Re: Case #14MOD1000 - Masonic Homes property

Christopher:

Please print out this email and include it in the record of the above case.

I am writing as a resident property owner of Ormond Road in St. Matthews, KY. My neighbors including those residing on Ormond Rd., Leland Rd., Washington Square, and Elmwood Ave. are adamantly and unanimously opposed to amending Binding Element #3 for the Masonic Home Property.

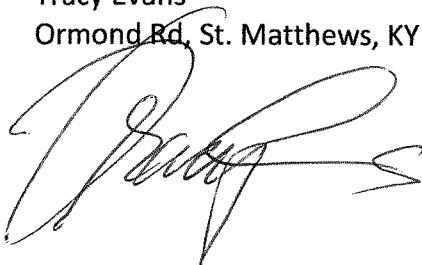

Along with other volunteers, we have carefully surveyed the residents of these four streets as well as nearby neighborhoods as reflected by the areas marked on the attached colored map. I plan on providing more details regarding the results of this survey at the public hearing on July 28, 2014. The surveys taken indicate that all of those responding on Ormond Rd., Leland Rd., Washington Square, and Elmwood Ave. are opposed to the application. The consensus of other neighbors surveyed revealed that they too are opposed to opening the four streets to carry additional traffic that only benefits Masonic Home residents and employees.

I am attaching 69 pages containing 932 signatures of individuals opposed to the application. I will make arrangements to hand deliver to your office a signed copy of this email and the originals of all petition pages.

Based on information you provided me via email, a number of my neighbors were informed that the deadline for filing pre-hearing statements or exhibits was 5 pm Friday, July 18, 2014. You informed me this afternoon that the staff report will be completed with the agenda and corresponding materials tomorrow, Thursday July 17 and posted by Friday at noon with the agenda and corresponding materials. It is my understanding and that of other neighbors that all documents were to be in by Friday so that they may be considered in the staff report and included as documents made available to the Planning Commissioner members prior to the hearing.

Sincerely,

Tracy Evans
Ormond Rd, St. Matthews, KY

As residents, neighbors and affected citizens of St. Matthews, Indian Hills, Rolling Fields, Mockingbird Gardens, Bellwood, Druid Hills, Napanee Village and other surrounding neighborhoods, we strongly oppose Masonic Homes of KY, Inc.'s request to open access from their extensive commercial and residential property through the peaceful dead end neighborhoods of Ormond and Leland Roads, Elmwood Avenue, and Washington Square onto Chenoweth Ln. by electronic gate or otherwise, for exclusive use of their staff, employees, residents or anyone else, for any reason, now or in the future.

If Masonic Homes of KY, Inc.'s request of convenience is granted, it will negatively impact the quiet, safety and privacy of the homeowners, many of them senior citizens, on these four streets as well as the safety of our residents (and children) in the surrounding community. Chenoweth Lane is heavily congested and increasing traffic by the proposed hundreds and potentially thousands of cars will pose a danger to pedestrians, bicyclists and motorists. In addition, future roadway improvement plans or repairs will become more complicated and be onerous on those who rely on this already busy corridor.

The undersigned, hereby petition the Planning Commission to reject unconditionally, the Masonic Homes of KY, Inc.'s request to amend their obligation to Binding Element 3 created to protect our neighborhoods from their seeking access through our streets mentioned above due to its infringement of the prosperity, health, safety and general welfare of our community.

The residents of these streets and surrounding neighborhoods and the City of St. Matthews should not be forced to bear the burden of the Masonic Homes' traffic, safety, or other conditions which they have voluntarily created.

Respectfully submitted,

4 Vicount
36 Homes

I have read the above statement of opposition and agree.

//

As residents, neighbors and affected citizens of St. Matthews, Indian Hills, Rolling Fields, Mockingbird Gardens, Bellwood, Druid Hills, Napanee Village and other surrounding neighborhoods, we strongly oppose Masonic Homes of KY, Inc.'s request to open access from their extensive commercial and residential property through the peaceful dead end neighborhoods of Ormond and Leland Roads, Elmwood Avenue, and Washington Square onto Chenoweth Ln. by electronic gate or otherwise, for exclusive use of their staff, employees, residents or anyone else, for any reason, now or in the future.

If Masonic Homes of KY, Inc.'s request of convenience is granted, it will negatively impact the quiet, safety and privacy of the homeowners, many of them senior citizens, on these four streets as well as the safety of our residents (and children) in the surrounding community. Chenoweth Lane is heavily congested and increasing traffic by the proposed many hundreds of cars will pose a danger to pedestrians, bicyclists and motorists. In addition, future roadway improvement plans or repairs will become more complicated and be onerous on those who rely on this already busy corridor.

The undersigned, hereby petition the Planning Commission to reject unconditionally, the Masonic Homes of KY, Inc.'s request to amend their obligation to Binding Element 3 created to protect our neighborhoods from their seeking access through our streets mentioned above due to its infringement of the prosperity, health, safety and general welfare of our community.

The residents of these streets and surrounding neighborhoods and the City of St. Matthews should not be forced to bear the burden of the Masonic Homes' traffic, safety, or other conditions which they have voluntarily created.

Respectfully submitted,

I have read the above statement of opposition and agree.

As residents, neighbors and affected citizens of St. Matthews, Indian Hills, Rolling Fields, Mockingbird Gardens, Bellwood, Druid Hills, Napanee Village and other surrounding neighborhoods, we strongly oppose Masonic Homes of KY, Inc.'s request to open access from their extensive commercial and residential property through the peaceful dead end neighborhoods of Ormond and Leland Roads, Elmwood Avenue, and Washington Square onto Chenoweth Ln. by electronic gate or otherwise, for exclusive use of their staff, employees, residents or anyone else, for any reason, now or in the future.

If Masonic Homes of KY, Inc.'s request of convenience is granted, it will negatively impact the quiet, safety and privacy of the homeowners, many of them senior citizens, on these four streets as well as the safety of our residents (and children) in the surrounding community. Chenoweth Lane is heavily congested and increasing traffic by the proposed many hundreds of cars will pose a danger to pedestrians, bicyclists and motorists. In addition, future roadway improvement plans or repairs will become more complicated and be onerous on those who rely on this already busy corridor.

The undersigned, hereby petition the Planning Commission to reject unconditionally, the Masonic Homes of KY, Inc.'s request to amend their obligation to Binding Element 3 created to protect our neighborhoods from their seeking access through our streets mentioned above due to its infringement of the prosperity, health, safety and general welfare of our community.

The residents of these streets and surrounding neighborhoods and the City of St. Matthews should not be forced to bear the burden of the Masonic Homes' traffic, safety, or other conditions which they have voluntarily created.

Respectfully submitted,

I have read the above statement of opposition and agree.

As residents, neighbors and affected citizens of St. Matthews, Indian Hills, Rolling Fields, Mockingbird Gardens, Bellwood, Druid Hills, Napanee Village and other surrounding neighborhoods, we strongly oppose Masonic Homes of KY, Inc.'s request to open access from their extensive commercial and residential property through the peaceful dead end neighborhoods of Ormond and Leland Roads, Elmwood Avenue, and Washington Square onto Chenoweth Ln. by electronic gate or otherwise, for exclusive use of their staff, employees, residents or anyone else, for any reason, now or in the future.

If Masonic Homes of KY, Inc.'s request of convenience is granted, it will negatively impact the quiet, safety and privacy of the homeowners, many of them senior citizens, on these four streets as well as the safety of our residents (and children) in the surrounding community. Chenoweth Lane is heavily congested and increasing traffic by the proposed many hundreds of cars will pose a danger to pedestrians, bicyclists and motorists. In addition, future roadway improvement plans or repairs will become more complicated and be onerous on those who rely on this already busy corridor.

The undersigned, hereby petition the Planning Commission to reject unconditionally, the Masonic Homes of KY, Inc.'s request to amend their obligation to Binding Element 3 created to protect our neighborhoods from their seeking access through our streets mentioned above due to its infringement of the prosperity, health, safety and general welfare of our community.

The residents of these streets and surrounding neighborhoods and the City of St. Matthews should not be forced to bear the burden of the Masonic Homes' traffic, safety, or other conditions which they have voluntarily created.

Respectfully submitted,

I have read the above statement of opposition and agree.

As residents, neighbors and affected citizens of St. Matthews, Indian Hills, Rolling Fields, Mockingbird Gardens, Bellwood, Druid Hills, Napanee Village and other surrounding neighborhoods, we strongly oppose Masonic Homes of KY, Inc.'s request to open access from their extensive commercial and residential property through the peaceful dead end neighborhoods of Ormond and Leland Roads, Elmwood Avenue, and Washington Square onto Chenoweth Ln. by electronic gate or otherwise, for exclusive use of their staff, employees, residents or anyone else, for any reason, now or in the future.

If Masonic Homes of KY, Inc.'s request of convenience is granted, it will negatively impact the quiet, safety and privacy of the homeowners, many of them senior citizens, on these four streets as well as the safety of our residents (and children) in the surrounding community. Chenoweth Lane is heavily congested and increasing traffic by the proposed many hundreds of cars will pose a danger to pedestrians, bicyclists and motorists. In addition, future roadway improvement plans or repairs will become more complicated and be onerous on those who rely on this already busy corridor.

The undersigned, hereby petition the Planning Commission to reject unconditionally, the Masonic Homes of KY, Inc.'s request to amend their obligation to Binding Element 3 created to protect our neighborhoods from their seeking access through our streets mentioned above due to its infringement of the prosperity, health, safety and general welfare of our community.

The residents of these streets and surrounding neighborhoods and the City of St. Matthews should not be forced to bear the burden of the Masonic Homes' traffic, safety, or other conditions which they have voluntarily created.

Respectfully submitted,

I have read the above statement of opposition and agree.

As residents, neighbors and affected citizens of St. Matthews, Indian Hills, Rolling Fields, Mockingbird Gardens, Bellwood, Druid Hills, Napanee Village and other surrounding neighborhoods, we strongly oppose Masonic Homes of KY, Inc.'s request to open access from their extensive commercial and residential property through the peaceful dead end neighborhoods of Ormond and Leland Roads, Elmwood Avenue, and Washington Square onto Chenoweth Ln. by electronic gate or otherwise, for exclusive use of their staff, employees, residents or anyone else, for any reason, now or in the future.

If Masonic Homes of KY, Inc.'s request of convenience is granted, it will negatively impact the quiet, safety and privacy of the homeowners, many of them senior citizens, on these four streets as well as the safety of our residents (and children) in the surrounding community. Chenoweth Lane is heavily congested and increasing traffic by the proposed many hundreds of cars will pose a danger to pedestrians, bicyclists and motorists. In addition, future roadway improvement plans or repairs will become more complicated and be onerous on those who rely on this already busy corridor.

The undersigned, hereby petition the Planning Commission to reject unconditionally, the Masonic Homes of KY, Inc.'s request to amend their obligation to Binding Element 3 created to protect our neighborhoods from their seeking access through our streets mentioned above due to its infringement of the prosperity, health, safety and general welfare of our community.

The residents of these streets and surrounding neighborhoods and the City of St. Matthews should not be forced to bear the burden of the Masonic Homes' traffic, safety, or other conditions which they have voluntarily created.

Respectfully submitted,

I have read the above statement of opposition and agree.
