Subject: McCawley Road New Sidewalk Project

CW Flood,

Please find below the cost estimate for the implementation of the new sidewalk along the north side of McCawley Road. The project goes from Preston Highway and will connect up with the new apartment sidewalk at 1253 McCawley Road. Strand Associates preformed a Preliminary Design of this project and presented the results to CW Flood on June 9, 2020. We laid out our vision of the scope of the project. The project will have 3 distinct design sections. We will coordinate and implement the following phases as soon as funding becomes available to Metro Public Works.

Provide Final Design Plans for Sections A, B & C = \$80,600
Acquire R/W for Sections B & C = \$50,000
Build Section A = \$40,000
Build Section C = \$89,400
Total = \$260,000

Construction of Sections A & C will be used by Metro's New Sidewalk Annual contractor. We will bid out Section B for construction once funding becomes available in the future. Section B contains the needed box culvert extension and probably some corresponding utility relocation.

Thanks,

Steve Kurowsky, PE
