We will pave the small section where she is currently parking I believe with asphalt.

Charles,

I am not sure what you mean by ramp, but if you mean the section where someone is currently parking, we can address.

Matthew , I have a quick question about this alley estimate , I received a call from the lady who lives at 4208 Hale Ave asking if the ramp behind her home is included in the estimate for the alley repair ? Ms. Jackson states that several years ago she was asked by Metro Gov to allow them to pave a section behind her home due to the turning radius so garbage trucks could make the turn in the alley . Charles,

Here was the estimate I sent on the 4200 block of Hale. I am going to review the alley on 43rd St on Tuesday and will get back to you. The section south of Grand Ave appears to be gravel, so that will likely be construction of a new alley. This does not appear to

Charles,

I went out and looked at the alley discussed below. It does appear that our roads crew got out and patched several areas. I do believe this would be a good candidate for repaving. I would suggest a 2 inch mill and overlay with fiber reinforcement. There are 8 ramps associated with the various alley connections. I estimate that the total to repave and update those ramps would be \$30,000.00.

Thanks,

I gave you a quote for the section running between Cecil and 42nd st but not for the portion running between 42nd and 43rd St. I will get this on my list to have completed this week.

Mr Haines , I turned in a request to get a alley paved or patched about 6 months ago , the alley in question is the alley that runs behind 4200 Block of Hale Ave & 4200 Block of Virginia Ave between 42nd St & 43rd St . Its possible that it got lost in the transition to the new system , so if possible can you take a look at this location . I received a call from another resident this morning complaining about the pothole are getting really bad . Thanks C Weathers

Hello Matt,

I am reaching out to ask you to send confirmation emails to accept funds for two projects in District 1.

1. Alley paving – 1000 block of 43rd Street
2. Alley paving – 4200 block of Hale Avenue

If possible could you send these two emails by the end of business today?

Regards,

Connie M. Dearing
