Looks like we will save almost \$1000.00 with Grainger. The material can be received within 1 or two days of the order and PO#.

Please appropriate \$3559.90, I have copied Max Bradley in to be advise when funds are available also. Thank you

Thanks Tim -- I would love to have them installed before it gets cold and the adhesive won't work as well.

Since we do not have a contract with this vendor I will need to take another direction that may even save a few dollars. In order for me to purchase these we will need to go through our Grainger contract. I will get with our Representative and obtain the quote for these materials and follow back up. Thanks

That's not a Metro contract #. I would need to see a hard copy to get with Paul R.

To obtain this product without a contract you would need 3 quote method since total appears to be over \$2500.

That said, 8" bird spikes are already available from our Grainger contract at what appears to be equal per foot pricing (not to mention we get a yearly rebate from Grainger):

Is this a contract we can use?
