- DEMAND RESIGNATION OF FBI DIRECTOR CHRISTOPHER WRAY for **CRIMINAL NEGLIGENCE LEADING TO TOP'S GROCERY MASSACRE –**
 - CONST. CONVENTION to **REMOVE BIDEN for CONTINUING DEADLY CRISES –**
-

Council Members,

When hearing about the May 14 Top's Grocery Store massacre, I continued to listen for the same story background. It finally came, that the FBI / authorities were already tracking shooter Payton [S.] Gendron. Gendron was released from custody while undergoing psychiatric evaluation and allowed to purchase firearms. Here again, it was FBI negligence leading to these murders. Thus, I am calling for the resignation of **FBI Director Christopher Wray** for harboring this culture of willful FBI negligence. I demand Wray's termination. And pursuant to my April 9, 2021 letter to Sen. Mitch McConnell, posted on my websites, I demand an independent audit of FBI activities. It is apparent that the FBI is facilitating these mass shootings to influence public opinion on gun control.

Next, attached is my March 28, 2022 letter to Mayor Greg Fischer and the Metro Council explaining why **Kentucky House Bill 314**, now passed, was necessary for allowing Metro townships to incorporate. And at the April 19, 2022 mayor candidate's forum, I explained to the candidates that the next Louisville mayor will also fail unless stopping the Federal Reserve's three antitrust violations that is causing taxpayers to pay over 50% of federal taxes to the national debt. This depletion of the U.S. tax base is why there's not enough money to service the townships. Attached, Lines 5 & 8 in the *Taxpayer's Balance Sheet* shows we are headed for economic depression though President Biden and media propaganda are saying it will be recession due to inflation. The extreme debt, that forces borrowing, causes inflation. For here again, this is an avoidable debt crisis, along with the baby formula and next COVID crises, and Biden allowing Putin to destroy the Ukraine breadbasket to create food shortages. See my online proposal for **Emergency Constitutional Convention** for replacing Biden with **Sen. Joe Manchin** for interim President and **Gov. Ron DeSantis** as vice president.

Attached see my Petition-letter for removing Biden and replacing the Federal Reserve with the **Office of Commercial Contracts** within the U.S. Treasury Dept.

Thank you.

Inevitable Due to Antitrust Violations Causing the \$Transfer-of-
Wealth to Wall Street Corporations**

- An Invitation to Speak at the April 14 Rally to Stop High Rent

Dear Mayor Fischer,

Your disappointment in H.B. 314 was apparent on the TV news. But these actions by local people wanting to incorporate is inevitable due to Metro Louisville's refusal to support stopping the \$transfer-of-wealth to Wall Street corporations. With Americans paying over \$3 trillion (50%) of federal taxes & fees to the Federal Reserve debt, the \$transfer is draining the "financial blood" from cities. This un-payable, circular debt is leading to economic collapse.

People are feeling helpless with the unpaved streets. They don't know it's the \$transfer-of-wealth, three antitrust violations, causing their miseries by Metro Louisville not having the money to service their needs.

We can still save America (if that's what you want) by stopping the violations. As mayor, you can begin to show the courage of acting against our "wrongful government" in demanding Congress and the Federal Reserve board to reverse the violations; this will quickly recover the U.S. tax base. – And whereby, I hereby extend this invitation to you to speak at the April 14 street rally calling for reversing / stopping the violations. Otherwise, Mayor Fischer, **your legacy will be of you helping to destroy America.**

See the attached flyer with the time and location. For the sake of Louisville, please let me know that you can come. Thank you for your time.

My very best regards, Mayor,

Daniel Cobble

Taxpayers' Annual Taxes Paid to

BALANCE SHEET

Federal Reserve Debt (Over \$3 trillion / 50% of collected taxes & growing)

1. Total estimated tax collections in 2018 based on Congressional Budget Office report of \$1.5 trillion collected in first quarter (4 x \$1.5 = \$6.0 tril.).

\$6.0 trillion

2. U.S. Budget for 2018

- 4.2

3. Taxes that exceeded budget paid to debt

\$1.8

4. Additional taxes taken from budget \$outlays to pay down (service) debt

+ 1.2

real dollars
from taxpayers
that increase w/
tax & fee hikes

5. **Total taxes paid to U.S. debt in 2018**

Jan. 2022 total debt = **\$28.9 trillion**; it grows even though repaying \$trillions every year (as "circular debt")

\$3.0 trillion

6. Total estimated tax collections in 2018 based on Congressional Budget Office report of \$1.5 trillion collected in first quarter (4 x \$1.5 = \$6.0 tril.).

\$6.0 trillion

7. **Total taxes paid to U.S. debt in 2018**

- 3.0 50%*

* 8. Total taxes applied to U.S. budget

\$3.0 trillion

9. Loans from Fed. Reserve applied to U.S. budget (U.S. borrows approx. \$1 trillion every 10 months)

+ 1.2 taken from rate of
debt growth in one year

10. Total taxes + loans funded U.S. budget in 2018

\$4.2 trillion

* "Total taxes applied to U.S. budget" gets smaller every year while debt grows (see Item 5, above). This circular debt / constant borrowing is due to three antitrust violations by the Federal Reserve since 1999 (see fed. lawsuit 3:20-cv-298). Eventually, budget cannot sustain \$obligations, leading to economic collapse. –

- **Solutions:** STOP the antitrust violations; replace Federal Reserve with "Office of Commercial Contracts" for commercial banks within U.S. Treasury Dept (required by U.S. Constitution).

- **Why is MacGarvey Running So Hard this Early?**

May 13, 2022, Statement by Daniel Cobble, Candidate for
U.S. Representative (R), Louisville, Kentucky District 3

In her May 12, 2022 story on the candidates seeking to replace U.S. Representative John Yarmuth, **Rachel Droze** falsely reported that I had nothing to say to her questions.

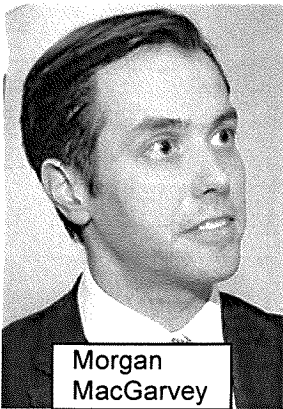

During the interview, my first and only response to Ms. Droze was, ***“The Louisville media has failed the communities by not reporting on the candidates.”*** It’s that simple.

I informed Ms. Droze that this is my only response and she stated she would air the response. But she didn’t.

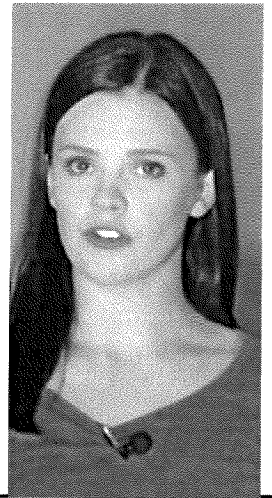

The Louisville media is negligent of their broadcast duties by not doing any stories on the candidates since the campaign season began five months ago. Only this week, just before the election, are they now doing 15-second sound bites. Apparently, this “unusual behavior” is due to me secretly polling #1 to win the Republican nomination on Tuesday, May 17. The media has avoided broadcasting the “Cobble name” at the expense of communities not learning about the candidates of which voters will be voting on Tuesday.

(These acts against the public interest are even more reasons we have to demand broadcast media to become “independent,” to divest of their “corporate masters.” *Would Morgan MacGarvey support this change?*)

Hence, I challenge Ms. Droze to play the video-taped interview for her viewers that we recorded on May 10.

MacGarvey

I also believe Democrat Candidate **Morgan MacGarvey** is campaigning very hard in preparation for running against me. MacGarvey knows he cannot get past my “bread-n-butter” issues that neither “party leadership” is addressing. These include repairing the debt crisis that will fix the U.S. Postal Service, “\$high rent” and high prices, and other crises, no fee public childcare, neighborhood voting precincts, etc. – Voters are weary of the empty promises that are now leading to collapsing the economy. In his “heart-of-hearts,” MacGarvey knows voters cannot afford to take a chance on him. Apparently that is why he is running so hard. He only has money to fight with, and nothing else. ☹

P.S. Voter Security. As in 2020, county & State authorities are using countywide early voting precincts to cheat in the 2022 elections. So I advise you to vote on May 17 at your neighborhood precinct, as required by §148 of the KY Constitution. See background at TheProtectAmericaProject.org.
