

Variance Justification:

In order to justify approval of any variance, the Board of Zoning Adjustment considers the following criteria. Please answer all of the following items. Use additional sheets if needed. A response of yes, no, or N/A is not acceptable.

1. Explain how the variance will not adversely affect the public health, safety or welfare.

This fence will not affect anyone because will be inside my property

2. Explain how the variance will not alter the essential character of the general vicinity.

The fence will be inside my property and would be the same height as the fence of the neighbors around me

3. Explain how the variance will not cause a hazard or a nuisance to the public.

it won't be a hindrance since the neighbors have the sidewalk they don't have to walk inside my property

4. Explain how the variance will not allow an unreasonable circumvention of the requirements of the zoning regulations.

I just want to build a fence 6 feet tall no more more than that.

Additional consideration:

1. Explain how the variance arises from special circumstances, which do not generally apply to land in the general vicinity (please specify/identify).
