I am writing requesting that the entrance to Windemere Drive into the Forest Hills Subdivision not be changed. Why would you want to leave it open to have a pretty much a junk yard to be the first thing you see when coming in the subdivision. I'm sure if it was the east end this would not be considered into a respectable subdivision. All the addition traffic on St Andrews is a big problem and sure there will be added to the problem. There is only one entrance and exit into the subdivision. It is hard many times trying to come in or leave. Please leave the request for change to stay as it is. Sure in the beginning when the restrictions were written they were the best. We won the first battle then how many times do we have to go thru this? Thanks for your help.
