The estimate of work that would be required to bring the road into compliance is \$18,000. This would be for repairing the damaged base in a few isolated locations nearest Dixie Hwy, milling and patching the concrete section, sealing all cracks and joints, and then overlaying the full width and length of the road with a 1.5" asphalt overlay.

Jeff -

Yes, please provide a cost estimate at your earliest convenience.

Thanks,
Liz

The report shows that the road is adequate however we wouldn't be able to accept in its current condition. There are some areas that will need to be repaired prior to acceptance into the public road system. We could accept the road on the condition that CM Blackwell fund the repairs. I can get a cost estimate for the repairs if you'd like to move forward.

Good Afternoon Jeff -

I wanted to touch base with you about the Trent engineering study. Have you been able to review the results and speak with Director Burns about this. Please let me know if you think it is an appropriate time to set up a meeting to discuss next steps with yourself, CM Blackwell, Director Burns, and John Wilmes.

Thank you,
Liz Kennedy

I'll review the results with Engineering and approach the Director with a recommendation, may take a couple of weeks.

Seems like good news and progress!

Where do we go from here?

Jeff,

Sorry I was out earlier this week, attached is a recent email from Shea Carr at AMEC with the results of their coring investigation.

Hi Jeff,

Rob is out of town for the next couple of weeks, is this something I can help with?? He didn't give me any information about this project, but I will try to find out what I can if you let me know what kind of study was to take place. Any information you can give will assist me in finding out the status for you.

Thanks,

Jan Cunningham

Rob,

What's the status on this study?

Good Morning Jeff -

Wanted to touch base with you again on this one. When do you expect the results of the Engineering Study to be ready for Trent?

Thank you!
Liz Kennedy

Good morning Jeff-
Just wanted to touch base with you about the engineering study on trent.
We got a call from one of the residents that she saw someone measuring.
Do you know when we'll have those results?

Thanks,
Liz
