Case No:	17ZONE1053
Request:	C-2 & R-5 to M-2
Project Name:	AHP Haulers, LLC
Location:	12909 Dixie Hwy
Owner:	Ariel Hernandez
Applicant:	Same
Representative:	Ashley Bartley, QK4
Jurisdiction:	Louisville Metro
Council District:	14 – Cindi Fowler
Case Manager:	Laura Mattingly, AICP, Planner II

REQUEST(S)

- Change in zoning from C-2 & R-5 to M-2 on 2.62 acres
- Waiver of 10.2.4 to allow the existing structure and parking to encroach into the required property perimeter buffer along the northern property line shared with a residentially zoned property
- Detailed District Development Plan with Binding Elements

CASE SUMMARY/BACKGROUND

The applicant is proposing a truck and trailer parking area on Dixie Highway in the Pleasure Ridge Park neighborhood, approximately 1.75 miles south of the Gene Snyder Freeway. The site currently has an existing 2,367 square foot structure that will remain. The area for truck parking is asphalt and currently has two access points on Dixie Hwy. The applicant is proposing to eliminate one access point and add sidewalks along the Dixie Hwy frontage. The applicant will have 10 trucks and trailers that will be parked on the property and is providing six vehicular parking spaces.

STAFF FINDINGS

Staff finds that the proposal is ready to be docketed for the next available Public Hearing.

TECHNICAL REVIEW

- MSD and Transportation have given preliminary approvals

INTERESTED PARTY COMMENTS

None received.

STANDARD OF REVIEW FOR REZONING

Criteria for granting the proposed form district change/rezoning: KRS Chapter 100.213

1. The proposed form district/rezoning change complies with the applicable guidelines and policies Cornerstone 2020; OR

2. The existing form district/zoning classification is inappropriate and the proposed classification is appropriate; OR
3. There have been major changes of an economic, physical, or social nature within the area involved which were not anticipated in Cornerstone 2020 which have substantially altered the basic character of the area.

STAFF ANALYSIS FOR REZONING

Following is staff’s analysis of the proposed rezoning against the Guidelines and Policies of Cornerstone 2020.

The site is located in the Suburban Marketplace Corridor Form District

Suburban Marketplace Corridors: Suburban Marketplace Corridors are generally located along major roadways with well-defined beginning and ending points and established depths along the length of the corridor. The pattern of development is distinguished by a mixture of medium to high intensity uses. Accommodations for transit users, bicyclists and pedestrians are encouraged in an effort to attract a variety of users as well as to minimize automobile dependency and traffic congestion. Connectivity to nearby uses should be encouraged. Developers should be encouraged to design new commercial development in compact groups of buildings, which use the same curb cut, share parking, have a common freestanding sign identifying the uses and have a common buffering or streetscape plan with respect to any abutting uses of lower density or intensity. This form may include medium to high-density residential uses that are designed to be compatible with both the non-residential uses along the corridor and the lower density residential uses in adjacent form districts. Medium density residential uses may serve as a transition area from lower to higher density residential uses and should be encouraged in this form.

Proposed new commercial uses are encouraged, to locate within the boundaries of existing corridors. Reuse of locations within existing corridors is preferred over expansion of a corridor. Proposals to expand defined corridors represent significant policy decisions. When considering proposals that result in an extension of suburban marketplace corridors, particular emphasis should be placed on: (a) use or reuse of land within existing corridors; (b) potential for disruption of established residential neighborhoods; and (c) compliance with the site and community design standards of the Land Development Code. This proposal is not compatible with surrounding commercial uses, and does not propose any improvements for pedestrians or bicyclists. In addition, there are no landscape buffers proposed which would increase the compatibility of the use and screen incompatible uses. On the other hand, the proposal is re-using an existing vacant site and not proposing an expansion of the corridor.

3. Proposed Binding Elements

1. Zoning Map

2. Aerial Photograph

3. Proposed Binding Elements

1. The development shall be in accordance with the approved district development plan, all applicable sections of the Land Development Code (LDC) and agreed upon binding elements unless amended pursuant to the Land Development Code. Any changes/additions/alterations of any binding element(s) shall be submitted to the Planning Commission or the Planning Commission's designee for review and approval; any changes/additions/alterations not so referred shall not be valid.
2. No outdoor advertising signs, small freestanding signs, pennants, balloons, or banners shall be permitted on the site.
3. Construction fencing shall be erected when off-site trees or tree canopy exists within 3' of a common property line. Fencing shall be in place prior to any grading or construction to protect the existing root systems from compaction. The fencing shall enclose the entire area beneath the tree canopy and shall remain in place until all construction is completed. No parking, material storage or construction activities are permitted within the protected area.
4. Before any permit (including but not limited to building, parking lot, change of use, site disturbance, alteration permit or demolition permit) is requested:
 - a. The development plan must receive full construction approval from Develop Louisville, Louisville Metro Public Works and the Metropolitan Sewer District.
 - b. Encroachment permits must be obtained from the Kentucky Department of Transportation, Bureau of Highways.
 - c. The property owner/developer must obtain approval of a detailed plan for screening (buffering/landscaping) as described in Chapter 10 prior to requesting a building permit. Such plan shall be implemented prior to occupancy of the site and shall be maintained thereafter.
 - d. A Tree Preservation Plan in accordance with Chapter 10 of the LDC shall be reviewed and approved prior to obtaining approval for site disturbance.
5. A certificate of occupancy must be received from the appropriate code enforcement department prior to occupancy of the structure or land for the proposed use. All binding elements requiring action and approval must be implemented prior to requesting issuance of the certificate of occupancy, unless specifically waived by the Planning Commission.
6. There shall be no outdoor music (live, piped, radio or amplified) or outdoor entertainment or outdoor PA system permitted on the site.
7. The applicant, developer, or property owner shall provide copies of these binding elements to tenants, purchasers, contractors, subcontractors and other parties engaged in development of this site and shall advise them of the content of these binding elements. These binding elements shall run with the land and the owner of the property and occupant of the property shall at all times be responsible for compliance with these binding elements. At all times during development of the site, the applicant and developer, their heirs, successors; and assignees, contractors, subcontractors, and other parties engaged in development of the site, shall be responsible for compliance with these binding elements.

Cindis BEs

- If another use proposed must come before Metro Council for approval
- Landscaping across entire frontage
- Gate - if installed must be set back far enough to allow trucks
- BE regarding empty trailers only parked
