**CASE NUMBER 19-VARIANCE-0015**

**The following spoke in opposition of the request:**

No one spoke.

**00:23:27 Board Members' deliberation**

**00:24:01** On a motion by Member Turner, seconded by Member Goatley, the following resolution, based upon the Standard of Review and Staff Analysis, and the testimony heard today, was adopted:

**Variance from Land Development Code Section 5.2.3.C.2.b to allow parking to encroach into a portion of the required side and rear setback between C-2 and C-2:**

**WHEREAS**, the Louisville Metro Board of Zoning Adjustment finds that the variance will not adversely affect the public health, safety or welfare because the property line between the two C-2 zoned properties is located between two parking lots interior to Middletown Station. Since the proposed development on the subject site is residential and the neighboring C-2 zoned property to the east is commercially used, the less intense residential use will not adversely affect the adjacent property, and

**WHEREAS**, the Board further finds that the requested variance will not alter the essential character of the general vicinity because the line between the two C-2 zoned properties is located between two parking lots interior to Middletown Station. The neighboring C-2 zoned property to the east is commercially used, with expansive parking lots, and

**WHEREAS**, the Board further finds that the requested variance will not cause a hazard or nuisance to the public because the line between the two C-2 zoned properties is located between two parking lots interior to Middletown Station. The parking areas that are proposed to encroach into the setback will be primarily used by residents of the proposed development and their guests, and

**WHEREAS**, the Board further finds that the requested variance will not allow an unreasonable circumvention of the zoning regulations because the applicant is requesting only a small portion of the parking encroach into the setback; and

**Variance from Land Development Code Section 5.7.1.B.1 to increase the maximum building height within a Transition Zone from 45 feet to 60 feet**

**BOARD OF ZONING ADJUSTMENT MINUTES**  
**November 18, 2019**

**PUBLIC HEARING**

**CASE NUMBER 19-VARIANCE-0015**

**along Aiken Road, between the Suburban Marketplace and the Neighborhood Form Districts:**

**WHEREAS**, the Louisville Metro Board of Zoning Adjustment finds that the requested variance will not adversely affect public health safety or welfare since there is only one proposed building located in the transition zone, and the proposed structures are located over 100 feet from the nearest residential structures on the opposite side of Aiken Road, and

**WHEREAS**, the Board further finds that the requested variance will not alter the essential character of the general vicinity since the applicant is proposing to locate only one building in the transition zone. There do not appear to be any buildings in the general vicinity that exceed the maximum building height, however, if the subject site were not a transition zone, the maximum building height would be 60 feet. If setbacks are increased within the Neighborhood form district (located on the other side of Aiken Road) then additional building height would be permitted. Additionally, the Aiken Road right of way is 80 feet, which provides a buffer and transition area between the proposed development and neighboring developments, and

**WHEREAS**, the Board further finds that the requested variance will not cause a hazard or nuisance to the public since the increased height does not appear to pose a safety issue. Additionally, the proposed structures are located over 100 feet from the nearest residential structures on the opposite side of Aiken Road, and

**WHEREAS**, the Board further finds that the requested variance will not allow an unreasonable circumvention of the zoning regulations since the proposed structures are located interior to the Middletown Station site, and are located over 100 feet from the nearest structures on the opposite side of Aiken Road; and

**Variance from Land Development Code Section 5.2.3.C.2.b to allow parking to encroach into a portion of the required building setback in a Transition Zone:**

**WHEREAS**, the Louisville Metro Board of Zoning Adjustment finds that, based upon the evidence and testimony presented today, a third variance is required to allow parking to encroach into a portion of the required building setback in a Transition Zone, and

**CASE NUMBER 19-VARIANCE-0015**

**WHEREAS**, the Board further finds that the requested variance will not adversely affect the public health, safety or welfare, alter the essential character of the general vicinity, or cause a hazard or a nuisance to the public, and

**WHEREAS**, the Board further finds that the requested variance does not arise from special circumstances which do not generally apply to land in the general vicinity, or in the same zone, and

**WHEREAS**, the Board further finds that the strict application of the provision of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant, and

**WHEREAS**, the Board further finds that the requested variance will not allow an unreasonable circumvention of the zoning regulations; now, therefore be it

**RESOLVED**, the Louisville Metro Board of Zoning Adjustment in Case Number 19-VARIANCE-0015 does hereby **APPROVE** Variance from Land Development Code Section 5.3.2.C.2.b to allow parking to encroach into a portion of the required side and rear setback between C-2 and C-2, Variance from Land Development Code Section 5.7.1.B.1 to increase the maximum building height within a Transition Zone from 45 feet to 60 feet along Aiken Road, between the Suburban Marketplace and the Neighborhood Form Districts (19-VARIANCE-0016), and Variance from Land Development Code Section 5.3.2.C.2.b to allow parking to encroach into a portion of the required building setback in a Transition Zone (19-VARIANCE-0015).

**00:44:19 Board Members' deliberation**

**00:46:34** On a motion by Member Goatley, seconded by Member Buttorff, the following resolution, based upon the Standard of Review and Staff Analysis, and the testimony heard today, was adopted:

**Sign Authorization to permit a monument sign for a residential use in a Campus Form District (LDC Table 8.3.2):**

**WHEREAS**, the Louisville Metro Board of Zoning Adjustment finds that adjoining properties to the north and south are currently undeveloped, the property to the east is a retail mall and the property to the west is a multi-family residential use similar to the proposed use for the subject site, making it unlikely that future development will be incompatible. The sign meets LDC design guidelines in that it is visually consistent with the architecture, materials, colors and overall design of the apartment complex, it has individual character tied to the development it serves and is appropriate in size and scale, and

**WHEREAS**, the Board further finds that the proposed signage will not conflict with compatibility standards as set by Plan 2040 as it is appropriate to the type of neighborhood, the use of the site and the character of the area, and

**WHEREAS**, the Board further finds that the request for the monument sign is reasonable in that it would be permitted under the current zoning of its location and is below both the maximum area and height that would be permitted in the site's form district if it were a non-residential use, and

**WHEREAS**, the Board further finds that the proposed monument sign is smaller in area and lower in height than would be permitted for a commercial use within the Campus form district. It was specifically created to coordinate with the design of the buildings and the development as a whole and will make a positive contribution to the general appearance of the streetscape; and

**Sign Authorization to permit an attached sign for a residential use in a Campus Form District (LDC Table 8.3.2):**
