A motion was made by Council Member Blackwell, seconded by Committee Member Triplett, that this Ordinance be recommended for approval.

Travis Fiechter, Jefferson County Attorney's Office, explained a proposed binding element:

- Remove Binding Element 16 and replace with the following;

"Subject to approval by the Kentucky Transportation Cabinet, the owner of the property shall close the existing access point from the subject site to Dixie Highway and construct a new, right-out-only curb cut at a point no less than 20 feet south of the existing access point. If KYTC rejects moving the access point, then the owner shall apply to reduce the current access point to right-out-only. The owner shall file a revised detailed district development plan with Louisville Metro Planning and Design Services which depicts the version approved by KYTC. Ingress to the subject site shall occur through the adjoining site at 6633 Dixie Highway, which is also owned by the owner of the subject site, and which access shall be documented by either a deed of consolidation for the two sites or an access easement. Final construction, including the provision of new sidewalk if the existing access point is closed or reduced, shall be completed within one (1) calendar year of the subject property being rezoned."

Councilman Blackwell explained that the importance of having right turn only is the over all plan for Dixie Highway, to reduce left turns and to have right in, right out for safety.

Motion was made by Council Member Blackwell, seconded by Committee Member Engel, to amend this Ordinance. The motion carried a voice vote.

The motion to recommend for approval carried by the following vote and the Ordinance was sent to Old Business:

District 12 Council Member Blackwell, had a vote on this zoning case and voted YES.

A motion was made by Committee Member Triplett, seconded by Committee Member Dorsey, that this Ordinance be recommended for approval.

Brian Davis, Planning and Design Services, gave a presentation on the Planning Commission's recommendation.

Committee Member Dorsey said she is a Board Member of One West, that created this concept to help the disadvantage that would want to get in the restaurant business.

Council Member Sexton Smith, a former member of One West Board of Directors, spoke on Chef Space programs and the restaurant owners that have come through this program. And also that there are seven logical and reasonable binding elements that she is fully supportive of. This is part of a large development proposal that would be beneficial for the community.

Committee Member Triplett stated this does fit with the Russell neighborhood.

Travis Fiechter asked Committee Member Dorsey to abstain from vote, since she is directly involved in this project.

The motion carried by the following vote and the Ordinance was sent to Old Business:

Yes: 6 - Flood, Reed, Triplett, Winkler, George, and Engel

A motion was made by Committee Member Triplett, seconded by Committee Member Engel, that this Ordinance be untabled.

Michael King, Economic Development, spoke on the change from the Planning Commission about 5A.

Chair Flood spoke on a proposed amendment which states:

"5A. reasonable buffer standards when new non-agricultural development is proposed adjacent to land that is permanently protected by a conservation easement. Property owners are strongly encouraged to work together to develop adequate buffers in these cases. In determining the width of the buffer, the size of the parcel being developed and the intensity of the new development should be taken into consideration, as well as the potential negative impact of the new development upon the land that is protected by the conservation easement. For larger, more intense developments, a 50 foot natural/vegetative buffer may be reasonable. Smaller, less intense developments may require a narrower buffer."

Council Member Benson spoke about the 50-feet issue and how the property would lose value and the owner should be compensated.

Travis Fiechter, Jefferson County Attorney's Office, spoke on the reason of why buffers are made larger or smaller, and that there are different ways of compensation.

Travis Fiechter suggest they strike the last two sentences.

Committee Member Winkler spoke about 5A regarding the buffer being a guideline and not a requirement.

A motion was made by Committee Member Winkler, and seconded by Committee Member Engel, to amend the Ordinance as stated above.

The motion carried by the following vote and the Ordinance was sent to Old Business:

Yes: 5 - Flood, Dorsey, Triplett, Winkler, and George

No: 2 - Reed, and Engel
