Jeff,

Will you accept the \$75,570.60 from us for the additional lighting in D3 quoted below?

Subject: RE: Additional Lighting

Attached is the plan and cost estimate for most of the requested locations. There were a few locations that I was unsure about and they are noted on the last page of the attached with the cost estimate. Let me know if you need anything else before the filing deadline.

Subject: RE: Additional Lighting

I need to add some additional areas to the below list.

Standard Guardian Lights:

4 (400)- 22nd and Algonquin additional (2) SW/SE Corners and (2) additional lights on the S side of 22nd in between Bernheim

5 (200)- 22nd and Algonquin (ally- from 18th to 23rd a high dumping zone)

2(400) - Cypress and Algonquin S side of the street

2 (400) - Algonquin and McCloskey S side of the street

1) – Plantation

1) – Hardesty

1)– Wingfield and 22nd at the intersection

b.

Spotlights

9 - Can we add at the directed Spot Lights on Oregon, Alston and Radcliff a the intersections. There are no front facing poles, but we have to add lighting as noted below. I am thinking the adding a pole and square high definition spotlight to the corners to shine the streets with lighting facing the streets

5- Can we add additional spot lighting at the train intersections of Bernheim, Wathan, Millers and Crums and one additional one behind Southland Terrace where the old Kroger was but on the Manslick side (3630 ELDERWOOD WAY)?

2 – Schardein Cemetery

2- Taylor Gardens

Subject: Additional Lighting

Jeff,

We would like to add some additional lighting to the district and get this entered into new business before the year is up. The last new business deadline is November 28th, so I would need all of the pricing and paperwork back by November 22nd due to the Thanksgiving holiday. *Only caveat to this list is the lighting around Algonquin and 22nd, I believe we already agreed on lighting this area, but there have been several accidents at this intersection and it is completely dark at night. There is currently a car hood in front of 2100 Algonquin and SWMS has had to replace the trash receptacle there a couple of times over the last 6 months, due to accidents.

1. On Cane Run Road at Lindell. Intersection is dark as you approach Lindell.

2. 22nd St at the alley that runs between Dixdale and Algonquin on the west side.
The alleyway is dark on the west side until midway down. This dark area gives cover to unlawful activity (dumping, drug use, accessibility to rear yards and occupied dwellings).
 3. On McCloskey, south of Algonquin before Dixdale.
This area is dark and dumping is weekly in that area.
 4. 1800 Block of Oregon, northside of street .
2 pedestrians were not visible walking (they had on dark clothing).
 5. Millers Lane between Old Millers and Cane Run Rd North side
Industrial area that has no business lights on after dark
 6. On Cane Run South of Bells
 7. 2100 Block of Allston
 8. 2300 Ratcliffe
 9. 1800 Ratcliffe
 10. 1700 Harold
 11. 1800 Millers
(After the McDonalds lot down to Plantation)
- *The light at 22nd and Algonquin is blinking every 2 seconds.
12. Nichols Meadow Circle at March Blvd on the West side.
