help in any way we can to make this project move as soon as possible. If we missed any communication, our apologies.

Thanks for your help,

-MG

Thanks for the update. After talking with Parks initially, we settled on location #1 (on the attached location concept document we received from Parks). That looks to me to be directly opposite the existing bench, which will be removed. Does that make sense?

I've copied Jeff Noble to confirm this decision.

The bench is located in the rear of 330 E. College Street (40203). According to the owner, "the alley is closed off so they need to circle around the block and come in from behind." This is the block between Preston and Floyd and College and Breckinridge.

The building is unattended and the bench is outside under a tarp.

We are appropriating the costs from the 26<sup>th</sup> NDF to Public Works to pay for the work.

Let me know what else you need to know and thank you for this. I am hopeful we can at least secure the bench as soon as possible as right now it is not in a secure location.

Thanks.
