

To the city council and whomever this will concern,

I will try and make this brief to better navigate thine time. As leaders, As you know, music has a great way of influencing our very thought process and has great impact on decisions we make. When the radio is allowing violence, sex, drugs and alcohol to be promoted, it is like taking the bolts out from your house and expecting it to stand. I write this letter to bring to your attention an red overlooked threat. We as leaders need to put a ban on anything promoting violence, drugs and alcohol and or sex. Teens should not be listening to whether or not a man does not mind a woman stripping on an pole. Nor should they be encouraged to support violence or drugs and or alcohol (“Turn down for what?”, “Popped a molly I’m sweating”, and “I don’t mind, if you strip on the pole..” are examples).

This has to stop soon that we may redirect the generations train of thought. As you know, they will adjust. This way crime rates such as rape (the degrading of the women’s name is something women have accepted, making their worth seem little to nothing). Violence because it promotes destruction, Sex, drugs and alcohol because we can use our common sense as to why it should be banned with so many lost children and teenagers out here trying to get an clear head on their future. This generation is and will be the future. Some may not understand at first but like when our parent roles chastened us back when, we now see why and are content with why they played such a good part in our lives. Lets be the chosen generation, and strengthen our city. It is good to have rights, but when you allow things that will eventually take away them from you, it is pointless.

Good Measure,

Canaan Williams.
