| <b>Council District:</b> | 15 – Marianne Butler                       |
| <b>Case Manager:</b>     | Jon Crumbie, Planning & Design Coordinator |

**This case was continued from the June 18<sup>th</sup>, 2018 docket**

**REQUEST(S)**

- Conditional Use Permit to allow off-street parking in an R-5 zoning district.
- Waiver to not provide the 3-foot wall along the property lines facing South Preston Street and Lynn Street
- Waivers to eliminate the required 15 feet landscape buffer along the north and east property lines

| Location            | Requirement | Request | Waiver |
|---------------------|-------------|---------|--------|
| North Property Line | 15'         | 0       | 15'    |
| East Property Line  | 15'         | 0       | 15'    |

- Waivers to reduce the required 5 feet vehicular use area facing South Preston Street and Lynn Street

| Location             | Requirement | Request             | Waiver |
|----------------------|-------------|---------------------|--------|
| South Preston Street | 5'          | 1' at closest point | 4'     |
| Lynn Street          | 5'          | 4'                  | 1'     |

**CASE SUMMARY/BACKGROUND**

The applicant is proposing to add 14 parking spaces related to the proposed laundry, tavern, and arcade that will be located at 2070 South Preston Street.

**Related Cases**

**17ZONE1058**

A change in zoning from R-6 to C-2 on property known as 2070 South Preston Street. The proposal is still going through the development plan review process.

**9-59-86**

An Ordinance to change the zoning from C-1 and R-6 to C-2 at 2100 South Preston Street. This Ordinance was approved on November 14, 1986.

### **STAFF FINDING / RECOMMENDATION**

The proposal is consistent with the policies of the Comprehensive Plan except landscaping. The applicant will be asking for waivers. There are seven specific standards required to obtain the conditional use permit requested. The applicant will be asking for relief from item c. Based upon the information in the staff report, the testimony and evidence provided at the public meeting, the Board of Zoning Adjustment must determine if the proposal meets the standards established in the Development Code for a conditional use permit.

### **TECHNICAL REVIEW**

There are no outstanding technical review items.

### **INTERESTED PARTY COMMENTS**

The original neighborhood meeting was held on June 27, 2016. Staff has no record of questions asked or comments received. A joint meeting was held on May 8, 2018, to discuss the rezoning and conditional use permit. Eleven people attended the meeting.

### **STANDARD OF REVIEW AND STAFF ANALYSIS FOR CONDITIONAL USE PERMIT**

1. Is the proposal consistent with the applicable policies of the Comprehensive Plan?

STAFF: The proposal is consistent with the applicable policies of the Comprehensive Plan. The required landscaping and buffering will be eliminated and/or reduced.

2. Is the proposal compatible with surrounding land uses and the general character of the area including such factors as height, bulk, scale, intensity, traffic, noise, odor, drainage, dust, lighting, appearance, etc?

STAFF: The proposal is compatible with the general character of the surrounding neighborhoods in terms of scale, intensity, traffic, noise, drainage and appearance.

3. Are necessary public facilities (both on-site and off-site), such as transportation, sanitation, water, sewer, drainage, emergency services, education, recreation, etc. adequate to serve the proposed use?

STAFF: The proposal has been reviewed by MSD and Transportation Planning and both have approved the plan. The Louisville Fire Protection District #4 did not comment on the proposal.

4. Does the proposal comply with the following specific standards required to obtain the conditional use permit requested?

STAFF: An off-street parking area may be permitted in a district where it is ordinarily prohibited, provided it serves a use in a building for which insufficient off-street parking space is provided, and where the provision of such parking space will materially relieve traffic congestion on the

streets and when developed in compliance with the listed requirements. There are seven requirements and six will be met. The applicant will be asking for relief from item c.

a. The area shall be located within 200 feet of the property on which the building to be served is located.

b. Walls, fences, or plantings shall be provided in a manner to provide protection for and be in harmony with surrounding residential property.

c. The minimum front, street side, and side yards required in the district shall be maintained free of parking. **The required front yard along South Preston Street is 15 feet. The parking/maneuvering area will be one foot from the front property line. The required side yard along the north property line is three feet. The parking/maneuvering area will be located on the property line. The required Lynn Street street side yard along the south property line is three feet. The parking/maneuvering area will be located two feet from the property line. The required rear yard along the east property line is five feet. The parking/maneuvering area will be located on the property line.**

d. All driveways and the area used for the parking of vehicles shall be surfaced with a hard and durable material and be properly drained.

e. The area shall be used exclusively for transient parking of motor vehicles belonging to invitees of the owner or lessee of said lot.

f. The approval of all plans and specifications for the improvement, surfacing, and drainage for said parking area will be obtained from the Director of Works for the City of Louisville or the County Engineer for Jefferson County prior to use of the parking area.

g. The approval of all plans and specifications for all entrances, exits, and lights shall be obtained from the department responsible for traffic engineering prior to the public hearing on the conditional use permit.

#### **STANDARD OF REVIEW AND STAFF ANALYSIS FOR WAIVER STREET WALL – SOUTH PRESTON STREET & LYNN STREET**

- (a) The waiver will not adversely affect adjacent property owners; and

STAFF: The waiver will not adversely affect adjacent property owners since the proposal will maintain the current use as a parking lot and improve the lots appearance and safety.

- (b) The waiver will not violate specific guidelines of Cornerstone 2020; and

STAFF: Guideline 3, Policy 9 of Cornerstone 2020 calls for protection of the character of residential areas, roadway corridors and public spaces from visual intrusions and mitigation when appropriate.

- (c) The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant; and

STAFF: The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant since the parking will be brought into compliance with the conditional use permit and new entrance/exit onto Lynn Street.

- (d) Either:  
(i) The applicant has incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect); OR  
(ii) The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would create an unnecessary hardship on the applicant because the configuration of the parking lot would need to change and parking spaces could be lost.

#### **STANDARD OF REVIEW AND STAFF ANALYSIS FOR WAIVER LANDSCAPE BUFFER ALONG THE NORTH & EAST PROPERTY LINES**

- (a) The waiver will not adversely affect adjacent property owners; and

STAFF: The waiver will not adversely affect adjacent property owners since the proposal will maintain the current use as a parking lot and improve the lots appearance and safety.

- (b) The waiver will not violate specific guidelines of Cornerstone 2020; and

STAFF: Guideline 3, Policy 9 of Cornerstone 2020 calls for protection of the character of residential areas, roadway corridors and public spaces from visual intrusions and mitigation when appropriate. Guideline 3, Policies 21 and 22 call for appropriate transitions between uses that are substantially different in scale and intensity or density, and mitigation of the impact caused when incompatible developments occur adjacent to one another through the use of landscaped buffer yards, vegetative berms and setback requirements to address issues such as outdoor lighting, lights from automobiles, illuminated signs, loud noise, odors, smoke, automobile exhaust or other noxious smells, dust and dirt, litter, junk, outdoor storage, and visual nuisances. Guideline 3, Policy 24 states that parking, loading and delivery areas located adjacent to residential areas should be designed to minimize impacts from noise, lights and other potential impacts, and that parking and circulation areas adjacent to streets should be screened or buffered. Guideline 13, Policy 4 calls for ensuring appropriate landscape design standards for different land uses within urbanized, suburban, and rural areas. Guideline 13, Policy 6 calls for screening and buffering to mitigate adjacent incompatible uses. The intent of landscape buffer areas is to create suitable transitions where varying forms of development adjoin, to minimize the negative impacts resulting from adjoining incompatible land uses, to decrease storm water runoff volumes and velocities associated with impervious surfaces, and to filter airborne and waterborne pollutants.

- (c) The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant; and

STAFF: The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant since minimum landscaping will be added in areas where there is none.

- (d) Either:

(i) The applicant has incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect); OR

(ii) The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would create an unnecessary hardship on the applicant because the configuration of the parking lot would need to change and parking spaces could be lost.

**STANDARD OF REVIEW AND STAFF ANALYSIS FOR WAIVER  
VEHICULAR USE AREA FACING SOUTH PRESTON STREET & LYNN  
STREET**

- (a) The waiver will not adversely affect adjacent property owners; and

STAFF: The waiver will not adversely affect adjacent property owners since the proposal will maintain the current use as a parking lot and improve the lots appearance and safety.

- (b) The waiver will not violate specific guidelines of Cornerstone 2020; and

STAFF: The waiver will not violate Guideline 3, Compatibility, of Cornerstone 2020, which calls for the protection of roadway corridors and public areas from visual intrusions, for mitigation of parking areas so as not to negatively impact nearby residents and pedestrians, and for screening and buffering of parking areas adjacent to streets. The waiver will not violate Guideline 13, Landscape Character, which calls for the protection of parkways through standards for buffers, landscape treatment, lighting and signs. The purpose of vehicle use area landscape buffer areas is to improve the appearance of vehicular use areas and property abutting public rights-of way.

- (c) The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant; and

STAFF: The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant since minimum landscaping will be added in areas where there is none.

- (d) Either:

(i) The applicant has incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect); OR

(ii) The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would create an unnecessary hardship on the applicant because the configuration of the parking lot would need to change and parking spaces could be lost.

|----|----------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|------------------------------------------------------------------------------------------------------------------|
| 10 | Community Form/Land Use Guideline 2: Centers       | A.12: If the proposal is a large development in a center, it is designed to be compact and multi-purpose, and is oriented around a central feature such as a public square or plaza or landscape element.                                                                                        |               |                                                                                                                  |
| 11 | Community Form/Land Use Guideline 2: Centers       | A.13/15: The proposal shares entrance and parking facilities with adjacent uses to reduce curb cuts and surface parking, and locates parking to balance safety, traffic, transit, pedestrian, environmental and aesthetic concerns.                                                              | ✓             | The parking will serve the proposed laundry, tavern, and arcade that are proposed for 2070 South Preston Street. |
| 12 | Community Form/Land Use Guideline 2: Centers       | A.14: The proposal is designed to share utility hookups and service entrances with adjacent developments, and utility lines are placed underground in common easements.                                                                                                                          |               |                                                                                                                  |
| 13 | Community Form/Land Use Guideline 2: Centers       | A.16: The proposal is designed to support easy access by bicycle, car and transit and by pedestrians and persons with disabilities.                                                                                                                                                              |               |                                                                                                                  |
| 14 | Community Form/Land Use Guideline 3: Compatibility | A.2: The proposed building materials increase the new development's compatibility.                                                                                                                                                                                                               |               |                                                                                                                  |
| 15 | Community Form/Land Use Guideline 3: Compatibility | A.4/5/6/7: The proposal does not constitute a non-residential expansion into an existing residential area, or demonstrates that despite such an expansion, impacts on existing residences (including traffic, parking, signs, lighting, noise, odor and stormwater) are appropriately mitigated. |               |                                                                                                                  |
| 16 | Community Form/Land Use Guideline 3: Compatibility | A.5: The proposal mitigates any potential odor or emissions associated with the development.                                                                                                                                                                                                     | ✓             | APCD has reviewed and approved the proposal.                                                                     |
| 17 | Community Form/Land Use Guideline 3: Compatibility | A.6: The proposal mitigates any adverse impacts of its associated traffic on nearby existing communities.                                                                                                                                                                                        | ✓             | Transportation Planning has reviewed and approved the proposal.                                                  |
| 18 | Community Form/Land Use Guideline 3: Compatibility | A.8: The proposal mitigates adverse impacts of its lighting on nearby properties, and on the night sky.                                                                                                                                                                                          | ✓             | Lighting is not a part of the proposal.                                                                          |
| 19 | Community Form/Land Use Guideline 3: Compatibility | A.11: If the proposal is a higher density or intensity use, it is located along a transit corridor AND in or near an activity center.                                                                                                                                                            |               |                                                                                                                  |

| #  | Cornerstone 2020 Plan Element                      | Plan Element or Portion of Plan Element                                                                                                                                                                                                                                                                                                             | Staff Finding | Staff Comments                         |
|----|----------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|----------------------------------------|
| 20 | Community Form/Land Use Guideline 3: Compatibility | A.21: The proposal provides appropriate transitions between uses that are substantially different in scale and intensity or density of development such as landscaped buffer yards, vegetative berms, compatible building design and materials, height restrictions, or setback requirements.                                                       |               |                                        |
| 21 | Community Form/Land Use Guideline 3: Compatibility | A.22: The proposal mitigates the impacts caused when incompatible developments unavoidably occur adjacent to one another by using buffers that are of varying designs such as landscaping, vegetative berms and/or walls, and that address those aspects of the development that have the potential to adversely impact existing area developments. | -             | Landscape waivers will be needed.      |
| 22 | Community Form/Land Use Guideline 3: Compatibility | A.23: Setbacks, lot dimensions and building heights are compatible with those of nearby developments that meet form district standards.                                                                                                                                                                                                             |               |                                        |
| 23 | Community Form/Land Use Guideline 3: Compatibility | A.24: Parking, loading and delivery areas located adjacent to residential areas are designed to minimize adverse impacts of lighting, noise and other potential impacts, and that these areas are located to avoid negatively impacting motorists, residents and pedestrians.                                                                       | -             | Landscape waivers will be needed.      |
| 24 | Community Form/Land Use Guideline 3: Compatibility | A.24: The proposal includes screening and buffering of parking and circulation areas adjacent to the street, and uses design features or landscaping to fill gaps created by surface parking lots. Parking areas and garage doors are oriented to the side or back of buildings rather than to the street.                                          | -             | Landscape waivers will be needed.      |
| 25 | Community Form/Land Use Guideline 3: Compatibility | A.25: Parking garages are integrated into their surroundings and provide an active, inviting street-level appearance.                                                                                                                                                                                                                               |               |                                        |
| 26 | Community Form/Land Use Guideline 3: Compatibility | A.28: Signs are compatible with the form district pattern and contribute to the visual quality of their surroundings.                                                                                                                                                                                                                               | ✓             | Signage is not a part of the proposal. |

|----|-------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------------------------------------------------------------------|
| 36 | Marketplace Guideline 6: Economic Growth and Sustainability | A.6: Locate retail commercial development in activity centers. Locate uses generating large amounts of traffic on a major arterial, at the intersection of two minor arterials or at locations with good access to a major arterial and where the proposed use will not adversely affect adjacent areas.                                                                                                   |               |                                                                       |
| 37 | Marketplace Guideline 6: Economic Growth and Sustainability | A.8: Require industrial development with more than 100 employees to locate on or near an arterial street, preferably in close proximity to an expressway interchange. Require industrial development with less than 100 employees to locate on or near an arterial street.                                                                                                                                 |               |                                                                       |
| 38 | Mobility/Transportation Guideline 7: Circulation            | A.1/2: The proposal will contribute its proportional share of the cost of roadway improvements and other services and public facilities made necessary by the development through physical improvements to these facilities, contribution of money, or other means.                                                                                                                                        |               |                                                                       |
| 39 | Mobility/Transportation Guideline 7: Circulation            | A.3/4: The proposal promotes mass transit, bicycle and pedestrian use and provides amenities to support these modes of transportation.                                                                                                                                                                                                                                                                     |               |                                                                       |
| 40 | Mobility/Transportation Guideline 7: Circulation            | A.6: The proposal's transportation facilities are compatible with and support access to surrounding land uses, and contribute to the appropriate development of adjacent lands. The proposal includes at least one continuous roadway through the development, adequate street stubs, and relies on cul-de-sacs only as short side streets or where natural features limit development of "through" roads. |               |                                                                       |
| 41 | Mobility/Transportation Guideline 7: Circulation            | A.9: The proposal includes the dedication of rights-of-way for street, transit corridors, bikeway and walkway facilities within or abutting the development.                                                                                                                                                                                                                                               |               |                                                                       |
| 42 | Mobility/Transportation Guideline 7: Circulation            | A.10: The proposal includes adequate parking spaces to support the use.                                                                                                                                                                                                                                                                                                                                    | -             | Staff does not know the parking requirements for the use (17ZONE1058) |

| #  | Cornerstone 2020 Plan Element                                        | Plan Element or Portion of Plan Element                                                                                                                                                                                                                                                                                                                                                                                               | Staff Finding | Staff Comments                               |
|----|----------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|----------------------------------------------|
| 43 | Mobility/Transportation Guideline 7: Circulation                     | A.13/16: The proposal provides for joint and cross access through the development and to connect to adjacent development sites.                                                                                                                                                                                                                                                                                                       |               |                                              |
| 44 | Mobility/Transportation Guideline 8: Transportation Facility Design  | A.8: Adequate stub streets are provided for future roadway connections that support and contribute to appropriate development of adjacent land.                                                                                                                                                                                                                                                                                       |               |                                              |
| 45 | Mobility/Transportation Guideline 8: Transportation Facility Design  | A.9: Avoid access to development through areas of significantly lower intensity or density if such access would create a significant nuisance.                                                                                                                                                                                                                                                                                        |               |                                              |
| 46 | Mobility/Transportation Guideline 8: Transportation Facility Design  | A.11: The development provides for an appropriate functional hierarchy of streets and appropriate linkages between activity areas in and adjacent to the development site.                                                                                                                                                                                                                                                            |               |                                              |
| 47 | Mobility/Transportation Guideline 9: Bicycle, Pedestrian and Transit | A.1/2: The proposal provides, where appropriate, for the movement of pedestrians, bicyclists and transit users around and through the development, provides bicycle and pedestrian connections to adjacent developments and to transit stops, and is appropriately located for its density and intensity.                                                                                                                             |               |                                              |
| 48 | Livability/Environment Guideline 10: Flooding and Stormwater         | The proposal's drainage plans have been approved by MSD, and the proposal mitigates negative impacts to the floodplain and minimizes impervious area. Solid blue line streams are protected through a vegetative buffer, and drainage designs are capable of accommodating upstream runoff assuming a fully-developed watershed. If streambank restoration or preservation is necessary, the proposal uses best management practices. | ✓             | MSD has reviewed and approved the proposal.  |
| 49 | Livability/Environment Guideline 12: Air Quality                     | The proposal has been reviewed by APCD and found to not have a negative impact on air quality.                                                                                                                                                                                                                                                                                                                                        | ✓             | APCD has reviewed and approved the proposal. |
| 50 | Livability/Environment Guideline 13: Landscape Character             | A.3: The proposal includes additions and connections to a system of natural corridors that can provide habitat areas and allow for migration.                                                                                                                                                                                                                                                                                         |               |                                              |

| #  | Cornerstone 2020 Plan Element                     | Plan Element or Portion of Plan Element                                                                                                           | Staff Finding | Staff Comments |
|----|---------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|---------------|----------------|
| 51 | Community Facilities Guideline 14: Infrastructure | A.2: The proposal is located in an area served by existing utilities or planned for utilities.                                                    |               |                |
| 52 | Community Facilities Guideline 14: Infrastructure | A.3: The proposal has access to an adequate supply of potable water and water for fire-fighting purposes.                                         |               |                |
| 53 | Community Facilities Guideline 14: Infrastructure | A.4: The proposal has adequate means of sewage treatment and disposal to protect public health and to protect water quality in lakes and streams. |               |                |

#### 4. Conditions of Approval

1. The site shall be developed in strict compliance with the approved development plan (including all notes thereon). No further development shall occur on the site without prior review and approval by the Board.
2. The Conditional Use Permit shall be "exercised" as described in KRS 100.237 within two years of the Board's vote on this case. If the Conditional Use Permit is not so exercised, the site shall not be used for off-street parking without further review and approval by the Board.
